**I Am the River** T. E. Grau,2018-10 During the last desperate days of the Vietnam War, American soldier Israel Broussard is assigned to a secret CIA PSYOP far behind enemy lines meant to drive terror into the heart of the North Vietnamese and end an unwinnable war. When the mission goes sideways, Broussard is plunged into a nightmare that he soon finds he is unable to escape, dragging a remnant of that night in the Laotian wilderness with him no matter how far he runs. Five years later, too damaged to return home and holed up in the slums of Bangkok, where he battles sleep, guilt, and a creeping sense of madness, Broussard discovers that he must journey back to the jungles of Laos in an attempt to set things right and reclaim what is left of his life. A fever dream with a Benzedrine chaser, I Am The River provides a daring, often surreal examination of the Vietnam War and the days after it, burrowing down past the bullets and battlefields to discover the lingering horror of warfare, the human consequences of organized violence, and the lasting effects of trauma on the psyche, and the soul.

**Thinking in Pictures** Temple Grandin,2009-09-07 The idea that some people think differently, though no less humanly, is explored in this inspiring book. Temple Grandin is a gifted and successful animal scientist, and she is autistic. Here she tells us what it was like to grow up perceiving the world in an entirely concrete and visual way - somewhat akin to how animals think, she believes - and how it feels now. Through her finely observed understanding of the workings of her mind she gives us an invaluable insight into autism and its challenges.

Rescuing Sprite Mark R. Levin,2008-09-04 In 1998, Mark and his family welcomed into their lives a half-Border Collie/half-Cocker Spaniel they named Pepsi. Six years later, his wife and two children persuaded Mark to adopt a dog from the local shelter, a Spaniel mix, the most beautiful dog they'd ever seen. They named him Sprite. Their lives would never be the same. Sprite and Pepsi became fast friends; they did everything together. The Levin family fell in love with Sprite. But on Hallowe'en night, three weeks after joining the family, their beloved dog collapsed and had to be rushed to the vet. It was the first of many such visits and a long journey for the Levin family, filled with joy and anguish. Sprite's health deteriorated, even as his spirits remained high and his gentle nature continued to inspire the family and the local community. Towards the end of last year, 2006, the Levin family said their last emotional goodbye. Consumed with grief, Mark turned to family, friends and fans of his radio show for help. Then new hope came when the Levins least expected it...

The Brand Innovation Manifesto John Grant,2006-05-12 The days of the image brands are over, and 'new marketing' has gone mainstream. The world's biggest companies are pursuing a post-advertising strategy, moving away from advertising and investing in leading edge alternatives. In the vanguard of the revolution has been John Grant, co-founder of the legendary agency St. Luke's and author of The New Marketing Manifesto, whose radical thinking has informed a generation. Now Grant is set to stun the industry again. In The Brand Innovation Manifesto, he redefines the nature of brands, showing why old models and scales no longer work and revealing that the key to success today is impacting people's lifestyles (think Starbucks, iPod and eBay). At the heart of the book is the concept of the 'brand molecule' to which new cultural ideas can be constantly added to keep pace with change. Cataloguing 32 classes of idea, Grant presents a practical approach to mixing and matching them within your own market to develop new brand ideas - and new ideas for existing brands.

**Pilgrim at Tinker Creek** Annie Dillard,2009-10-13 Winner of the Pulitzer Prize "The book is a form of meditation, written with headlong urgency, about seeing. . . . There is an ambition about her book that I like. . . . It is the ambition to feel." — Eudora Welty, New York Times Book Review Pilgrim at Tinker Creek is the story of a dramatic year in Virginia's Roanoke Valley, where Annie Dillard set out to chronicle incidents of beauty tangled in a rapture with violence. Dillard's personal narrative highlights one year's exploration on foot in the Virginia region through which Tinker Creek runs. In the summer, she stalks muskrats in the creek and contemplates wave mechanics; in the fall, she watches a monarch butterfly migration and dreams of Arctic caribou. She tries to con a coot; she collects pond water and examines it under a microscope. She unties a snake skin, witnesses a flood, and plays King of the Meadow with a field of grasshoppers. The result is an exhilarating tale of nature and its seasons.

**Lost and Living (In) Archives: Collectively Shaping New Memories** Annet Dekker,2017-11-21 An archive is a collection of documents and records that is preserved for historical purposes. As such, an archive is considered a site of the past, a place that contains traces of a collective memory of a nation, a people or a group. Digital archives have changed from stable entities into flexible systems, referred to with the term ?Living Archives?. But in which ways has this change affected our relationship to the past, present and future? Will the erased, forgotten and neglected be redeemed, and new memories be allowed? Will the fictional versus factual mode of archiving offer the democracy that the public domain implies, or is it another way for public instruments of power to operate? 'Lost and Living (in) Archives' shows that an archive is not simply a recording, a reflection, or an image of an event, but that it shapes the event itself and thus influences both present and past.
