Harrod's Librarians' Glossary and Reference Book Ray Prytherch,2016-04-15
Listing over 10,000 entries, Harrod's Librarians' Glossary and Reference Book spans everything from traditional printing terms to search engines and from book formats to URLs. Revisions for this tenth edition have centred in particular on the Information Society and its ramifications, on the general shift towards electronic resources, and on e-commerce, e-learning and e-government, whilst at the same time maintaining key areas predating the IT revolution. Web terminology, URLs and IT terms have been checked and updated, and coverage of terms relating to digitization and digital resources, portals, multimedia and electronic products has been revised or expanded as necessary. Harrod's Glossary now includes Knowledge Management terms, and this edition has also focused on developments in the field of intellectual property, copyright, patents, privacy and piracy. It gives wide international coverage of names, addresses and URLs of major libraries and other important organizations in the information sector, of professional associations, fellowships, networks, government bodies, projects and programmes, consortia and institutions, influential reports and other key publications. Entries are included on classification and file coding, on records management and archiving and on both the latest and the most enduring aspects of library and information skills. Even with the Web at your fingertips Harrod's Librarians' Glossary and Reference Book remains a quicker reference for explaining

specialist terms, jargon and acronyms, and for finding the URLs you need, whether you are working in a print-based or digital library, in archiving, records management, conservation, bookselling or publishing.

It also describes the application of the Linux licensing model in commercial products.

Two Or Three Things I'm Dying to Tell You Jalal Toufic, 2005 Cultural Writing. What was Orpheus dying to tell his wife, Eurydice? What was Judy dying to tell her beloved, Scottie, in Hitchcock's *Vertigo*? What were the previous one-night wives of King Shahrayar dying to tell Shahrzad? What was the Christian God dying to tell us? What were the faces of the candidates in the 2000 parliamentary election in Lebanon dying to tell voters and nonvoters alike? While writing *(Vampires): An Uneasy Essay on the Undead in Film and Undying Love, or Love Dies, I, a mortal to death*, was dying to tell these books' readers and myself about diegetic silence-over, which produces a dead stop and reveals the occasional natural immobilization of the living as merely a variety of movement; and an unreality that sometimes behaves in a filmic manner, inducing the undead to wonder: Am I in a film?; as well as a significant number of other anomalies--Jalal Toufic. Resurrection through simulation--an end time fantasy in real time. The graves open...the dead walk...Toufic is a sort of poststructuralist spiritualist, a critical medium for the peculiar specters that haunt the society of the spectacle. Ben Lerner

Jalal Toufic is an amazing writer. He documents the moves of consciousness in a way that leads the reader ever deeper, from impasse to illusion to new impasse turning the trap of what can't be named' into a true paradise.

Winners Take All - The 9 Fundamental Rules of High Tech Strategy Tony Seba, 2006-07-09 'Winners Take All' is about building a product and a company into a winner. Written by Tony Seba, a high tech entrepreneur and Stanford University lecturer, this book is an easy-to-read guide to the strategies, tools, templates, and step-by-step implementation frameworks that recent Silicon Valley winners have used to achieve market leadership. Seba, who teaches entrepreneurship and strategic marketing looked at recent winners like Google, Symantec, Netflix, Apple, Craigslist, Salesforce, and compared them to the competition (Yahoo, McAfee, Sony) in order to learn what differentiated these companies He found 9 really simple rules that winning companies can follow. To test the 9 Rules's predictive power, the author published two portfolios. 18 months later the results were compelling: 80% of the '9 Rules' companies beat the market and the portfolio had a 57% return (details: www.tonyseba.com). Winners Take All is refreshingly free of buzzwords and consultant-speak.
