Tonalization Dr. Shinichi Suzuki, Dr. Suzuki questioned why all vocalists vocalize every day to improve their voices, but instrumentalists do not do so every day with their instruments. He believes that on any instrument, one needs to practice to make a more beautiful tone. First he talks about playing a beautiful resonant tone with the bow while plucking the string with a finger. When a pizzicato is played, the resonance goes on for a long time. Students should listen to that resonance and play the same kind of clear beautiful sound. He talks about how to make a difference in the tone by using a different bow speed, how to practice to find the resonance point, how to change the weight of the arm on the bow to produce a different kind of tone, and how to change tone color. This book includes all of Dr. Suzuki's basic ideas about tone.

The Precarious Future of Education Jan Jagodzinski,2016-11-30 This volume examines the challenges weighing on the future of education in the face of globalization in the twenty-first century. Bringing together eleven authors who explore the paradox of an "after" to the future of education, each chapter in this book targets three important areas: ecology as understood in the broader framework of globalization and pedagogy; curriculum concerns which impact learning; and the pervasiveness of technology in education today.

LogoLounge 2 Bill Gardener,Catharine Fishel,2006-11-01 Features 2,000 logos and provides fresh inspiration to anyone looking to direct the design of their own identity. Recent noteworthy projects that are claiming the public spotlight are profiled in this book. It covers identities created for various industries such as airlines, networks, dot-coms, banks, and fashion, as well as lesser-known boutique projects in which the designer's name is larger than the client's. The first portion of the book profiles ten top designers and spotlights their biggest, newest campaigns. A handful of their smaller projects are also featured, including some that have never before been seen. The second half of the book contains almost 2,000 logos organized by logo design (typography, people, mythology, nature, sports, etc.)
