Seguridad informática Audit, conseil, installation et sécurisation des systèmes d'information (France),2018

Seguridad informática - Hacking Ético Raphaël RAULT,Laurent SCHALKWIJK,ACISSI,Marion AGÉ,Nicolas CROCFER,Robert CROCFER,David DUMAS,Franck EBEL,Guillaume FORTUNATO,Jérôme HENNECART,Sébastien LASSON,2015-09-01 Este libro sobre seguridad informática (y hacking ético) está dirigido a todo informático sensibilizado con el concepto de la seguridad informática aunque sea novato o principiante en el dominio de la seguridad de los sistemas de información. Tiene como objetivo iniciar al lector en las técnicas de los atacantes para, así, aprender a defenderse. Esta nueva edición tiene en cuenta las novedades en el campo de la seguridad informática e incluye tres nuevos capítulos que abarcan: la investigación forense, basada principalmente en la investigación de la evidencia digital, ataques más orientados al hardware (como tarjetas con chip y otros) y los routers, omnipresentes en nuestros hogares, poniendo de relieve que no son infalibles y la necesidad de saber configurarlos para evitar problemas. Después de una definición precisa de los diferentes tipos de hackers y de sus objetivos, los autores presentan la metodología de un ataque y los medios para reparar los fallos de seguridad empleados para introducirse en un sistema. El capítulo sobre Ingeniería social, o manipulación social, completamente revisado en esta edición, ilustra que más de un 60% de los ataques con éxito se debe a errores humanos. La captura de huellas digitales, imprescindible antes de lanzar un ataque, se desarrolla ampliamente. Llegamos al corazón de la materia con los fallos físicos, que permiten un acceso directo a ordenadores, y los fallos de red y Wi-Fi se presentan e ilustran cada uno con propuestas de contramedidas. También se presenta la seguridad en la web y los fallos actuales identificados gracias a la ayuda de herramientas que el lector puede implantar fácilmente en sus propios sistemas. El objetivo es identificar siempre los posibles fallos para establecer después la estrategia de protección adecuada. Siguen, los fallos de sistemas en Windows o Linux con la llegada de nuevas versiones de estos sistemas. Los fallos de aplicación, que introduce algunos elementos para familiarizarse con el lenguaje ensamblador y comprender mejor las posibilidades de ataque. Los tres nuevos capítulos llegan finalmente con el Análisis Forense, los Routers, y los fallos Hardware. El Cloud Computing es abordado (su historia, funcionamiento) para controlar mejor la seguridad. Los autores de este libro forman un equipo de personas con la convicción de que la seguridad informática esté al alcance de todos: conocer el ataque para una mejor defensa es su lema. Hackers de alma blanca, abren al lector las puertas del conocimiento underground. Los capítulos del libro: Introducción y definiciones – Metodología de un ataque – Elementos de ingeniería social – Toma de huellas – Los fallos físicos – Los fallos de red – Cloud Computing: puntos fuertes y débiles – Los fallos Web – Los fallos de sistema operativo – Los fallos de aplicación – Análisis forense – La seguridad de los routers – Los fallos de hardware

Computer Basics Absolute Beginner's Guide, Windows 8 Edition Michael R. Miller,2012-09-14 This year, millions of casual computer users will buy new Windows 8 mobile devices, notebooks, and desktop PCs. They'll want to know how to find their way around, get comfortable, and get the job done - without jargon, complexity, or hassle. There's a book for them: Michael Miller's Absolute Beginner's Guide to Computer Basics, Windows 8 Edition. It's the one book that covers everything today's beginners and near-beginners need to know: not just about Windows, but also about software, hardware, and the Internet. Through 100+ books, author Michael Miller has established an unparalleled track record in explaining complicated concepts simply and clearly, and empowering beginners. Now, he's thoroughly updated his best-selling Absolute Beginner's Guide to Computer Basics to cover today's user experience - with Windows 8, Internet Explorer 8, and today's hottest online tools, from craigslist and Facebook to Twitter, Wikipedia, and Google Docs. The latest edition of Absolute Beginner's Guide to Computer Basics is updated with coverage of Windows 8, which introduces the totally new Metro user interface. Given Metro's genesis as a mobile interface, and Microsoft's push towards a new breed of touchscreen computing devices, this new edition will include more hardware coverage than previous editions. In addition, this book will cover Windows 8's new Metro interface in depth, as well as feature increased coverage of social networking and cloud computing applications.

