Writing Women Sonia Randhawa, 2022-07-21 This book examines how women journalists in Malaysia negotiated male power structures, in particular structures determined by the keystone party of the ruling coalition, the United Malays National Organisation. Through both oral histories and content analysis, it looks at how women journalists in the women's pages of the newspapers found spaces to advocate for their readers. It is thus the first work to look at the importance of the women's pages in the Malay-language newspapers, and how apparently monolithic institutions of the authoritarian state hid diverse contests for resources and prestige. In this contest, the concept of news values, the perception of the reader and the ways in which women constructed themselves as journalists all come into play, and are examined here. The book contributes to the field of feminist media studies by examining how gendered newsroom practices paradoxically allowed women journalists in the women's pages more editorial freedom than those in the malestream press.

Mensa Cryptic Crosswords Emily Cox, Henry Rathvon, 2005 Join the millions getting hooked on cryptics. Think of these 65 mindfields as combining crosswords, logic puzzles, and acrostics, with clever puns as your reward for winning. New York Times puzzle experts serve up a feast of Double Definitions (words with two meanings), Hidden Answers (words inside other words or phrases), and Homophones (clues that only sound like the answers). Add to that puzzles featuring Charades (word clues that break into syllables), Reversals (clues spelled backwards), Deletions (clues where you lop off a letter), Complex Clues (clues that combine these other tricks), and Containers (too fiendish to explain here)--and you'll know why puzzle fans who love a challenge will thank the Mensa geniuses who created them.

Building Your Vocabulary Skills Peter Howard, 2004 In this third book in the series, Building Your Vocabulary Skills Years 5-6, subjects such as place names, geography, weather, occupations, useful verbs and adjectives are covered. In the activities, children can practise a range of vocabulary skills, such as: matching words to definitions recognising synonyms and antonyms understanding idioms (non-literal sayings) expanding their knowledge of verbs, adjectives and other parts of speech recognising homophones (words that sound the same but are spelt differently) As with all books in the Excel Basic Skills series, the Building Your Vocabulary Skills books are designed to help your child at home, which will in turn improve their confidence in reading, writing, spelling and comprehension exercises at school.

Contemplative Science B. Alan Wallace, 2007 Science has long treated religion as a set of personal beliefs that have little to do with a rational understanding of the mind and the universe. This work attempts to bridge this gap by launching an unbiased investigation into the history and practices of science and Buddhist contemplative disciplines.

Fault Lines of Modernity Kitty Millet, Dorothy Figueira, 2018-09-20 This state of the art collection offers fresh perspectives on why intersections between literature, religion, and ethics can address the fault lines of modernity and are not necessarily the cause of modernity's 'faults.' From a diverse cohort of scholars from around the world, with appointments in comparative literature and other disciplines, the essays suggest that the imagined hegemony of a Judeo-Christian Western project is neither exclusively true nor productive. However, the essays also suggest that elements of the Western religious traditions are important vectors for understanding modernity's complicated relationship to the past.
