Judy Allen Dodson

Game, Set, Cash! Brad Hutchins, 2014-05-28 Inside the secret world of tennis court-siding. Brad Hutchins has been living a young bloke's dream: getting paid to travel the world and watch sport. Sitting court-side on the pro tennis circuit, he uses his phone to transmit results to a gambling syndicate, taking advantage of the time delay in TV broadcasts to beat other online punters to the big pay-offs. His stories from life on the road capture the adventures and mishaps that come with following the world's best tennis players and partying in a new country every week. But like card counters in casinos, court-siders are despised by the tennis establishment. The more time Brad spends at tournaments, the harder it becomes for him to evade the security guards who are hell-bent on ejecting him from matches. The resulting cat-and-mouse chases will appeal to anyone who loves the roguish spirit of *The Wolf of Wall Street* or *Catch Me If You Can*. Brad Hutchins spent his youth playing sports and travelling the world, before finding his dream job as a tennis trader. Born and raised in Brisbane, he has lived and worked in the UK and Canada, and now teaches primary school students on the Gold Coast. *Game, Set, Cash!* is his first book.

45 Love Ray Krueger, 2012-02-03 One of the marketing campaigns for tennis has called it a sport for a lifetime. This is a diary of a life as defined by a sport. Ray Krueger, an editor at the NEW YORK TIMES, spends a year on a quest for the best possible ranking on the 45-and over national tennis circuit while balancing a career in jeopardy and a life spent looking for validation in a sport that may have saved his life. The journey starts as an overweight 17-year-old obsessed with watching and chronicling sports in notebooks as a wannabe sportswriter/editor. Krueger decides to get into the game. His sport: tennis. Separating for the first time from his broken home and his long departed alcoholic father and emotionally damaged mother, Krueger begins a quest that leads him through the lowest levels of recreational tennis to training as a serious athlete and competing in tournaments all over the country. Along the way, the sport gives him structure, a support system and even a wife. The dedication and devotion that he finds in his yearlong (and lifelong) tennis quest also guides him through the toughest year of his professional life. On the court, Krueger deals with fellow obsessives in addition to dilettantes, media masters of the universe, former world ranked players and mental cases, only some of which have been officially diagnosed as such. The year on the 45-and-over circuit outlines the physical, mental and emotional challenges and rewards inherent in trying to achieve a goal, and shows when the goal may also hide the real reasons for working so hard to achieve it.

For Tennis Players : Tennis Notebook, Coach Journal, for Game Record, Score Notes Keeper,

Tennis Player Gift Tennis Net Tennis Net Journal,2019-12-05 The winner is the one who believes in victory more. Novak Djokovic. This is a 120 pages lined Journal, to level up your Tennis Game's Lifestyle! Everything about us is sending a message to others about our level of intensity as well. The things we do, the things we say, even our appearance, suggests an inner attitude about life. If we are spending more money on donuts than we do on books, that suggests something about the sincerity of our desire for personal progress. Whether we spend an evening in front of a computer screen or a TV screen, talking with our children or having fun with our pals from the office, lifestyle is a function of attitude and personal values. We can all afford to live better. It doesn't take more money to change how we live. It takes more deliberate thought and a greater appreciation of the real values in life. Lifestyle means designing ways to live uniquely. It is a skill to be mastered, not a condition to be pursued. It is finding new ways to bring joy, pleasure, excitement and substance into our lives and into the lives of those we care for while we are working on our goals, not once we have achieved them. A more abundant existence does not necessarily mean a more enjoyable lifestyle. Many of us dream of becoming wealthy, of having a beautiful home that is tended by others so that we will be free to enjoy ourselves. We dream of winning lotteries that will enable us to quit our jobs tomorrow and go off in pursuit of the good life. We dream of chauffeurs to drive us and servants to take care of us so that we can have all the time in the world to do whatever we want to do. The big question is what would we do? In a very short time, most of what we dreamed of one day doing would become as uninspiring as our current lifestyle. There is only so much traveling, so much partying, so much sleeping and so much enjoying that we can experience before this too would become tedious. If it is not a life of endless fun and laughter that we are after, then what are we in pursuit of? What is this thing we call lifestyle? We might all have different opinions of what lifestyle is, but hopefully we will all agree on what it is not: It is not something we get simply as a result of having more. Lifestyle is a result of living more... living more fully, living more consciously, living more joyfully, living more appreciatively. The more fully we live, the more we do and the more we become. Lifestyle is not a reward for all of our hard effort; it is a way of making our hard effort more rewarding, more meaningful and ultimately more productive. If we wish to be wealthy, we must study wealth, and if we wish to be happy, we must study happiness. The combination of these two studies create the aura that we call lifestyle. Most people do not make happiness and wealth a study. Their plan for finding happiness consists of going through the day with their fingers crossed, hoping that, somehow, something will work out that will make them happy. But happiness is an art, not an accident. It is not something that falls out of the sky. Happiness--that

