Words Whispered in Water Sandy Rosenthal,2020-08-11 “Anyone who is interested in Hurricane Katrina, and in America’s failing infrastructure, will want to read this book . . . a fast-paced narrative.” —Scott G. Knowles, Drexel University 2020 Nautilus Silver Winner In the aftermath of one of the worst disasters in US history, Words Whispered in Water tells the story of one woman’s fight, against all odds, to expose a mammoth federal agency—and win. In 2005, the entire world watched as a major US city was nearly wiped off the map. The levees ruptured and New Orleans drowned. But while newscasters attributed the New Orleans flood to “natural catastrophes” and other types of disasters, citizen investigator Sandy Rosenthal set out to expose the true culprit and compel the media and government to tell the truth. This is her story. When the protective steel flood-walls broke, the Army Corps of Engineers—with cooperation from big media—turned the blame elsewhere. In the chaotic aftermath, Rosenthal heroically exposes the federal agency’s egregious design errors and changes the narrative surrounding the New Orleans flood. This engaging and revealing tale of man versus nature and man versus man is a horror story, a mystery, and David and Goliath story all in one. “Reveals what it takes to hold the powerful to account.” —Publishers Weekly “There are only a few civilians that fight like real warriors. Sandy Rosenthal is one of them.” —Russel L. Honoré, Lieutenant General, United States Army (Ret.)

Socio-Technical Aspects in Security Simon Parkin, Luca Viganò,2022-07-13 This book constitutes revised selected papers from the refereed conference proceedings of the 11th International Workshop on Socio-Technical Aspects in Security and Trust, STAST 2021, held in conjunction with ESORICS, the European Symposium on Research in Computer Security, as a virtual event, in October 2021. The 10 full papers included in this book were carefully reviewed and selected from 25 submissions. They were organized in topical sections as follows: web and apps; context and modelling; and from the present to the future.

Human-Centered Software Engineering Regina Bernhaupt, Carmelo Ardito, Stefan Sauer,2022-08-22 This book constitutes the refereed conference proceedings of the 9th IFIP WG 13.2 International Conference on Human-Centered Software Engineering, HCSE 2022, which was held in Eindhoven, The Netherlands, during August 2022. The 11 full papers presented together with 2 poster and demo papers were carefully reviewed and selected from 25 submissions. The papers focus on the interdependencies between user interface properties and contribute to the development of theories, methods, tools and approaches for dealing with multiple properties that should be taken into account when developing interactive systems. They are organized in the following topical sections: user-centred design approaches; model-based and model-driven approaches; software development strategies; and posters and demos.

Cloud Computing Security John R. Vacca,2020-11-09 This handbook offers a comprehensive overview of cloud computing security technology and implementation while exploring practical solutions to a wide range of cloud computing security issues. As more organizations use cloud computing and cloud providers for data operations, the need for proper security in these and other potentially vulnerable areas has become a global priority for organizations of all sizes. Research efforts from academia and industry, as conducted and reported by experts in all aspects of security related to cloud computing, are gathered within one reference guide. Features • Covers patching and configuration vulnerabilities of a cloud server • Evaluates methods for data encryption and long-term storage in a cloud server • Demonstrates how to verify identity using a certificate chain and how to detect inappropriate changes to data or system configurations John R. Vacca is an information technology consultant and internationally known author of more than 600 articles in the areas of advanced storage, computer security, and aerospace technology. John was also a configuration management specialist, computer specialist, and the computer security official (CSO) for NASA’s space station program (Freedom) and the International Space Station Program from 1988 until his retirement from NASA in 1995.

Edge Intelligence Javid Taheri, Schahram Dustdar, Albert Zomaya, Shuiguang Deng,2023-06-14 This graduate-level textbook is ideally suited for lecturing the most relevant topics of Edge Computing and its ties to Artificial Intelligence (AI) and Machine Learning (ML) approaches. It starts from basics and gradually advances, step-by-step, to ways AI/ML concepts can help or benefit from Edge Computing platforms. The book is structured into seven chapters; each comes with its own dedicated set of teaching materials (practical skills, demonstration videos, questions, lab assignments, etc.). Chapter 1 opens the book and comprehensively introduces the concept of distributed computing continuum systems that led to the creation of Edge Computing. Chapter 2 motivates the use of container technologies and how they are used to implement programmable edge computing platforms. Chapter 3 introduces ways to employ AI/ML approaches to optimize service lifecycles at the edge. Chapter 4 goes deeper in the use of AI/ML and introduces ways to optimize spreading computational tasks along edge computing platforms. Chapter 5 introduces AI/ML pipelines to efficiently process generated data on the edge. Chapter 6 introduces ways to implement AI/ML systems on the edge and ways to deal with their training and inferencing procedures considering the limited resources available at the edge-nodes. Chapter 7 motivates the creation of a new orchestrator independent object model to descriptive objects (nodes, applications, etc.) and requirements (SLAs) for underlying edge platforms. To provide hands-on experience to students and step-by-step improve their technical capabilities, seven sets of Tutorials-and-Labs (TaLs) are also designed. Codes and Instructions for each TaL is provided on the book website, and accompanied by videos to facilitate their learning process.
