Be Safe, Love Mom Elaine Brye,2015-03-31 When you enlist in the United States military, you don't just sign up for duty; you also commit your loved ones to lives of service all their own. No one knows this better than Elaine Brye, an Army brat turned military wife and the mother of four officers—one each in the Army, Navy, Air Force, and Marine Corps. For more than a decade she's endured countless teary goodbyes, empty chairs at Thanksgiving dinners, and sleepless hours waiting for phone calls in the night. She's navigated the complicated tangle of emotions—pride, worry, fear, hope, and deep, enduring love—that are part and parcel of life as a military mother. In *Be Safe, Love Mom* Elaine braids together her own personal experiences with those of fellow parents she's met along the way. She offers gentle guidance and hard-earned wisdom on topics ranging from that first anxious goodbye to surrendering all control of your child, from finding comfort in the support of the military community and the healing power of faith to coping with the enormous sacrifices life as a military mother requires. Readers looking for encouragement and hard-to-come-by information as they travel the challenging road of having a child in uniform will find Elaine a wise and trusted friend, and *Be Safe, Love Mom* an essential handbook to membership in a strong and special sisterhood.

Leonardo da Vinci's Flying Machine Kit David Hawcock,2019-01-01 Painter, architect, scientist, inventor—Leonardo da Vinci ranks as history's consummate innovator. Consumed with a boundless desire for knowledge, he investigated technical challenges that were hundreds of years ahead of his time. The power of flight was a particular source of fascination for him, and his close studies of bird anatomy and movement informed his development of the ornithopter — a winged, human-powered aircraft. With Leonardo's da Vinci's Flying Machine, you can create a fully working model of the inventor's amazing creation. This self-contained model kit features a 48-page book with details from Leonardo's notebooks plus full-color, easily joined components. Once assembled, the wings flap by turning a crank. Like the prototype, your model won't actually fly, but you'll have an amazing replica of one of the Renaissance genius's most famous futuristic inventions.
