Time-Saver Standards for Interior Design and Space Planning, Second Edition Joseph DeChiara, Julius Panero, Martin Zelnik, 2001-07-04 The Silver Bible -- thoroughly revised, updated and redesigned Interior designers, architects, and other design professionals can still turn to the field's beloved Silver Bible for a wealth of information related to the design and planning of residential and commercial interiors. But now, Time-Saver Standards for Interior Design and Space Planning, Second Edition goes even further to truly make the classic interior design reference the standard in its field. From standard furniture dimensions to architectural woodwork details, you'll find a vast array of time-saving data and details. Editors Joseph DeChiara, Julius Panero, and Martin Zelnik have brought together contributions from well-known architectural and interior design firms to give you details derived from actual designs and working drawings, showing various solutions for typical design problems encountered in interior architecture. You get a wide range of typical layouts and residential spaces, offices, conference rooms, and reception areas, in addition to details of bars, restaurants, and public toilets. This exciting new edition includes new international examples and metrification – and provides you with full coverage of healthcare spaces, educational spaces; home offices; videoconferencing spaces; green design; project forms and schedules. Two outstanding sections cover historic styles and woodworking.

Bedlam Christopher Brookmyre, 2014 Heaven is a prison. Hell is a playground. Would it be your ultimate fantasy to enter the world of a video game? A realm where you don't have to go to work or worry about your health; where you can look like a hero or a goddess; where you can fly space-ships, slay dragons, yet all of it feels completely real. A realm where there are no consequences and no responsibilities. Or would it be your worst nightmare? Stuck in an endless state of war and chaos where the pain and fear feels real and from which not even death can offer an escape. Prison or playground. Heaven or hell. This is where you find out. This is white-knuckle action, sprawling adventure, merciless satire and outrageous humour like you've never experienced. This is 'Bedlam'.

Dreadful Sorry Kathryn Reiss, 2004-05-01 The author of Time Windows “has crafted a fine tale of psychological time travel . . . this well-executed story transports readers into the plot” (School Library Journal, starred review). Seventeen-year-old Molly's recurrent nightmares become waking visions after she nearly drowns at a party. Soon she's witnessing events through the eyes of a girl who lived in her father's house nearly a century before. In Dreadful Sorry “Reiss slips between past and present with a callous alacrity that is wondrously effective; readers will buy into the unfolding revelations while gaining a true sense of Molly's tenuous grip on events . . . another fine spellbinder from the author of Time Windows” (Kirkus Reviews). “Spooky and satisfying.”—The Bulletin “With its skillful plot twists, the book will have readers anxious to solve the mystery.”—School Library Journal (starred review) “Suspenseful and difficult to put down.”—VOYA

The Oblong Box Edgar Allan Poe, 2024-03-07 The Oblong Box is a short story by Edgar Allan Poe that explores human mysteries and obsessions. The narrative follows a man who, during a sea voyage, becomes intrigued by a strange oblong box brought on board by a friend, triggering a series of enigmatic events and surprising revelations.

Time-Saver Standards for Landscape Architecture Charles W. Harris, Nicholas T. Dines, Kyle D. Brown, 1998 This edition of the major reference on graphic and design standards for landscape architecture has increased emphasis on environmental issues such as safe materials and construction techniques, land reclamation, and drainage and flood control.

Human Dimension and Interior Space Julius Panero, Martin Zelnik, 2014-01-21 The study of human body measurements on a comparative basis is known as anthropometrics. Its applicability to the design process is seen in the physical fit, or interface, between the human body and the various components of interior space. Human Dimension and Interior Space is the first major anthropometrically based reference book of design standards for use by all those involved with the physical planning and detailing of interiors, including interior designers, architects, furniture designers, builders, industrial designers, and students of design. The use of anthropometric data, although no substitute for good design or sound professional judgment should be viewed as one of the many tools required in the design process. This comprehensive overview of anthropometrics consists of three parts. The first part deals with the theory and application of anthropometrics and includes a special section dealing with physically disabled and elderly people. It provides the designer with the fundamentals of anthropometrics and a basic understanding of how interior design standards are established. The second part contains easy-to-read, illustrated anthropometric tables, which provide the most current data available on human body size, organized by age and percentile groupings. Also included is data relative to the range of joint motion and body sizes of children. The third part contains hundreds of dimensioned drawings, illustrating in plan and section the proper anthropometrically based relationship between user and space. The types of spaces range from residential and commercial to recreational and institutional, and all dimensions include metric conversions. In the Epilogue, the authors challenge the interior design profession, the building industry, and the furniture manufacturer to seriously explore the problem of adjustability in design. They expose the fallacy of designing to accommodate the so-called average man, who, in fact, does not exist. Using government data, including studies prepared by Dr. Howard Stoudt, Dr. Albert Damon, and Dr. Ross McFarland, formerly of the Harvard School of Public Health, and Jean Roberts of the U.S. Public Health Service, Panero and Zelnik have devised a system of interior design reference standards, easily understood through a series of charts and situation drawings. With Human Dimension and Interior Space, these standards are now accessible to all designers of interior environments.

