The Docks Bill Sharpsteen,2011-01-05 The Docks is an eye-opening journey into a giant madhouse of activity that few outsiders ever see: the Port of Los Angeles. In a book woven throughout with riveting novelist detail and illustrated with photographs that capture the frenetic energy of the place, Bill Sharpsteen tells the story of the people who have made this port, the largest in the country, one of the nation's most vital economic enterprises. Among others, we meet a pilot who parks ships, one of the first women longshoremen, union officials and employers at odds over almost everything, an environmental activist fighting air pollution in the diesel death zone, and those with the nearly impossible job of enforcing security. Together these stories paint a compelling picture of a critical entryway for goods coming into the country—the Port of Los Angeles is part of a complex that brings in 40% of all our waterborne cargo and 70% of all Asian imports—yet one that is also extremely vulnerable. The Docks is a rare look at a world within our world in which we find a microcosm of the labor, environmental, and security issues we collectively face.

Down at the Docks Rory Nugent,2009-02-17 In the opening pages of *Moby Dick*, Herman Melville called New Bedford, Massachusetts, “the dearest place to live in, in all of New England.” But the old fishing port and manufacturing center—once one of the richest cities in New England—has withered in the modern economy. Its once-prosperous fishermen now struggle with government regulations and fished-out seas, while its empty factories now offer more work to the Fire Department than anyone else. In *Down at the Docks*, Rory Nugent tells the “riches to rags” story of this iconic American town through beautifully told and unsentimental portraits of its residents. Their lives inform a eulogy to the distinctive ideas, traditions, and culture that is about to disappear from the waterfront.

By the Ore Docks Richard Hudelson,Carl Ross,2006 Located on the shore of Lake Superior near the Iron Range of Minnesota and, for much of its history, the site of vast steel, lumber, and shipping industries, Duluth has been home to people who worked tirelessly in the rail yards, grain elevators, and harbor. Here, for the first time, *By the Ore Docks* presents a compelling, full-length history of the people who built this port city and struggled for both the growth of the city and the rights of their fellow workers. In *By the Ore Docks*, Richard Hudelson and Carl Ross trace seventy years in the lives of Duluth's multi-ethnic working class—Scandinavians, Finns, Italians, Poles, Irish, Jews, and African Americans—and chronicle, along with the events of the times, the city's vibrant neighborhoods, religious traditions, and communities. But they also tell the dramatic story of how a populist worker's coalition challenged the “legitimate American” business interests of the city, including the major corporation U.S. Steel. From the Knights of Labor in the 1880s to the Industrial Workers of the World, the AFL and CIO, and the Democratic Farmer-Labor party, radical organizations and their immigrant visionaries put Duluth on the national map as a center in the fight for worker's rights—a struggle inflamed by major strikes in the copper and iron mines. *By the Ore Docks* is at once an important history of Duluth and a story of its working people, common laborers as well as union activists like Ernie Pearson, journalist Irene Paull, and Communist party gubernatorial candidate Sam Davis. Hudelson and Ross reveal tension between Duluth's ethnic groups, while also highlighting the ability of the people to overcome those differences and shape the legacy of the city's unsettled and remarkable past. Richard Hudelson is professor of philosophy at the University of Wisconsin, Superior. He is the author of, among other works, *Marxism and Philosophy in the Twentieth Century* and *The Rise and Fall of Communism*. Carl Ross (1913–2004) was a labor activist and the author of *The Finn Factor in American Labor, Culture, and Society*. He was director of the Twentieth-Century Radicalism in Minnesota Project of the Minnesota Historical Society.
