Software and Mind Andrei Sorin, 2013-01-01 Addressing general readers as well as software practitioners, *Software and Mind* discusses the fallacies of the mechanistic ideology and the degradation of minds caused by these fallacies. Mechanism holds that every aspect of the world can be represented as a simple hierarchical structure of entities. But, while useful in fields like mathematics and manufacturing, this idea is generally worthless, because most aspects of the world are too complex to be reduced to simple hierarchical structures. Our software-related affairs, in particular, cannot be represented in this fashion. And yet, all programming theories and development systems, and all software applications, attempt to reduce real-world problems to neat hierarchical structures of data, operations, and features. Using Karl Popper's famous principles of demarcation between science and pseudoscience, the book shows that the mechanistic ideology has turned most of our software-related activities into pseudoscientific pursuits. Using mechanism as warrant, the software elites are promoting invalid, even fraudulent, software notions. They force us to depend on generic, inferior systems, instead of allowing us to develop software skills and to create our own systems. Software mechanism emulates the methods of manufacturing, and thereby restricts us to high levels of abstraction and simple, isolated structures. The benefits of software, however, can be attained only if we start with low-level elements and learn to create complex, interacting structures. Software, the book argues, is a non-mechanistic phenomenon. So it is akin to language, not to physical objects. Like language, it permits us to mirror the world in our minds and to communicate with it. Moreover, we increasingly depend on software in everything we do, in the same way that we depend on language. Thus, being restricted to mechanistic software is like thinking and communicating while being restricted to some ready-made sentences supplied by an elite. Ultimately, by impoverishing software, our elites are achieving what the totalitarian elite described by George Orwell in *Nineteen Eighty-Four* achieves by impoverishing language: they are degrading our minds.

The Irregular at Magic High School, Vol. 20 (light novel) Tsutomu Sato, 2022-10-18 Spring is here, and the graduating seniors of First High are planning a getaway to sunny Okinawa. At the same time, Tatsuya and Miyuki will be on the island as the Yotsuba family's representatives at a memorial service for the victims of the invasion there several years earlier. Magic After Midlife Collection: Books 1-3: A Humorous Paranormal Women's Fiction Deborah Wilde, 2023-01-01 Featuring a slow burn shifter romance and intelligent snark, this clever mix of urban fantasy and mystery will take you on a wild ride. Middle-aged. Divorced. Hormonally imbalanced. Then she got magic. Underestimate her. That'll be fun. It's official. Miriam Feldman is killing it in the midlife crisis department. She's mastered boredom, aced invisibility, and graduated Summa Cum Laude in smiling and playing nice in her post-divorce life. Then her best friend gets tangled up with some vamps and goes missing. If that's not scary enough, Miri snaps, and in a cold dark rage, unleashes a rare and powerful shadow magic. Miri's only got a mouthy golem and a grumpy-yet-sexy French wolf shifter to help her navigate this world of hidden magic and supernatural power plays, but she's a librarian, she's over forty, and she's definitely done with being sidelined in her own life. She's turning her invisibility into strength; they'll never see her coming. Fans of Jana DeLeon, Robyn Peterman, and KF Breene, will adore Miri, a smart older heroine with zero effs left to give! ~ "The man's body isn't even cold and you're robbing him?" Wolf Dude said. "I'm looking for identification," I said through ground teeth. There was a cracked phone but no wallet. "You ruined my chance to get information about—" "I saved you." The shifter shrugged into his discarded beaten-up brown leather jacket, his shoulders bunching. "I don't know what interrogation skills you think you have, but I can assure you that dybbuk wouldn't have given up anything." "Dybbuk?" He swore in French. "You went after him without knowing what you were dealing with?" "Alex had attacked me once already," I said, "and if he did something to my friend—" "Then she's gone. Sorry for your loss." I threw my hands up. "That's all you have to say?" "No." He raked a shrewd glance over me. "Should we ever have the misfortune to meet again, get out of my way." "Or what? You'll huff and you'll puff and you'll blow my house down?" He bared his lips, briefly shifting his canines to wolf form. My, what big teeth you have. A strangled laugh burbled out of me. My epistemological crisis involved a hell of a Freudian undertone. "I'll do whatever the hell is necessary," he said. "Is that your action hero catchphrase or something? Because it's a little on the nose." "My reputation doesn't precede me? Shocking." His voice was laced with bitterness. "Wow. Someone is full of themselves. I've got no idea who you are." He peered at me suspiciously. "Are you new in town?" "No." He shrugged. "Then you know who I am." "Hate to disappoint you, but you're just some rando who crashed my party and ruined my plan—" "To get answers from someone who wouldn't tell you anything you actually wanted to know. Brilliant strategy. You've the mind of a tactician. Even if you did get something out of him, did you think he'd let you walk away after?" His accent thickened when he got annoyed. "For your information, I'm doing an admirable job. Before yesterday, the only monsters I had to worry about were of the human variety." "There's no way you didn't know about dybbuks. You're too—" He snapped his mouth shut. "Oh, no," I said. "Finish that sentence." He crossed his arms, rustling the leather. "Old," he said levelly. My magic shadow bopped Wolfman in the nose with a swift jab. Ha! He pinched his nostrils together to staunch the bleeding, his emerald eyes glinting dangerously. My amusement drained away. "Should we ever have the misfortune to meet again, get out of my way." "Vraiment? Why?" "I'm a woman in my forties who's remembered how powerful she can be. Don't mess with me, Huff 'n' Puff." ~ Includes the titles: *Throwing Shade* (Magic After Midlife, #1) *Made in the Shade* (Magic After Midlife, #2) *A Shade Too Far* (Magic After Midlife, #3) Let's get you reading!

Now I'm psychic roommates with the Saghred, an ancient stone with cataclysmic powers. Just me, the stone, and all the souls it's ingested over the centuries. Crowded doesn't even begin to describe it. All I want is my life back—which means getting rid of the stone and the power it possesses. To sort things out, I head for the Isle of Mid, home to the most prestigious sorcery school, as well as the Conclave, the governing body for all magic users. It's also home to power-grubbing mages who want me dead and goblins who see me as a thief. As if that's not enough, Mid's best student spellsingers are disappearing left and right, and I'm expected to find them. Lives are at stake, goblins are threatening to sue, mages are getting greedier, and the stone's power is getting stronger by the hour. This could get ugly.