Computer Basics Absolute Beginner's Guide, Windows 10 Edition (includes Content Update Program) Michael Miller,2015-08-21 Make the most of your new Windows® 10 notebook or desktop computer—without becoming a technical expert! This book is the fastest way to get comfortable, get productive, get online, get started with social networking, make more connections, and have more fun! Even if you've never used a Windows computer before, this book shows you how to do what you want, one incredibly clear and easy step at a time. Computer basics have never, ever been this simple! Who knew how simple using computers could be? This is today's best beginner's guide to using your computer or tablet with the new Windows 10 operating system...simple, practical instructions for doing everything you really want to do! Here's a small sample of what you'll learn: Set up your new computer and use the Windows 10 Start menu and desktop Connect to the Internet and browse the Web with Microsoft Edge Get started with social networking on Facebook®, Twitter™, Pinterest™, and LinkedIn® Use Windows 10's built-in apps—and find great new apps in the Windows Store Connect printers and external storage, and set up automatic file backup Create a home network in just minutes Go online to shop and sell—and smart search with Microsoft Cortana® Get your office work done fast Organize, view, and share photos Play music using Spotify®, Pandora®, iTunes®, and more Watch TV shows and movies online with Netflix® and Hulu™ Protect yourself against viruses, spyware, and spam Keep your system running reliably at top speed This book is part of Que's Content Update Program. As Microsoft® updates features of Windows, sections of this book will be updated or new sections will be added to match the updates to the software. See inside for details

Computer Basics - Absolute Beginner's Guide Michael Miller,2014 Guides beginning users through basic PC operations in Microsoft Windows, demonstrating such tasks as personalizing Windows 8.1, connecting to the Internet, using social networks, working with apps, playing music, and performing routine maintenance.

Merry Christmas, Blaze! (Blaze and the Monster Machines) Rachel Chlebowski,2016-09-13 Boys and girls ages 3 to 7 will love this holiday-themed coloring and activity book starring Nickelodeon's Blaze and the Monster Machines! It features holiday cards to share—plus more than 50 stickers for decorating fun!

Billy and Blaze C.W. Anderson,2012-07-17 The first book in the classic, beloved Billy and Blaze series, from renowned author C.W. Anderson. Billy was a little boy who "loved horses more than anything else in the world." Imagine how happy he was when he got his very own pony for his birthday! From that day on, Billy was seldom seen without his new friend, Blaze. Riding through fields and woods, Billy and Blaze learned to trust and understand one another—and to jump over fences and fallen trees with ease. They were a great team, but were they good enough to win the gleaming silver cup at the Mason Horse Show? This is the first book in the classic Billy and Blaze series. Sensitive drawings and easy-to-read words capture the warmth and gentle understanding between a boy and his horse.

Corpse Princess, Vol. 22 Yoshiichi Akahito,2019-04-30 The mad salvation has come at last, and with it, the despair of many. There is but one path of resistance. The final hope lies with the Ryuuge Tree.

The Poetical Library William Hayley,1787

If Not Us Frank Tayell, If not us, who? If not now, when? As the much-depleted United Nations meets in Canberra, the scale of the global catastrophe becomes clear. The tsunami left Brisbane a flooded ruin. Vanuatu has disappeared. The Madagascan evacuation has failed. Vancouver has been reduced to a radioactive crater. For as far west as Mozambique, as far to the east as Chile, and as far north as Canada, the world is a catalogue of devastation. From the Atlantic, there has been no news since the early days of the outbreak, four weeks ago. With the satellite networks down, searching for survivors is difficult. With the relief fleets destroyed, rescue is impossible. While the fallout is still settling, the collective minds of the refugees in Australia focus on rebuilding as a distraction from the rising risk of radiation and extinction. Commissioner Tess Qwong has a different duty. She must find those responsible for this ultimate crime

against humanity. Her investigation into the failed coup provides the identity of those behind the outbreak and the location of their lab. With her misfit group of Special Forces and civilian conscripts, she heads to Mozambique. There, a New Zealand frigate will take them on into the unknown dangers of the Atlantic. But while they hunt the radioactive seas for the war criminals, below the waves their enemy is hunting for them. From Perth to Panama, from South Africa to South America, from paradise islands to radioactive wastelands, the battle against extinction continues.

The Rise of the New Bloods, From Dark Beginnings Kelly A Hambly, 2014-09-26 Humans believe vampires are a myth, but unbeknown to them there are vampires masquerading as humans. For two hundred years, the last clan of vampires have lived in Scandinavia protecting the only thing which shields them from the sun, an ancient Egyptian relic called the ankh. Jyrki, the youngest member of the New Bloods clan has been chosen by an ancient prophet to protect the ankh from the human race, but after discovering his family have been murdered it propels him to venture into the world where he is forced to learn and control what he is to conceal his identity.

Living in the Woods in a Tree Sybil Rosen, 2008 Offers a glimpse into the turbulent life of Texas music legend Blaze Foley (1949-1989). This book is suitable for Blaze Foley and Texas music fans, as well as romantics of different ages.

Mighty Monster Machines (Blaze and the Monster Machines) Nickelodeon Publishing, 2015-08-01 Blaze and the Monster Machines is Nickelodeon's new animated action-adventure series! It stars Blaze, a problem-solving truck that can transform into multiple machines, and his best friend and driver, AJ. This action-packed book is sure to thrill kids. This Nickelodeon read-along contains audio narration.
