**The Decrees of the Fifth Lateran Council (1512-17)** Nelson H. Minnich,2018-10-24 The Fifth Lateran Council (1512-17), whose 500th anniversary is being commemorated, has left a legacy little studied by scholars. The council's status as an ecumenical council was questioned by its opponents and its decrees ignored, resisted, or only slowly implemented. This new collection of articles by Nelson H. Minnich examines: what is an ecumenical council, the reasons Lateran V qualifies as such, the roles the popes played in it, the council as a theater for demonstrating papal power, what was proposed as its agenda, what decrees were issued, and to what extent they were implemented. The decrees that receive special attention are those: affirming the legitimacy of the credit organizations known as montes pietatis that charged management fees, imposing prepublication censorship on printed works, abrogating the Pragmatic Sanction of Bourges (1438), reining in the privileges of mendicant friars, and closing the council while imposing a crusade tithe. These decrees were gradually implemented and Carlo Borromeo incorporated some of the Lateran reform decrees into his conciliar legislation that was taken up by other bishops. Lateran V did leave a lasting legacy and Leo X considered the council one of his great achievements. The volume includes four studies not previously published in English. (CS1060).

Theology of the Old Testament Gustav Friedrich Oehler,1883 Gustav Friedrich Oehler was an Old Testament scholar and professor at Tübingen in Germany. At this time, he was among the foremost proponents of theological conservatism with regard to the Old Testament, rejecting the rationalism of Schleiermacher and the liberal school arising from his work. For Oehler, the Old Testament is an account of real history and divine revelation, rather than a product of mere human development. This two volume set, published after Oehler's death by his son in 1874, contains the contents of Oehler's three decades of lectures on his area of expertise. This early work of Biblical Theology explains the progressive revelation of divine truths from the first chapters of Genesis through the end of the Old Testament. It contains both a history of God's people, and an examination of the theological convictions of the Old Testament authors as moved by the Spirit.
