**Sport-O-Rama** Benoit Tardif, 2015-03-01 This engaging wordbook offers a primer for young children on the essential words and phrases associated with twenty-three different sports. From badminton to volleyball, each on their own two-page spread, readers can peruse the vocabulary words to explore how the sport is played, what equipment is required, what athletes wear and the like. For example, included on the football spread are ?touchdown pass,? ?end zone? and ?helmet.? For swimming, there are ?goggles,? ?lane markers? and ?crawl.? The illustrations, in bright primary colors, also provide a quick tutorial on the basics of each sport. Humorous asides and silly dialogue throughout add to the book's overall lively and amusing feel. For example, a golf ball inside an alligator's mouth becomes an ?unplayable ball.? And a diver leaping off the highest platform comments, ?What a view!?' Also in keeping with the light tone of the book, there's a spread in the middle called Halftime, which features searching and counting activities. Award-winning illustrator Benoit Tardif cleverly imparts the sense of fun involved in playing sports, along with lots of useful information. This is a book that will be pored over by small children, each looking for their own favorite sport or trying to learn more about new ones. The short descriptions of the included sports and the glossary at the back of the book mean it also works in physical education lessons for young pre-readers up to the early elementary grades

Six appendices with graphs and statistical information supplement the text. Annotation copyright by Book News, Inc., Portland, OR

United States Marine Corps Aircraft Since 1913 E.R. Johnson,2018-04-04 Among the world's military air arms, United States Marine Corps Aviation occupies a unique tactical niche. As the air component of a combined-arms expeditionary force, it exists primarily to support Marine combat forces on the ground in their amphibious assault mission. From the "Banana Wars" of the 1920s to the present day "War on Terror," Marine aviation has undergone a lengthy fine-tuning process not only in terms of warfare doctrines and tactics, but also in the types of aircraft needed to accomplish the mission. This comprehensive survey provides the history, technical specifications, drawings, and photographs of every type of fixed and rotary-wing aircraft used by Marine Air from its origins prior to World War I up to current operations.

Happiness- a Foolish Pursuit Iqra Saeed,2019-12-23 The reason behind the discomfort of mankind is the absence of meaning and consequently, they spend their lives in utter confusion while always trying to find out which direction they should head towards. In the pursuit of this direction--which is an inborn thirst inside them, they get lost in the pursuit of happiness when in actual thinking of happiness as a motivation to live is a deadly concept and that is why those who rely only on happiness, never end up finding their meaning of life.
