Kritika: Essays on Intellectual Property Gustavo Ghidini, Hanns Ullrich, Peter Drahos, 2017-06-30 The fields of intellectual property have broadened and deepened in so many ways, and at such pace, that there is a tendency for academic commentators to focus on the next new thing, or to react immediately to judicial developments, rather than to reflect more deeply on the greater themes of the discipline. Kritika: Essays on Intellectual Property is a series of books designed to fulfil this role by creating a forum for essays that take a critical, long-term approach to the field of intellectual property. Volume 2 covers issues such as inter alia the current limits of knowledge and approaches to intellectual property, a functional account of intellectual property rights, China's approach to innovation and intellectual property, the emergence of multi-layered IP-protection for designed objects, and the trajectory of increased protection for intellectual property.

It covers topics such as AI strategy, policy, law, theoretical research, and practical application. Through an in-depth analysis and thorough evaluation, this book provides a more objective, fair, accurate and comprehensive report. The purpose is to lead the AI and rule of law research and create an AI and rule of law environment which is conducive to the construction of AI and rule of law system. In particular, it aims to play an active role in promoting the establishment of legal systems, policy systems, and codes of ethics that are compatible with the innovative development of AI, thus facilitating the implementation of a new generation of AI development strategies, and ensuring the safe, reliable, controllable, healthy, and sustainable development of AI.

Ageing with Smartphones in Urban China Xinyuan Wang, 2023-09-04 If we want to understand contemporary China, the key is through understanding the older generation. This is the generation in China whose life courses almost perfectly synchronised with the emergence and growth of the 'New China' under the rule of the Communist Party (1949). People in their 70s and 80s have double the life expectancy of their parents' generation. The current eldest generation in Shanghai was born in a time when the average household could not afford electric lights, but today they can turn their lights off via their smartphone apps. Based on 16-month ethnographic fieldwork in Shanghai, Ageing with Smartphones in Urban China tackles the intersection between the 'two revolutions' experienced by the older generation in Shanghai: the contemporary smartphone-based digital revolution and the earlier communist revolutions. We find that we can only explain the smartphone revolution if we first appreciate the long-term consequences of these people's experiences during the communist revolutions. The context of this book is a wide range of drastic social transformations in China, from the Cultural Revolution to the individualism and Confucianism in Digital China. Supported by detailed ethnographic material, the observations and analysis provide a panorama view of the social landscape of contemporary China, including topics such as the digital and everyday life, ageing and healthcare, intergenerational relations and family development, community building and grassroots organizations, collective memories and political attitudes among ordinary Chinese people.

Understanding cryptocurrency fraud Shaen Corbet, 2021-12-06 This handbook focuses on the key issues that continue to hinder the formal development of cryptocurrencies as a mainstream financial asset. It primarily examines reputationally damaging events, particularly those related to illicit behavior. The goal of the handbook is to determine whether some of these events could be mitigated by improved or at least coordinated international regulation. The handbook will be useful for specialist technical audiences such as legal, accounting and financial practices. It will also be beneficial for upper level masters and research students in economics, law, accounting, taxation, investment and portfolio management.
