Terry Eagleton

Figures of Dissent Terry Eagleton, 2005-11-17 This is a collection of Terry Eagleton's best criticisms and book reviews. His skill in this field is notable: never content merely to assess the ideas of a writer, Eagleton, in his inimitable style, always paints a vivid theoretical fresco as the background to his engagement with the texts.

Harold Pinter Guido Almansi, Simon Henderson, 2021-06-23 First published in 1983, Harold Pinter is an original study into the work of one of Britain's foremost dramatists. The book celebrates Pinter's elusiveness as a writer. It considers his position as a specifically contemporary writer of the post-modernist tradition, and explores his use of language as a sophisticated means of non-communication, acting as a smokescreen behind which his characters lie. The book presents the language games used by Pinter according to their strategic importance, beginning with his earlier works and suggesting a chronological progression. It also discusses Pinter's later developments, such as the screenplay for *The French Lieutenant's Woman*. Harold Pinter is ideal for anyone with an interest in the work and literary techniques of contemporary writers and dramatists.

Crazy John and the Bishop Terry Eagleton, 1998 This innovative collection of essays views Irish culture from the eighteenth century to the present day, covering a wide range of topics and authors. Among the writers are Bishop Berkeley, Thomas Moore, Oliver Goldsmith, Francis Hutcheson, Laurence Sterne, Richard Steele, Edmund Burke, Maria Edgeworth, W. B. Yeats, Samuel Beckett, James Stephens, Charles Lever, Austin Clarke, Kate O'Brien and Francis Stuart. Also included are a number of neglected Irish writers such as William Dunkin, John

Toland, Frederick Ryan, Father Prout, William McGinn, Shan Bullock, Canon Sheehan and George Birmingham. The topics range from eighteenth-century satire and sentimentalism to the modern Irish novel, the carnivalesque in early nineteenth-century Cork to the philosophy of Toland and Berkeley. In moving from celebrated reputations to lesser known writers, the book also breaches the boundaries between literary criticism, intellectual and political history. It concludes with a vigorous intervention into the ongoing debate surrounding revisionism in Irish Studies. --

Enhancing the Role of ICT in Doctoral Research Processes Sim, Kwong Nui,2018-12-28 Information communication technologies (ICT) have long been important in supporting doctoral study. Though ICTs have been integrated into educational practices at all levels, there is little understanding of how effective these technologies are in supporting resource development for students and researchers in academic institutions. Enhancing the Role of ICT in Doctoral Research Processes is a collection of innovative research that identifies the ways that doctoral supervisors and students perceive the role of ICTs within the doctoral research process and supports the development of guidelines to enhance ICT skills within these programs. While highlighting topics including professional development, online learning, and ICT management, this book is ideally designed for academicians, researchers, and professionals seeking current research on ICT use for doctoral research.

Citation-based Plagiarism Detection Bela

Gipp, 2014-06-26 Plagiarism is a problem with far-reaching consequences for the sciences. However, even today's best software-based systems can only reliably identify copy & paste plagiarism. Disguised plagiarism forms, including paraphrased text, cross-language plagiarism, as well as structural and idea plagiarism often remain undetected. This weakness of current systems results in a large percentage of scientific plagiarism going undetected. Bela Gipp provides an overview of the state-of-the art in plagiarism detection and an analysis of why these approaches fail to detect disguised plagiarism forms. The author proposes Citation-based Plagiarism Detection to address this shortcoming. Unlike character-based approaches, this approach does not rely on text comparisons alone, but analyzes citation patterns within documents to form a language-independent semantic fingerprint for similarity assessment. The practicability of Citation-based Plagiarism Detection was proven by its capability to identify so-far non-machine detectable plagiarism in scientific publications.

Avaliação de originalidade de textos acadêmicos por meio de detectores de "plágio" Gilce Aparecida

Quintão Castro,2023-11-27 Os detectores de plágio são ferramentas criadas na área da computação para verificação de originalidade nas produções textuais, muito utilizadas nas universidades e em periódicos científicos. Esses softwares fazem uma varredura no texto em comparação com outras publicações que se encontram na sua base de dados, gerando relatórios de similaridade entre textos. Este estudo tem o objetivo de identificar e analisar o critério de originalidade do discurso científico, por meio do exame de relatórios de um chamado detector de plágio gerado na avaliação de artigos científicos de diferentes áreas de conhecimento, confrontando tais resultados com parâmetros que dizem respeito ao funcionamento do discurso científico e a seu processo de textualização. A partir das questões relativas ao uso de softwares na avaliação de originalidade de produções acadêmicas, esta pesquisa busca um diálogo interdisciplinar entre o campo computacional, que desenvolve produtos (ferramentas, softwares) capazes de rastrear textos com o propósito de verificar a autenticidade de um trabalho científico, e a Linguística Aplicada, de modo a trazer para essa discussão diferentes aspectos envolvidos na produção de textos acadêmicos, invisíveis a esses dispositivos tecnológicos, tais como a natureza do gênero produzido, a composição e a arquitetura dos textos, a temática abordada, a área de conhecimento, além de processos próprios da textualização do discurso acadêmico-científico.

