Song Sheets to Software Elizabeth C. Axford,2001 Song Sheets to Software is about learning and teaching music through new, stimulating, and accessible means -- computers and the

Internet. A landmark resource for anyone who wants to know more about music, the book is divided into five chapters. Chapter 1 is a detailed history of songs sheets, covering early American religious, folk and popular music in print, as well as songs in musicals, silent films, talkies, radio and records. Chapter 2 covers print music royalties, copyright laws, formats and terms, while the last three chapters consist of annotated listings of 600+ music software titles, 6,000+ music-related web sites for musicians, and Internet tech terms.

Connected Viewing Jennifer Holt, Kevin Sanson, 2013-12-04 As patterns of media use become more integrated with mobile technologies and multiple screens, a new mode of viewer engagement has emerged in the form of connected viewing, which allows for an array of new relationships between audiences and media texts in the digital space. This exciting new collection brings together twelve original essays that critically engage with the socially-networked, multi-platform, and cloud-based world of today, examining the connected viewing phenomenon across television, film, video games, and social media. The result is a wide-ranging analysis of shifting business models, policy matters, technological infrastructure, new forms of user engagement, and other key trends affecting screen media in the digital era. **Connected Viewing** contextualizes the dramatic transformations taking place across both media industries and national contexts, and offers students and scholars alike a diverse set of methods and perspectives for studying this critical moment in media culture.
