*The Art of Being Human* Michael Wesch, 2018-08-07 Anthropology is the study of all humans in all times in all places. But it is so much more than that. Anthropology requires strength, valor, and courage, Nancy Scheper-Hughes noted. Pierre Bourdieu called anthropology a combat sport, an extreme sport as well as a tough and rigorous discipline. ... It teaches students not to be afraid of getting one's hands dirty, to get down in the dirt, and to commit yourself, body and mind. Susan Sontag called anthropology a heroic profession. What is the payoff for this heroic journey? You will find ideas that can carry you across rivers of doubt and over mountains of fear to find the light and life of places forgotten. Real anthropology cannot be contained in a book. You have to go out and feel the world's jagged edges, wipe its dust from your brow, and at times, leave your blood in its soil. In this unique book, Dr. Michael Wesch shares many of his own adventures of being an anthropologist and what the science of human beings can tell us about the art of being human. This special first draft edition is a loose framework for more and more complete future chapters and writings. It serves as a companion to anth101.com, a free and open resource for instructors of cultural anthropology. This 2018 text is a revision of the first draft edition from 2017 and includes 7 new chapters.

*Up In the Air* Greg J. Bamber, Jody Hoffer Gittel, Thomas A. Kochan, Andrew von Nordenflycht, 2013-05-15 When both an industry's workers and its customers report high and rising frustration with the way they are being treated, something is fundamentally wrong. In response to these conditions, many of the world's airlines have made ever-deeper cuts in services and their workforces. Is it too much to expect airlines, or any other enterprise, to provide a fair return to investors, high-quality reliable service to their customers, and good jobs for their employees? Measured against these three expectations, the airline industry is failing. In the first five years of the twenty-first century alone, U.S. airlines lost a total of \$30 billion while shedding 100,000 jobs, forcing the remaining workers to give up over \$15 billion in wages and benefits. Combined with plummeting employee morale, shortages of air traffic controllers, and increased congestion and flight delays, a total collapse of the industry may be coming. Is this state of affairs inevitable? Or is it possible to design a more sustainable, less volatile industry that better balances the objectives of customers, investors, employees, and the wider society? Does deregulation

imply total abrogation of government's responsibility to oversee an industry showing the clear signs of deterioration and increasing risk of a pending crisis? Greg J. Bamber, Jody Hoffer Gittel, Thomas A. Kochan, and Andrew von Nordenflycht explore such questions in a well-informed and engaging way, using a mix of quantitative evidence and qualitative studies of airlines from North America, Asia, Australia, and Europe. *Up in the Air* provides clear and realistic strategies for achieving a better, more equitable balance among the interests of customers, employees, and shareholders. Specifically, the authors recommend that firms learn from the innovations of companies like Southwest and Continental Airlines in order to build a positive workplace culture that fosters coordination and commitment to high-quality service, labor relations policies that avoid long drawn-out conflicts in negotiating new agreements, and business strategies that can sustain investor, employee, and customer support through the ups and downs of business cycles.

Misfit City Vol. 1 Kirsten Smith, Kurt Lustgarten, 2017-12-13 Smothered by her backwater hometown and frustrated by its 1980s cult-movie fame (*The Gloomies*...have you seen it? It's a real classic, y'know.), Wilder is pretty sure she's seen everything Cannon Cove has to offer. She's desperate to get away from home as soon as she can, and move on to bigger, better, and less annoying things...even if that might mean leaving her best friends behind. But when Wilder discovers a centuries-old pirate map, she may find out that REAL adventure was in their tiny town all along...and they need each other to get to the bottom of it! It's a rip-roaring adventure written by award-winning screenwriter Kiwi Smith (*10 Things I Hate About You*, *Legally Blonde*) and Kurt Lustgarten, and illustrated by Naomi Franquiz.

**Global Matters** Paul Jay, 2014-02-15 As the pace of cultural globalization accelerates, the discipline of literary studies is undergoing dramatic transformation. Scholars and critics focus increasingly on theorizing difference and complicating the geographical framework defining their approaches. At the same time, Anglophone literature is being created by a remarkably transnational, multicultural group of writers exploring many of

the same concerns, including the intersecting effects of colonialism, decolonization, migration, and globalization. Paul Jay surveys these developments, highlighting key debates within literary and cultural studies about the impact of globalization over the past two decades. *Global Matters* provides a concise, informative overview of theoretical, critical, and curricular issues driving the transnational turn in literary studies and how these issues have come to dominate contemporary global fiction as well. Through close, imaginative readings Jay analyzes the intersecting histories of colonialism, decolonization, and globalization engaged by an array of texts from Africa, Europe, South Asia, and the Americas, including Zadie Smith's *White Teeth*, Junot Díaz's *The Brief Wondrous Life of Oscar Wao*, Kiran Desai's *The Inheritance of Loss*, Arundhati Roy's *The God of Small Things*, Vikram Chandra's *Red Earth and Pouring Rain*, Mohsin Hamid's *Moth Smoke*, and Zakes Mda's *The Heart of Redness*. A timely intervention in the most exciting debates within literary studies, *Global Matters* is a comprehensive guide to the transnational nature of Anglophone literature today and its relationship to the globalization of Western culture.

Cinematic Independence Noah Tsika, 2022-02-22 A free open access ebook is available upon publication. Learn more at [www.luminosoa.org](http://www.luminosoa.org). Cinematic Independence traces the emergence, demise, and rebirth of big-screen film exhibition in Nigeria. Film companies flocked to Nigeria in the years following independence, beginning a long history of interventions by Hollywood and corporate America. The 1980s and 1990s saw a shuttering of cinemas, which were almost entirely replaced by television and direct-to-video movies. However, after 1999, the exhibition sector was revitalized with the construction of multiplexes. Cinematic Independence is about the periods that straddle this disappearing act: the immediate decades bracketing independence in 1960, and the years after 1999. At stake is the Nigerian postcolony's role in global debates about the future of the movie theater. That it was eventually resurrected in the flashy form of the multiplex is not simply an achievement of commercial real estate, but also a testament to cinema's persistence—its capacity to stave off annihilation or, in this case, come back from the dead.

described.
