**Provider-based Entities** Gina M. Reese,2017 This book serves as a comprehensive guide to provider-based clinics, from qualifying under CMS, to unique billing and coding rules, and the business decisions behind owning or acquiring these clinics. It will help readers sort through the complex regulations relevant to this unique provider type, and provide insight into recent changes, such as the introduction of Modifier -PO. CMS is looking to implement the Section 603 provisions of the Bipartisan Budget Act of 2015 regarding off-campus, provider-based departments (PBD) by January 1, 2017, according to the 2017 OPPS proposed rule. The agency is proposing to pay the nonfacility or office Medicare Physician Fee Schedule (MPFS) amount to the performing/supervising physician and preclude hospitals from billing on a UB-04 form or receiving OPPS payment for services performed at these locations for 2017, but plans to explore other options for 2018 and beyond. Physicians would be paid at the higher nonfacility rate of the MPFS, but only hospitals that have employed or contracted physicians that reassign their billing to the hospital would get paid under the MPFS for these services. Hospitals would be able to bill claims on CMS-1500 forms for physicians who have already reassigned their billing to the hospital, as in the case of employed physicians. Otherwise, hospitals would have the option of enrolling the location as the type of provider or supplier it wishes to bill to meet the requirements of that payment system (e.g., ambulatory surgery center or group practice).
