Belonging in Europe - The African Diaspora and Work Caroline Bressey,Hakim Adi,2013-09-13 This publication does not just mark the presence of black people in Europe, but brings research to a new stage by making connections across Europe through the experience of work and labour. The working experience for black peoples in Europe was not just confined to ports and large urban areas – often the place black people are located in the imagination of the European map both today and historically. Work took place in small towns, villages and on country estates. Until the 1800s enslaved Africans would have worked alongside free blacks and their white peers. How were these labour relations realised be it on a country estate or a town house? How did this experience translate into the labour movements of the twentieth century? These are some of the questions the essays in this collection address, contributing to new understandings of European

life both historically and today. This book was originally published as a special issue of Immigrants and Minorities.

La mirada italiana Joan-Lluís Palos Peñarroya,2011-11-28 Amb vent favorable, la

distància des de Gaeta podia salvar-se en tot just una jornada. Després d'haver rebut la benvinguda en el vell castell que custodiava l'entrada del Reame, les galeres que transportaven als virreis cap a la seua nova destinació, s'endinsaven en la regió de la rondalla, habitada dels déus i solaç d'antics emperadors. Nàpols es trobava en un dels llocs més bells del món que, ja des dels temps que era una colònia grega, havia exercit una irresistible fascinació en els seus visitants. Gràcies als virreis, Nàpols es va convertir en una pedrera d'artistes que van treballar intensament per a la corona espanyola, i sobretot, en el pont a través del que la gran cultura d'Itàlia va arribar a la cort de Madrid i va proporcionar la forma per a modelar la imatge pública dels monarques. Mary Boleyn Sarah Bryson, 2015-03-18 MadeGlobal's History in a Nutshell Series aims to give readers a good grounding in a historical topic in a concise, easily digestible and accessible way. In *Mary Boleyn in a Nutshell*, Sarah Bryson discusses the controversies surrounding Mary Boleyn's birth, her alleged relationships with two kings, her portraiture and appearance, and her life and death. Mary survived the brutal events of 1536 and was able to make her own choices, defying the social rules of her times by marrying for love. It is from Mary that the Boleyn bloodline extends to the present day. Sarah Bryson, creator of the popular *Anne Boleyn: From Queen to History* Facebook page, brings together what is known about Mary Boleyn, the shadowy sister of Queen Anne Boleyn.

Alexander, 2018-09-20 You can use this book to design a house for yourself with your family; you can use it to work with your neighbors to improve your town and neighborhood; you can use it to design an office, or a workshop, or a public building. And you can use it to guide you in the actual process of construction. After a ten-year silence, Christopher Alexander and his colleagues at the Center for Environmental Structure are now publishing a major statement in the form of three books which will, in their words, lay the basis

for an entirely new approach to architecture, building and planning, which will we hope replace existing ideas and practices entirely. The three books are *The Timeless Way of Building*, *The Oregon Experiment*, and this book, *A Pattern Language*. At the core of these books is the idea that people should design for themselves their own houses, streets, and communities. This idea may be radical (it implies a radical transformation of the architectural profession) but it comes simply from the observation that most of the wonderful places of the world were not made by architects but by the people. At the core of the books, too, is the point that in designing their environments people always rely on certain languages, which, like the languages we speak, allow them to articulate and communicate an infinite variety of designs within a forma system which gives them coherence. This book provides a language of this kind. It will enable a person to make a design for almost any kind of building, or any part of the built environment. Patterns, the units of this language, are answers to design problems (How high should a window sill be? How many stories should a building have? How much space in a neighborhood should be devoted to grass and trees?). More than 250 of the patterns in this pattern language are given: each consists of a problem statement, a discussion of the problem with an illustration, and a solution. As the authors say in their introduction, many of the patterns are archetypal, so deeply rooted in the nature of things that it seems likely that they will be a part of human nature, and human action, as much in five hundred years as they are

today.

In Arcadia Ben Okri,2003 A group of angry and ill-assorted people accept an invitation to make a journey. Inspired by a painting and financed by a mysterious benefactor, they set off to discover the real Arcadia. Or what remains of it. Their journey begins in ignorance and chaos at Waterloo station and takes them through superstition and myth to harmony. In the Louvre, in front of Poussin's masterpiece, they begin to understand. 'In Arcadia takes that staple Shakespearean theme of appearance versus reality and uses it to explore the notion of paradise' Scotsman

Monsieur D'Eon Is a Woman Gary Kates, 2001-09-21

A fascinating book. Monsieur d'Eon Is a Woman is instructive and a delight to read all at the same time.—Quentin Crisp Born in 1728, French aristocrat Charles d'Eon de Beaumont had served his country as a diplomat, soldier, and spy for fifteen years when rumors that he was a woman began to circulate in the courts of Europe. D'Eon denied nothing and was finally compelled by Louis XVI to give up male attire and live as a woman, something d'Eon did without complaint for the next three decades. Although celebrated as one of the century's most remarkable women, d'Eon was revealed, after his death in 1810, to have been unambiguously male. Gary Kates's acclaimed biography of d'Eon recreates eighteenth-century European society in brilliant detail and offers a

compelling portrait of an individual who challenged its conventions about gender and identity.
