Life in Antarctic Deserts and other Cold Dry Environments Peter T. Doran,W. Berry Lyons,Diane M. McKnight,2010-04-29 The McMurdo Dry Valleys form the largest relatively ice-free area on the Antarctic continent. The perennially ice-covered lakes, ephemeral streams and extensive areas of exposed soil are

subject to low temperatures, limited precipitation and salt accumulation. The dry valleys thus represent a region where life approaches its environmental limits. This unique ecosystem has been studied for several decades as an analog to environments on other planets, particularly Mars. For the first time, the detailed terrestrial research of the dry valleys is brought together here, presented from an astrobiological perspective. Chapters include a discussion on the history of research in the valleys, a geological background of the valleys, setting them up as analogs for Mars, followed by chapters on the various sub-environments in the valleys such as lakes, glaciers and soils. Includes concluding chapters on biodiversity and other analog environments on Earth.

the green of the sun Grodno. Trail Fuel Heather Legler, 2016-11-29 A collection of recipes for wilderness backpacking from the host of the popular podcast, The First 40 Miles. Trail Fuel: 40 Quick & Easy Recipes for Wilderness Backpacking

My first experience with preparing food for a backpacking trip was when my husband was prepping for his first backpacking trip since his time as a boy scout. He explained, All I know is that I need foods that are calorie dense. Because of the length and intensity of the trip, he needed human rocket fuel. Over the course of a few days, we planned his menu, put together calorie-dense meals, and tried to give enough variety for the five day adventure. Then something happened that I never expected. I was invited to go. With only a week to prepare, I did a crash course in backpacking. I loaded up my pack with all the necessities of life-plus some of those calorie dense foods that I had picked out for Josh only days before. And we were off! It was a week of peanut butter packets, granola bars, M&Ms, dehydrated dinners, and beautiful vistas! What makes great backpacking food? It's calorie-dense. It's shelf-stable. It's simple to prepare. It's a good mix of naughty and nice. It's adaptable and idiot-proof Whether you're new to backpacking or you've been on more trails than you can shake a trekking pole at, this cookbook will inspire you to rethink the essentials, lighten your load, and make the most of your time on the trail. --- Tags: backpacking for beginners, wilderness backpacking, hiking, camping, food, recipes, cookbook, meals.

Latin American Independence Sarah C. Chambers, John Charles Chasteen, 2010-01-01 Rarely has the story of Latin American independence been told so richly and with such a plurality of voices. Chambers and Chasteen have expertly woven a comprehensive yet accessible historical tapestry of primary sources to tell the story of the Wars for Independence. The editors recover fascinating, lesser-known voices---many of which appear in English for the first time here---and situate them alongside canonical sources in rewarding and surprising ways. This is an indispensable resource for students and scholars alike, and an invitation to critically rethink the multiple meanings and resonance of Latin American independence. Christopher Conway, The University of Texas at Arlington This magnificent collection gives voice to the many peoples---women and men, Blacks and Whites, natives and newcomers---who watched, fought, fled, and most especially put pen to paper as the Iberian empires broke up. All of them bring history to life. The introductions to each document, themselves valuable little essays, will guide even the untutored through the complex labyrinth of Latin America's first revolutions. Jeremy Adelman, Princeton University Maps and illustrations are included, as are a chronology of the Wars for Independence, suggestions for further reading, and a thorough index.
