*A Singular Baptism* Carlos Server,2017-05-02 Who hasn't had the opportunity, or rather, the trial, of organizing a large family celebration? Thanks to a peculiar family tradition, Lucía, the protagonist of *A Singular Baptism*, is tasked with arranging the baptism of her son Argimiro on idyllic El Hierro, the smallest of the Canary Islands. During one frantic weekend, Lucía must deal not only with her husband's and her own unconventional families, she must also find out if her suspicions about the true identity of her son's father are correct or merely the result of a simple misunderstanding. With its cast of entertaining characters and everyday situations taken to extremes, *A Singular Baptism* will leave readers wondering if their families are as outlandish as Lucía's. Guaranteed fun. A must-read!

*Narrative Inquiry in Language Teaching and Learning Research* Gary Barkhuizen, Phil Benson, Alice Chik, 2013-11-20 *Narrative Inquiry in Language Teaching and Learning Research* provides an entry-level introduction to research methods using stories, as data or as a means of presenting findings, that is grounded in published empirical research within the field of language teaching and learning. **The HabitSystem - The Actionable Guide to Long-Term Sustainable Habit Implementation** Lukas von Hohnhorst, 2017-05-19 Many people want to change their life; they want to implement new habits to grow. Unfortunately, more often than not, these attempts fail. The HabitSystem is a simple yet powerful approach to finally implement habits long-term. The HabitSystem does not care about quick fixes. It cares about big impact in the long run. Because sustainable change is what matters. In three sections, each likened to one component of a mighty oak tree, the reader learns how habits can be formed. The HabitSystem is not a motivational feel-good book. It also is not a book with funny and pseudo-inspirational anecdotes. Rather, the HabitSystem is a highly practical book: instead of making you feel good, the HabitSystem provides you with proven and simple techniques that have worked for many people before you. The first section analyzes why habits often do not work as intended--and provides you with the right mindset to change that. Upon reading it, you will...\* learn about the two main reasons for failure with new habits\* learn why simple systems beat complex planning\* understand the idea behind Start Slow Then Grow\* learn about the five elements of successful habits\* be provided with an easy to follow framework that can be used right now The second section provides you with the tools that help you to do activities consistently and to track your

progress. Upon reading it, you will...\* learn how habits can be classified based on the Habit Taxonomy\* learn about the three Habit Spheres and how they are related\* learn about the peculiarities of the Spillover Effect\* be able to easily track your progress with Habit Tracking\* be able to create a chain of success that does not break\* learn how to get rid of bad habitsThe third section provides you with more than a dozen habits for your inspiration and an easy-to-follow step-by-step guide to help you getting started. Upon reading it, you will...\* understand the three types of growth\* be provided with more than a dozen habits, explained in detail\* learn about an unconventional approach to exploring new activities\* acquire the skill to learn anything and make everything a habit\* be provided with a step-by-step guide to set up your HabitSystem

*Identity, Motivation and Autonomy in Language Learning* Garold Murray,Xuesong Gao,Terry Lamb,2011 Through the use of qualitative research methods, the authors explore the complex, contingent and dynamic nature of motivation, identity and autonomy --- both for language learners and

teachers --- in many different parts of the world. Importantly, they also look for relationships among the three constructs. This is precisely the integrative approach that should be encouraged as we seek to understand the lived experience of individuals.---Diane Larsen-Freeman, University of Michigan, USA --

**Narrative Research in Applied Linguistics** Gary Barkhuizen, 2013-10-10 This book brings together contributions from various researchers, providing an overview of narrative research approaches and demonstrating how these work in practice. A broad range of approaches are covered, from well-established and well-known thematic analysis (particularly of 'big stories'), to the more recent sociolinguistic discourse analysis of 'small stories', and the innovative analysis and presentation of visual and performance data such as drawings and drama. This overview includes not just an illustration of narrative research, but the methodological processes which underpin it, relating these to relevant narrative theory. The book, therefore, is both a how-to-do narrative research text and a presentation of narrative studies, providing case study examples and ideas for further research.
