Ask a Manager Alison Green,2018-05-01 From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit "reply all" • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager "A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work."—Booklist (starred review) "The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience."—Library Journal (starred review) "I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor."—Robert Sutton, Stanford professor and author of The No Asshole Rule and The Asshole Survival Guide "Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way."—Erin Lowry, author of Broke Millennial: Stop Scraping By and Get Your Financial Life Together

It's the Manager Jim Clifton,Jim Harter,2019-05-07 Who will lead your workforce during rapid change? Gallup research reveals: It's the manager. While the world's workplace has been going through historic change, the practice of management has been stuck in time for decades. The new workforce — especially younger generations — wants their work to have deep mission and purpose. They don't want old-style command-and-control bosses. They want coaches who inspire them, communicate with them frequently and develop their strengths. Who is the most important person in your organization to lead your teams through these changes? Decades of global Gallup research reveal: It's your managers. They are the ones who make or break your organization's success. Packed with 52 discoveries from Gallup's largest study of the future of work, It's the Manager shows leaders and managers how to adapt their organizations to rapid change — from new workplace demands to the challenges of managing remote employees, the rise of artificial intelligence, gig workers, and attracting and keeping today's best employees. Great managers maximize the potential of every team member and drive your organization's growth. And they give every one of your employees what they want most: a great job and a great life. This is the future of work. It's the Manager includes a unique code to take the CliftonStrengths assessment, which reveals your top five strengths, as well as supplemental content available on Gallup's online workplace platform.

Telecommunications Structure and Management in the Executive Branch of Government 1900-1970 Thomas E. Will,2019-07-16 In early 1970 President Richard M. Nixon created a new executive office, the Office of Telecommunications Policy (OTP), and appointed Dr. Clay T. Whitehead as OTP's first director. (Whitehead had previously been on the staff of Peter Flanigan, a presidential assistant responsible for telecommunications policy at the White House.) What was the motivation behind this action? Were political interests being served? With what results? Thomas Will believes that these and other questions must be raised in view of the history of the Nixon administration. In an attempt to answer them, he examines the development of telecommunications policy in the executive branch from 1900 to 1970. Dr. Will reviews the early executive branch involvement in radio telecommunications, the Radio Act of 1927 and the Communications Act of 1934, the technological advance of radio telecommunications and its effect on the executive branch before and after World War II, the. appointments of telecommunications advisors to presidents from 1951 to 1967, and the creation of the President's Task Force in 1967 to deal with the problems created by an inherently limited radio spectrum. He traces the steps taken to create the OTP and analyzes the extent to which the office reflected a traditional progression of executive branch telecommunications authority. His study and conclusions are directly and essentially relevant to the current debate on telecommunications policy.

Architect of the Capitol management and accountability framework needed to lead and execute change / ,2002 We are pleased to respond to your request that we provide preliminary observations from our ongoing general management review of the Architect of the Capitol (AOC). As you know, the Senate and House Appropriations Committees mandated this review for completion in November 2002. At that time we will provide our final observations and recommendations. Upon completion of our review, AOC is to develop a management improvement plan to address our recommendations. You asked us to focus on certain management shortcomings at AOC that needed attention strategic planning, organizational alignment, strategic human capital management, financial management, and information technology (IT) management. You also asked us to assess two key program areas worker safety and recycling both to illustrate the management issues we are addressing and to help AOC identify best practices and areas for improvement in these important programs. We plan to explore project management and budgeting, among other issues, in greater depth in the next phase of our review. We have briefed AOC on the preliminary observations in this statement

and the accompanying appendix, which provides additional details on the results of our work.
