Histories of Children and Childhood in Meiji Japan Christian Galan, Harald Salomon, 2024-02-29 This book bridges the gap between historical research on Japan and the field of childhood history by writing children and childhood into the general historical record of the Meiji period. To explore the widely varying circumstances of childhood during the Japanese transition to modernity, the volume presents survey studies and "snapshots" of historical moments by authors from Europe, Japan, and North America. These histories of children and childhood address various thematic aspects, from birth and child-rearing to the representation of childhood in literary works, and these are approached from differing angles, in terms of theoretical perspectives and methodology. The contributions display a particular awareness for the problem of sources in writing the history of childhood and youth. In doing so, they provide precious insights into children's living circumstances and notions of childhood, also beyond the urban centres of evolving modern Japan. Exploring a wealth of sources including autobiographies, educational essays, government documents, children's literature, youth journals and medical manuals, this will be a valuable resource to students and scholars of Japanese history, children's studies, the history of education, and social policy more broadly.

Animal Crackers, which dates from 1883; Across the Continent (1888); the ever-popular children's favorite Candyland (1938); Nurse Ames (1944); the mystery game Clue (1950); Elvis (1958); and many more. Some are well-known, others more rare, but they will surely send readers scrambling to their old toy chests to play another round.

20th Century Words John Ayto, 2002 0195581110

The Book of Firsts, 2003 The fascinating stories behind the world's greatest achievements, discoveries, and breakthroughs.

Twentieth Century Words John Ayto, 1999 A landmark book for the end of the century, presenting an overview of the development of English vocabulary from 1900 to the present day. There will be ten chapters, one for each decade, that will provide an introduction to the decade, with areas of particular importance and interest noted, and a presentation of new words for that decade. The selected entries will be both new words, and words that have important new meanings. They will be listed alphabetically in a dictionary-style presentation, with the earliest recorded date of each word entered, and an exemplary quote also given. The source for the entries will be the OED2, and the Additions Series, as well as unpublished material from the New Words group in the OED Department. In addition to the main alphabetic sequence of entries, there will also be boxed panels covering specific aspects of a decade's vocabulary e.g. words arising directly from World War II for the 1940s. There will also be cross-chapter panels, for example 'insults of the century'. Examples of new words and their, perhaps surprising, earliest recorded dates: 'astronaut' - first coined in the 1920s when it was still an ambition. 'fruit machine' - 1930s; 'discotheque' - 1950s; 'pager' - 1960s

Man, Play, and Games Roger Caillois, 2001 According to Roger Caillois, play is an occasion of pure waste. In spite of this - or because of it - play constitutes an essential element of human social and spiritual development. In this study, the author defines play as a free and voluntary activity that occurs in a pure space, isolated and protected from the rest of life.
