The Battle for the Bs Blair Davis, 2012-04-06 The emergence of the double-bill in the 1930s created a divide between A-pictures and B-pictures as theaters typically screened packages featuring one of each. With the former considered more prestigious because of their larger budgets and more popular actors, the lower-budgeted Bs served largely as a support mechanism to A-films of the major studios—most of which also owned the theater chains in which movies were shown. When a 1948 U.S. Supreme Court antitrust ruling severed ownership of theaters from the studios, the B-movie soon became a different entity in the wake of profound changes to the corporate organization and production methods of the major Hollywood studios. In *The Battle for the Bs*, Blair Davis analyzes how B-films were produced, distributed, and exhibited in the 1950s and demonstrates the possibilities that existed for low-budget filmmaking at a time when many in Hollywood had abandoned the Bs. Made by newly formed independent companies, 1950s B-movies took advantage of changing demographic patterns to fashion innovative marketing approaches. They established such genre cycles as science fiction and teen-oriented films (think *Destination Moon* and *I Was a Teenage Werewolf*) well before the major studios and also contributed to the emergence of the movement now known as underground cinema. Although frequently proving to be multimillion-dollar box-office draws by the end of the decade, the Bs existed in opposition to the cinematic mainstream in the 1950s and created a legacy that was passed on to independent filmmakers in the decades to come.

The Ghost That Closed Down The Town Arthur Goldstuck, 2012-10-02 Arthur Goldstuck made the world of South African urban legends his own with four best-sellers during the 1990s. Now he returns to this landscape, but from a very different angle: looking at the extent to which ghost stories are really urban legends - stories spread by word of mouth (and the media) as absolute truth, but falling short on evidence and reality. In exploring ghost stories as urban legends, Goldstuck makes a fascinating discovery: the ghostly beliefs of each culture across South Africa have had a profound impact on the supernatural beliefs of every other cultural group in the country over the past four centuries. The result is the story of the South African ghost: a unique and complex character that reflects a turbulent history and a harsh existence and sheds a fascinating light on the nature of supernatural

experience throughout the world. For instance, what do the Flying Dutchman and the Uniondale Ghost have in common? Why do the ghosts of so many of the country's fallen soldiers wander the earth seeking their forbidden lovers? How do our religious beliefs affect the way we see ghosts? How many ghosts of Daisy de Melker are really out there? Arthur Goldstuck has some of the answers in a book that challenges much conventional thinking about the supernatural.

Co-habiting with Ghosts Caron Lipman, 2016-05-23 How does it feel to live in a 'haunted home'? How do people negotiate their everyday lives with the experience of uncanny, anomalous or strange events within the domestic interior? What do such experiences reveal of the intersection between the material, immaterial and temporal within the home? How do people interpret, share and narrate experiences which are uncertain and unpredictable? What does this reveal about contested beliefs and different forms of knowledge? And about how people 'co-habit' with ghosts, a distinctive self - other relationship within such close quarters? This book sets out to explore these questions. It applies a non-reductive middle-ground approach which steers beyond an uncritical exploration of supernatural experiences without explaining them away by recourse only to wider social and cultural contexts. The book attends to the ways in which households in England and Wales understand their experience of haunting in relation to ideas of subjectivity, gender, materiality, memory, knowledge and belief. It explores home as a place both dynamic and differentiated, illuminating the complexity of 'everyday' experience - the familiarity of the strange as well as the strangeness of the familiar - and the ways in which home continues to be

configured as a distinctive space.

Psycho in the Shower Philip J. Skerry, 2009-04-01 With this book, Philip Skerry makes an ambitious and largely successful effort to restore perspective to the debate that has swirled around Psycho since Hitchcock first ripped back the shower curtain of our expectations in 1960 and plunged his knife into the collective cinematic consciousness. - John Baxter, Film International Psycho in the Shower is a multi-dimensional study of Psycho's astonishing shower scene. Philip J. Skerry shows how it may be the most significant and influential film scene of all and substantiates this claim by providing chapters on the evolution of the scene in Hitchcock's career, with particular focus on his methods for creating suspense and terror in the audience. In tracing the evolution of the shower scene, the author discusses and analyzes many films (both Hitchcockian and otherwise) that lead up to Psycho. The book places the shower scene in the cultural and social contexts of American popular culture of the 1950s and 1960s, arguing that it helped to create a revolution in both sensibility and cinematic style. Several unique dimensions help to set this study apart from other books on Psycho and Hitchcock: extensive and detailed interviews with people who worked on the film, including star Janet Leigh and screenwriter Joseph Stefano (the last significant interviews before their deaths); a close study of Hitchcock's employment of mise en scene and montage in the scenes leading up to the famous shower murder; a shot by shot analysis of the scene itself and a

discussion of the numerous controversies surrounding it; and a provocative and insightful account of the writing of the book itself, which provides a unique look at the author's creative process. The book culminates with examples of how the shower scene has become embedded in the matrix of contemporary culture and the remarkable ways in which the scene affected people on first viewing.