American Gothic Tales Various, 1996-12-01 This remarkable anthology of gothic fiction, spanning two centuries of American writing, gives us an intriguing and

entertaining look at how the gothic imagination makes for great literature in the works of forty-six exceptional writers. Joyce Carol Oates has a special perspective on the “gothic” in American short fiction, at least partially because her own horror yarns rank on the spine-tingling chart with the masters. She is able to see the unbroken link of the macabre that ties Edgar Allan Poe to Anne Rice and to recognize the dark psychological bonds between Henry James and Stephen King. In showing us the gothic vision—a world askew where mankind’s forbidden impulses are set free from the repressions of the psyche, and nature turns malevolent and lawless—Joyce Carol Oates includes Henry James’s “The Romance of Certain Old Clothes,” Herman Melville’s horrific tale of factory women, “The Tartarus of Maids,” and Edith Wharton’s “Afterward,” which are rarely collected and appear together here for the first time. Added to these stories of the past are new ones that explore the wounded worlds of Stephen King, Anne Rice, Peter Straub, Raymond Carver, and more than twenty other wonderful contemporary writers. This impressive collection reveals the astonishing scope of the gothic writer’s subject matter, style, and incomparable genius for manipulating our emotions and penetrating our dreams. With Joyce Carol Oates’s superb introduction, *American Gothic Tales* is destined to become the standard one-volume edition of the genre that American writers, if they didn’t create it outright, have brought to its chilling zenith.

The Castle of Wolfenbach Eliza Parsons, 2021-11-09 The Castle of Wolfenbach is the most famous novel written by the English Gothic novelist Eliza Parsons. Matilda Weimar and her servant Albert arrive at a cottage inhabited by two peasants, Pierre and his wife Jaqueline. Matilda is ill for unknown reasons and there is no bed for her to rest in, so they go to the neighbouring haunted Castle of Wolfenbach, whose caretakers take them in. But as earlier warned by the two peasants, the castle's ghosts will give them no rest at night. Not until the truth is revealed about the murderous past of the Wolfenbach family!

The Shifting Fog Kate Morton, 2006 A rich and engrossing story of love, passion, secrets, and lies set in the gaiety, glamour, and grand country houses of post-war Edwardian England.

Teaching English by Design Peter Smagorinsky, 2018-10-30 Teaching English by Design has become a classic resource for preservice teachers as well as in-service teachers who consider it their go-to guide to creating lessons and units organized around key concepts. In the Second Edition, Peter Smagorinsky updates the content for today's teachers with discussions of New Literacies, using technology in the classroom, LGBTQ issues, and an expansive new chapter on preparing for Beginning Teacher Performance Assessments. He also brings in a fresh new voice and outlook from Darren Rhym, a high school teacher in rural Georgia. Following a new chapter on Teaching Stressed Students Under Stressful Circumstances, Peter and Darren collaborated to create a unit on Power and Race. Designed to help students develop agency in improving their lives and those of the people in their communities, this sample unit provides a practical framework for addressing the needs of low-SES students who rely on limited resources. Together with Peter's unique insight about students, how they learn, and the kinds of classrooms that support their achievement, Teaching English by Design, 2/e is more valuable and relevant than ever.

The Dynamics of Writing Instruction Peter Smagorinsky, Larry R. Johannessen, Elizabeth A. Kahn, Thomas M. McCann, 2010 Describes a structured approach to teaching writing to middle and high school students, features structured sequences of activities for teaching fictional, experience, argumentation, comparison and contrast, and definition essays, and research papers, and includes principles for creating a writing curriculum.

Housing by Lifestyle James W. Wentling, 1995 This revised, paperback edition of a popular & successful McGraw-Hill book on housing design will reflect the subtle & dramatic changes that have affected the housing industry between the affluent 1980's. New case studies from the author, an architect with a growing reputation for quality housing design, will show the evolving demands coming from ever more diverse clients—from single-parent households to work-at-home professionals to people living with elderly parents at home. Improved graphics & photographs will help better illustrate some of today's more innovative solutions to kitchen design, family home theater rooms, basement workshops, & much more.
