His devotion to beautiful natural wine, the freshest seafood crudos, and perfectly cooked rib-eyes is legit. And now he wants to share with you everything he’s learned on this epic food journey. In Foodheim, Wareheim takes readers deep into his foodscape with chapters on topics like circle foods (burgers, tacos), grandma foods (pasta, meatballs), and juicy foods (steak, ribs). Praise for Foodheim "We are all searching for greatness, and Eric is what we are searching for in ourselves. Through his searching we don't need to search: we have found. Eric is my Martha Stewart, my mother. He's the maître d, the Emeril Lagasse, the Andre Agassi, the Dennis Rodman. He's true love and commitment to the craft of the food. He is food."—Matty Matheson "Eric has written an instant classic that will command prime real estate in every young culinary enthusiast's kitchen. People will say about Foodheim what past generations have said about Joy of Cooking, 'This book taught me how to cook.' If this book existed as a resource for me when I was making my bones, I would surely be more successful today. Hail, Foodheim!"—Kris Yenbamroong, chef and owner of NIGHT + MARKET

Half Upon a Time James Riley, 2011-09-13 In the village of Giant's Hand Jack's grandfather has been pushing him to find a princess and get married, so when a young lady falls out of the sky wearing a shirt that says Punk Princess, and she tells Jack that her grandmother, who looks suspiciously like the long-missing Snow White, has been kidnapped, Jack decides to help her.

A Bright Young Thing Brianne Moore, 2021-09-07 In early 1930s England, a young firebrand finds herself on a fraught and dangerous road to independence. In 1931 England, Astra Davies defies all the conventions. Clever, witty, and determined, Astra smokes, drinks, plays a mean piano, and gallivants around London with her beloved Cavalier King Charles Spaniel. But Astra finds herself in a tight spot when her parents die suddenly, leaving her with a raft of debts. With few marketable skills and a closet full of family secrets, Astra has two choices: find a rich husband or make her own way. A fiercely driven woman like Astra is not about to cast her lot in with a man, especially out of desperation. And since the only man she fancies--Jeremy Harris, the Earl of Dunreaven--is as hard up as she is, her way forward is clear. But the path to independence is a bumpy one fraught with hazards and heartbreaking choices. A blackmailing socialite threatens to derail Astra's reputation. A brainless business partner just might drive her even further into debt. And a series of bruising scandals dogs her every step of the way. From the bustle of London to the country estates of the aristocracy, Astra embarks on a journey that tests her brains, wit, and mettle as never before. But one way or another, Astra Davies is dead set on proving she's no ordinary Bright Young Thing.

A Visit from St. Nicholas Clement Clarke Moore, 1848 T'was the night before Christmas, when all through the house Not a creature was stirring-not even a mouse. This timeless poem is so well known to children and so often recited by adults it is virtually a part of our common heritage. Written on Christmas Eve in 1822-in a horse-drawn sleigh with jingling bells according to legend-it evokes the excitement and good cheer of Christmas Eve like no other work of American literature. Paired with Thomas Nast's drawings of St. Nicholas, from which we derive the classic image of Santa Claus, this lovely edition may well become the quintessential American Christmas book for children of all ages.

Coloring the Universe Travis Rector, Kimberly Arcand, Megan Watzke, 2015-11-15 With a fleet of telescopes in space and giant observatories on the ground, professional astronomers produce hundreds of spectacular images of space every year. These colorful pictures have become infused into popular culture; we find them on billboards, in commercials, and on our computers. But they also invite questions: Is this what outer space really looks like? Are the colors real? How are these images made? Coloring the Universe uses accessible language to describe how these giant telescopes work, what scientists learn with them, and how they are used to make color images. Both informative and beautiful, this book is filled with brilliant images of deep space as well as an insider's perspective by the people who make them.
