Undocumented Secrets of MATLAB-Java Programming Yair M. Altman, 2011-12-05

For a variety of reasons, the MATLAB®-Java interface was never fully documented. This is really quite unfortunate: Java is one of the most widely used programming languages, having many times the number of programmers and programming resources as MATLAB. Also unfortunate is the popular claim that while MATLAB is a fine programming platform for prototyping, it is not suitable for real-world, modern-looking applications. Undocumented Secrets of MATLAB®-Java Programming aims to correct this misconception. This book shows how using Java can significantly improve MATLAB program appearance and functionality, and that this can be done easily and even without any prior Java knowledge. Readers are led step-by-step from simple to complex customizations. Code snippets, screenshots, and numerous online references are provided to enable the utilization of this book as both a sequential tutorial and as a random-access reference suited for immediate use. Java-savvy readers will find it easy to tailor code samples for their particular needs; for Java newcomers, an introduction to Java and numerous online references are provided. This book demonstrates how The MATLAB programming environment relies on Java for numerous tasks, including networking, data-processing algorithms and graphical user-interface (GUI) We can use MATLAB for easy access to external Java functionality, either third-party or user-created Using Java, we can extensively customize the MATLAB environment and application GUI, enabling the creation of visually appealing and usable

Axel Vervoordt: Wabi Inspirations Axel Vervoordt,Tatsuro Miki,2011-02-22

Interior design guru Axel Vervoordt shares his latest inspirations for the home. Axel Vervoordt's intense curiosity has fueled his work as an interior designer, spurring him to explore and draw inspiration from cultures around the globe. He was first exposed to Eastern art and philosophy years ago, but today it has become the guiding principle in his work, particularly the concept of Wabi. Developed in the twelfth century, Wabi advocates simplicity and humility, the rejection of all that is superfluous or artificial. Through extraordinary photographs from Japan and Korea to Belgium and Switzerland, Vervoordt invites us to explore the elements that inspire him: natural materials and time-worn objects that evoke the essence of Wabi. Today, together with the Japanese architect Tatsuro Miki, Vervoordt carries the principles of Wabi into his remarkable interiors. As Vervoordt reveals how he infuses his current creations with a fundamentally oriental approach, interiors devotees will gain new insight from this tribute to the designer's latest sources of inspiration for the home.
