Nick can still teleport four inches to the left, and Farshad’s thumbs are still super strong. Cookie can still read minds, if they’re thinking of directions, and Martina can still change the color of her eyes. But now, Martina can see the invisible, and when Nick is super stressed, he can move a lot farther than four inches. As their powers evolve in possibly dangerous ways, the Odds are even more determined to solve the mystery of their origin, but it means interacting at school—a serious social risk to popular girl Cookie. Soon, it becomes clear that Auxano, the chemical company that employs half the town, is involved. With the help of some renegade Amish teenagers and Ed, the invisible bus driver, this unlikely group of companions will uncover a nefarious experiment in which they’ve become unwitting test subjects. They’ll also begin to become something even more incredible—friends.
