The Longevity Code Zorba Paster, Susan Meltsner, 2001 We're all interested in living a long life, but few of us are willing to sacrifice everything to attain that longevity. After all, what good is living an additional decade at the expense of enjoying the previous ones? In this remarkable book, Dr. Zorba Paster -- host of the public radio show Zorba Paster On Your Health -- takes a detour from the traditional negative, abstinent approach that addresses only physical factors. Instead, Dr. Zorba introduces us to the five spheres of wellness that encompass all aspects of life: the physical, of course, but also the mental, kinship/social, spiritual, and material spheres. He reveals well-documented research that indicates that you must address and balance all of these areas, and not just the physical, to achieve optimal longevity -- and also your greatest enjoyment of that longevity. Within each sphere, Dr. Zorba pinpoints the most threatening busters -- those lifestyle aspects that will, sooner or later, kill you. And for each buster, he recommends the most advantageous boosters -- habits that will counteract the buster and extend your life. Many of these boosters will come as a complete surprise. For example, even the most diet-conscious, performance-oriented athlete may be at risk for heart disease and stroke by ignoring all the other spheres:

mentally, with chronic depression; socially, with limited, distant relationships; spiritually, with an uncaring attitude; and materially, with an unsatisfying, underappreciated job. To tailor this remarkable booster-and-buster system to you, The Longevity Code includes in-depth exercises to isolate your most urgent needs. Once you've identified the busters you must overcome, you can clip out the booster cards -- summaries of each of the 76 boosters -- to help you focus on your personal prescription for living a longer, sweeter life.

The Informatics Handbook S.A. Fist, 2012-12-06 This is not a dictionary - and nor is it an encyclopedia. It is a reference and compendium of useful information about the converging worlds of computers, communications, telecommunications and broadcasting. You could refer to it as a guide for the Information Super Highway, but this would be pretentious. It aims to cover most of the more important terms and concepts in the developing discipline of Informatics - which, in my definition, includes the major converging technologies, and the associated social and cultural issues. Unlike a dictionary, this handbook makes no attempt to be 'prescriptive' in its definitions. Many of the words we use today in computing and communications only vaguely reflect their originations. And with such rapid change, older terms are often taken, twisted, inverted, and mangled, to the point where any attempt by me to lay down laws of meaning, would be meaningless. The information here is 'descriptive' - I am concerned with usage only. This book therefore contains keywords and explanations which have been culled from the current literature - from technical magazines, newspapers, the Internet, forums, etc. This is the living language as it is being used today - not a historical artifact of 1950s computer science.

How To Become a Truck Driver Howexpert, Bruce Stimson, 2019-12-29 Let's talk about the money, most truck drivers can expect to earn \$30,000-\$40,000 in their 1st year. I know some drivers who work as Solo drivers and decide to give up their apartments so they can stay in the truck all year long and save money. They still take days off from time to time, and stay with friends, family or rent a hotel for a few days so they can take a break. Once you have 6 months experience you may be able to find a job that pays more money. I've seen motivated drivers earning in the \$60,000 range in their 1st year. The money is there to earn if you look for it. Too many drivers get complacent and they stay with the same company in the same position making low wages for years and years. Sometimes all you need to do to increase your income is switch positions within the company. If the company you work for doesn't offer anything that will take you to the next level then find another company that will. I know a Walmart driver who earns \$100,000 year and he's home every night and weekend. Companies pay you in cents per mile (CPM) so the more mileage you drive the more you earn The bottom line is company drivers can make anywhere from \$30,000 to around \$100,000 per year. Stay away from company lease options, 99% of the time only the company does well with this type of position. They will make their lease program sound perfect, touting how you will be your own boss and make lots of money. Drivers often find themselves making just enough to cover the WEEKLY truck lease payment. If you want to truly be your own boss as a owner operator of your own truck then save up the money to buy a used truck cash or you may be able to find a 3rd party (not company sponsored) lease program. I have seen a couple of decent

3rd party lease programs, these will allow you to contract with any company you want. So if you're not making enough money with one company then you can easily switch to another. Owner operators can make anywhere from \$50,000 - \$250,000 per year. About the Expert I have been driving a truck full time for over 4 years at the time of this publishing. I have been a company driver for 3 of those years and an owner/operator for a bit over one. In the 4+ years that I've been driving I have spent one year driving most of the lower 48 states. I haven't made it up to North Carolina, and a few other states in the northeast but all of the others I have. For the last two years I have been truck driving with my team from Los Angeles to the Kansas City area and back. We did that twice a week. After doing that for about a year I was able to get a driving position working nights and being home every day. I did that for almost year. I left there because the company did a pathetic job of maintaining their equipment. I was afraid of getting stopped by law enforcement. So I left them and got my own truck to take care of. Now I am contracted with a carrier to move their freight and it works out a lot better. HowExpert publishes quick 'how to' guides on all topics from A to Z by everyday experts.
