Routledge German Dictionary of Business, Commerce and Finance Worterbuch Fur Wirtschaft, Handel und Finanzen Sinda Lopez,2019-07-12 First published in 2002. The German Dictionary of Business, Commerce and Finance is the second dictionary to be published in Routledge's programme of bilingual business dictionaries. The series was launched in December 1995 with the French Dictionary of Business, Commerce and Finance. It would not have been possible to compile this dictionary within a relatively short timescale, and to the standard achieved, without the use of a highly sophisticated, custom-designed database. The database's most significant feature is that it is designed as a relational database: term records for each language are held in separate files, with further files consisting only of link records. Links between terms in different language files represent translations, enabling us to handle various types of one-to-many and many-to-one equivalences. Links between terms within a single language file represent crossreferences between geographical variants and abbreviations. The content of the database for this dictionary was created in three principal phases. A considerable proportion of the English term list was already available following the publication of the French Dictionary of Business, Commerce and Finance. The term list was then sent out to specialist translators - with current practical experience of business translation - who supplied German equivalences and expanded the English and German term lists to include the main relevant terminology in their particular spheres of work.

Nazi-Deutsch/Nazi German Karen Doerr,2002-01-30 Created and used as an instrument of coercion and indoctrination, the Nazi language, Nazi-Deutsch, reveals how the Nazis ruled Germany and German-occupied Europe, fought World War II, and committed mass murder and genocide, employing language to encode and euphemize these actions. Written by two scholars specializing in socio-linguistic and historical issues of the Nazi period, this book provides a unique, extensive, meticulously researched dictionary of the language of the Third Reich. It is an important reference work for English- and German-speaking scholars, students, and teachers of the interwar years, the Nazi era, World War II, and the Holocaust. The first and only comprehensive German-English dictionary of the Third Reich language, the book provides clear, concise, expert definitions with background information. Using up-to-date research, the book provides access, in a single volume, to a specialized, charged vocabulary, including the terminology of Nazi ideology, propaganda slogans, military terms, ranks and offices, abbreviations and acronyms, euphemisms and code names, Germanized words, slang, chauvinistic and anti-Semitic vocabulary, and racist and sexist slurs. The volume is an indispensable tool for research, study, and reading about World War II and the Holocaust.

German, Jew, Muslim, Gay Marc David Baer,2020-04-28 Hugo Marcus (1880–1966) was a man of many names and many identities. Born a German Jew, he converted to Islam and took the name Hamid, becoming one of the most prominent Muslims in Germany prior to World War II. He was renamed Israel by the Nazis and sent to the Sachsenhausen concentration camp before escaping to Switzerland. He was a gay man who never called himself gay but fought for homosexual rights and wrote queer fiction under the pen name Hans Alienus during his decades of exile. In *German, Jew, Muslim, Gay*, Marc David Baer uses Marcus's life and work to shed new light on a striking range

of subjects, including German Jewish history and anti-Semitism, Islam in Europe, Muslim-Jewish relations, and the history of the gay rights struggle. Baer explores how Marcus created a unique synthesis of German, gay, and Muslim identity that positioned Johann Wolfgang von Goethe as an intellectual and spiritual model. Marcus’s life offers a new perspective on sexuality and on competing conceptions of gay identity in the multilayered world of interwar and postwar Europe. His unconventional story reveals new aspects of the interconnected histories of Jewish and Muslim individuals and communities, including Muslim responses to Nazism and Muslim experiences of the Holocaust. An intellectual biography of an exceptional yet little-known figure, German, Jew, Muslim, Gay illuminates the complexities of twentieth-century Europe’s religious, sexual, and cultural politics.

Cosmopolitanism, Nationalism and the Jews of East Central Europe Michael L. Miller,Scott Ury,2016-01-22 Since ancient times, Jews have had a long and tangled relationship to cosmopolitanism. Torn between a longstanding commitment to other Jews and the pressure to integrate into various host societies, many Jews have sought a third, seemingly neutral option, that of becoming citizens of the world: cosmopolitans. Few regions witnessed such intense debates on these questions as the lands of East Central Europe as they entered the modern era. From Berlin to Moscow and from Vilna to Bucharest, the Jews of East Central Europe were repeatedly torn between people, nation and the world. While many Jews and individuals of Jewish descent embraced cosmopolitan ideologies and movements across the span of the nineteenth century, such appeals to transcend the nation became increasingly suspect with the rise of integral nationalism. In Germany, Poland, Russia and other lands, Jews and other supporters of cosmopolitan movements were marginalized during the late nineteenth and early twentieth centuries. Although such sentiments reached their peak during the Second World War, anti-cosmopolitan propaganda continued throughout the Cold War when it often became an integral part of anti-Jewish campaigns in the Soviet Union, Czechoslovakia, Poland and Romania. Even after the end of the Cold War, the connection between Jews and cosmopolitanism continues to befuddle ideologues, cultural leaders and politicians in Europe, North America and Israel. The fourteen chapters amassed in this volume address these and other questions including: What lies at the roots of the longstanding connection between Jews and cosmopolitanism? How has this relationship changed over time? What can different cultural, economic and political developments teach us about the ongoing attraction and tension between Jews and cosmopolitanism? And, what can these test cases tell us about the future of Jews and cosmopolitanism in the twenty-first century? This book was originally published as a special issue of the European Review of History.
