**Designing Web Graphics.4** Lynda Weinman,2003 The most influential web design book ever written, completely updated to cover motion graphics, broadband interactive design, and more. Since it was first published in 1995, designing web graphics has been the seminal resource for web designers to learn the basics and then the nuances of solid design for the web. Lynda Weinman has been updating the book to reflect changes in the technologies affecting web design, but dwg.4 has been largely rewritten from the ground up. Included is coverage of motion graphics made possible by the Flash phenomenon, broadband-enabled graphics issues, usability, and more. Lynda is rewriting the book so that all coverage of specific tools is focused on the essential functionality of these programs (Photoshop, Dreamweaver, Flash, etc.) and not on version-specific attributes of the software, making the book relevant longer for more users.

*Hackish C++ Pranks & Tricks* Michael Flenov,2004 Demonstrating how to write hacking programs, this collection of hacking tricks teaches programmers how to create software pranks and network programs. Special attention is paid to the creation of compact programs that are useful for those interested in optimizing programs. Network programming and how to program for the Internet or an intranet, how to create a fast port scanner, and how to write pranks are discussed. In addition to pranks and network programs, hacking algorithms are described so that programmers can learn what to expect from hackers and how to create a protection system with maximum efficiency.

**Configuring Windows 2000 without Active Directory** Syngress,2001-09-04 Eliminate the hassles of Active Directory - install Windows 2000 without it! Windows 2000 is undoubtedly a great product. In one year after its release, Microsoft have sold have sold 10 million licenses. System administrators are praising its impressive abilities to coordinate Internet, intranet, extranets, and management applications creating a complete technical infrastructure. However, there has been a noticeable amount of organizations that are avoiding one of the most talked about features of Windows 2000 - Active Directory. *Shaw and History* Gale K. Larson,1999 This special issue of Shaw offers ten articles that focus on the theme of Shaw and History. That focus illuminates Shaw's concept of history as art and its uses for dramatic purposes. It is a focus that is broadly applied to the historical perspective. Views range from Shaw's uses of historical sources in the Shavianizing of history, his uses of historical, geographical, and political places and events in his work, to views that place selected Shavian works within a historical context. Stanley Weintraub discusses Shaw's references to Cetewayo, Zulu chieftain, in Cashel Byron's Profession as the first incorporation of a contemporary historical figure into his work. John Allett explores the liberal, socialist, and radical feminist views of prostitution in nineteenth-century England and demonstrates how those political views are developed within the unfolding action ofMrs Warren's Profession. Sidney P. Albert studies the Utopian movement, The Garden City, to determine the extent to which that movement influenced Shaw's conception of Perivale St. Andres inMajor Barbara. He also narrates his personal attempt to identify the

Ballycorus smelting works and its surroundings as well as the campanile, or Folly, at Faringdon as sites that provided the scenic sources for Perivale St. Andres inMajor Barbara. Gale K. Larson has edited a partially unpublished Shavian manuscript that addresses Shaw's relationship with Frank Harris and, among other matters, sets the historical record right as to who deserves the credit for attributing the identity of the Dark Lady of the Sonnets to Mary Fitton. He also examines the historical sources that influenced Shaw's views on Charles II, the Merry Monarch, inIn Good King Charles's Golden Days and demonstrates Shaw's reclamation of yet another historical figure from the traditional historians. David Gunby examines the first-night performance of O'Flaherty, V.C. for purposes of setting the historical record straight as to the facts of that production. Wendi Chen presents the stage history of the production of Mrs Warren's Professionin China during the early 1920s and argues its central role in shaping modern Chinese drama. Rodelle Weintraub assesses Too True to Be Good as a dream play within the context of the nightmarish times of World War I. Michael M. O'Hara surveys the Federal Theatre's productions of Androcles and the Lionin the 1930s to reveal the political and religious repressions that those productions underscore. Shaw 19 also includes three reviews of recent additions to Shavian scholarship as well as John R. Pfeiffer's Continuing Checklist of Shaviana.