Blitzkrieg and Jitterbugs Elizabeth Hillman Waterston, 2012-03-28 Elizabeth Hillman enrolled at McGill University the week World War II began. As a freshman writing for the McGill Daily, she covered torchlight football parades and dances at the Ritz Carleton hotel while elsewhere the paper reported U-boats torpedoing convoys and war planes plummeting into the British channel.

Blitzkrieg and Jitterbugs draws on her journal entries, articles from the Daily, and headlines from the Montreal Gazette to paint a vivid picture of day-to-day life on campus, alongside the civilian wartime experience in Canada. Part memoir, part history, the book touches on important feminist issues of the day, provides historical detail on both McGill University and Canada's participation in World War II, and is punctuated with candid glimpses into both the social and intellectual aspects of university life during a three-year tenure at McGill. Charmingly written with subtle ironies, Blitzkrieg and Jitterbugs includes photos collected from scrapbooks, albums, and the McGill archives to vividly highlight aspects of wartime life as experienced far from the battlefields.

Innovación Docente y Ciencia Jurídica (ahora en tiempos del COVID-19) Paloma Arrabal Platero, Sara Moreno Tejada, Alfonso Ortega Giménez, 2021-11-26 La presente publicación se articula en cuatro grandes líneas temáticas, a saber: a) La docencia del derecho en la era digital: experiencias innovadoras en la planificación de la enseñanza universitaria; b) Los procesos e instrumentos de evaluación de los resultados de aprendizaje; c) Las TIC y la gamificación como instrumentos docentes en las enseñanzas jurídicas; y d) Los nuevos espacios docentes: el aprendizaje a través de las plataformas virtuales. En el primer apartado se incluyen diversas acciones novedosas aplicadas a la docencia en el ámbito del Derecho. En este sentido, y sin ánimo de ser exhaustivo, el proyecto «Derecho parlamentario vivo», el «TLB, como una alternativa a la clase magistral», o «el uso de la prensa digital como recurso para la enseñanza del derecho civil» constituyen solo algunos ejemplos de técnicas digitales adaptadas a los desafíos de la sociedad del conocimiento. El segundo bloque de esta monografía se centra en los procesos e instrumentos de evaluación de los resultados del aprendizaje. En este punto, las cuestiones vinculadas a la vigilancia de exámenes on line o la aplicación de novedosos criterios de ponderación ocupan la atención de nuestros autores. Al respecto, cabe destacar la utilización de los sistemas antiplagio como instrumentos para la detección de fraudes en el ámbito académico. Por otro lado, el uso de las nuevas tecnologías en la docencia universitaria también ha merecido nuestra atención. Bajo la denominación «las TIC y la gamificación como instrumentos docentes en las enseñanzas públicas» se

incluyen una completa lista de acciones innovadoras para la docencia vinculadas al uso de las redes sociales o herramientas tan novedosas como el «Scape room» o «Kahoot» en la enseñanza del Derecho. La última sección de la monografía se centra en el análisis de los nuevos espacios docentes a través de las plataformas virtuales. El aprendizaje colaborativo, el uso de blogs o portales webs, así como utilización de los recursos Moodle

Feeling Jewish Devorah Baum,2017-01-01 In this sparkling debut, a young critic offers an original, passionate, and erudite account of what it means to feel Jewish--even when you're not. Self-hatred. Guilt. Resentment. Paranoia. Hysteria. Overbearing Mother-Love. In this witty, insightful, and poignant book, Devorah Baum delves into fiction, film, memoir, and psychoanalysis to present a dazzlingly original exploration of a series of feelings famously associated with modern Jews. Reflecting on why Jews have so often been depicted, both by others and by themselves, as prone to negative feelings, she queries how negative these feelings really are. And as the pace of globalization leaves countless people feeling more marginalized, uprooted, and existentially threatened, she argues that such Jewish feelings are becoming increasingly common to us all. Ranging from Franz Kafka to Philip Roth, Sarah Bernhardt to Woody Allen, Anne Frank to Nathan Englander, *Feeling Jewish* bridges the usual fault lines between left and right, insider and outsider, Jew and Gentile, and even Semite and anti-Semite, to offer an indispensable guide for our divisive times.

The Forger's Shadow Nick Groom,2003-07-01 Whilst defining the very meaning of forgery, Nick Groom ranges

from the economic forgery of the 18th century to the formation of literary copyright which was established not in order to protect the nation's authors but rather as a way of censoring them.