unique emotion that we mistakenly believe comes to us only when we have become successful--must precede the achievement of success. Happiness is as much a cause of success as it is a result of success, and we can begin to experience happiness whenever we wish, regardless of our current circumstances.

Acing Depression Cliff Richey,Hilaire Richey Kallendorf,2010 Chronicling the tumultuous life of the original bad boy of tennis, this engaging memoir describes one man's public battle with clinical depression. Cliff Richey was best known for the 1970 season in which he won the Grand Prix, the Davis Cup, and was first in the American tennis ranking. He was also well known for his tantrums and boorish behavior that served to mask an internal, dark struggle. Describing torturous days in which he would place black trash bags on the windows and lay in bed crying for hours, this brutally honest narrative stresses that depression is a mental disorder that can affect anyone. Documenting his 10 year fight for control of his mind, aided by antidepressant medication, the determination and strength that afforded him the nickname of The Bull is highlighted. Expressing the joy of feeling stable for the first time in his life, this deeply moving story of nightmare and redemption serves to encourage and inspire anyone whose life is touched by mental illness.

The Nolan Variations Tom Shone, 2020-11-03 An in-depth look at Christopher Nolan, considered to be the most profound, commercially successful director at work today, written with his full cooperation. A rare, revelatory portrait, as close as you're ever going to get to the Escher drawing that is Christopher Nolan's remarkable brain (Sam Mendes). In chapters structured by themes and motifs (Time; Chaos; Dreams), Shone offers an unprecedented intimate view of the director. Shone explores Nolan's thoughts on his influences, his vision, his enigmatic childhood past--and his movies, from plots and emotion to identity and perception, including his latest blockbuster, the action-thriller/spy-fi *Tenet* (Big, brashly beautiful, grandiosely enjoyable--Variety). Filled with the director's never-before-seen photographs, storyboards, and scene sketches, here is Nolan on the evolution of his pictures, and the writers, artists, directors, and thinkers who have inspired and informed his films. Fabulous: intelligent, illuminating, rigorous, and highly readable. The very model of what a filmmaking study should be. Essential reading for anyone who cares about Nolan or about film for that matter.--Neal Gabler, author of *An Empire of Their Own: How the Jews Invented Hollywood* and *Walt Disney, The Biography*

American Sports [4 volumes] Murry R. Nelson, 2013-05-23 America loves sports. This book examines and details the proof of this fascination seen throughout American society--in our literature, film, and music; our clothing and food; and the iconography of the nation. This momentous four-volume

work examines and details the cultural aspects of sport and how sport pervasively reflects—and affects—myriad aspects of American society from the early 1900s to the present day. Written in a straightforward, readable manner, the entries cover both historical and contemporary aspects of sport and American culture. Unlike purely historical encyclopedias on sports, the contributions within these volumes cover related subject matter such as poetry, novels, music, films, plays, television shows, art and artists, mythologies, artifacts, and people. While this encyclopedia set is ideal for general readers who need information on the diverse aspects of sport in American culture for research purposes or are merely reading for enjoyment, the detailed nature of the entries will also prove useful as an initial source for scholars of sport and American culture. Each entry provides a number of both print and online resources for further investigation of the topic.
