Visual Basic for DOS Namir C. Shammas,1993 A hands-on introduction to programming with Visual Basic for DOS, including a disk containing all the program code covered. This book takes a painless approach that first-time users will find reassuring--a quick-start, step-by-step tutorial on object-oriented programming; dozens of easy-to-follow sample programs; helpful icons highlighting special tips and warnings; and a rich supply of screen images.

Spatial Hearing Jens Blauert,1997 The field of spatial hearing has exploded in the decade or so since Jens Blauert's classic work on acoustics was first published in English. This revised edition adds a new chapter that describes developments in such areas as auditory virtual reality (an important field of application that is based mainly on the physics of spatial hearing), binaural technology (modeling speech enhancement by binaural hearing), and spatial sound-field mapping. The chapter also includes recent research on the precedence effect that provides clear experimental evidence that cognition plays a significant role in spatial hearing. The remaining four chapters in this comprehensive reference cover auditory research procedures and psychometric methods, spatial hearing with one sound source, spatial hearing with multiple sound sources and in enclosed spaces, and progress and trends from 1972 (the first German edition) to 1983 (the first English edition) -- work that includes research on the physics of the external ear, and the application of signal processing theory to modeling the spatial hearing process. There is an extensive bibliography of more than 900 items.

Mystery Writers of America Presents Vengeance Mystery Writers of America, Inc.,2012-04-03 When a different kind of justice is needed---swift, effective, and personal---a new type of avenger must take action. VENGEANCE features new stories by bestselling crime writers including Lee Child, Michael Connelly, Dennis Lehane, and Karin Slaughter, as well as some of today's brightest rising talents. The heroes in these stories include a cop who's seen too much, a woman who has been pushed too far, or just an ordinary person doing what the law will not. Some call them vigilantes, others claim they are just another brand of criminal. Edited and with an introduction by Lee Child, these stories reveal the shocking consequences when men and women take the law into their own hands. Nationalism and Identity Stefano Harney,1996 The nation-state of Trinidad and Tobago offers a unique case for the study of the forces and ideologies of nationalism. This book reveals how this ethnically diverse nation (40% African origin, 40-45% East Indian origin, plus those of Syrian, Chinese, Portuguese, French and English descent), independent for less than forty years, has provided fertile ground for the creative tension between the imagination of the writer in his or her search for a habitable text of identity and the official discourse on nationalism in Trinidad and Tobago. This discourse has in turn been embedded in a struggle that propels the nation's story. Following on from this background, the study examines the changes and influences on the sense of nationalism and peoplehood caused by migration and the ethnicization of migrant communities in the metropolises.

Releasing the Imagination Maxine Greene, 2000-02-02 This remarkable set of essays defines the role of imagination in general education, arts education, aesthetics, literature, and the social and multicultural context.... The author argues for schools to be restructured as places where students reach out for meanings and where the previously silenced or unheard may have a voice. She invites readers to develop processes to enhance and cultivate their own visions through the application of imagination and the arts. *Releasing the Imagination* should be required reading for all educators, particularly those in teacher education, and for general and academic readers. —Choice Maxine Greene, with her customary eloquence, makes an impassioned argument for using the arts as a tool for opening minds and for breaking down the barriers to imagining the realities of worlds other than our own familiar cultures.... There is a strong rhythm to the thoughts, the arguments, and the entire sequence of essays presented here. —American Journal of Education *Releasing the Imagination* gives us a vivid portrait of the possibilities of human experience and education's role in its realization. It is a welcome corrective to current pressures for educational conformity. —Elliot W. Eisner, professor of education and art, Stanford University *Releasing the Imagination* challenges all the cant and cliché littering the field of education today. It breaks through the routine, the frozen, the numbing, the unexamined; it shocks the reader into new awareness. —William Ayers, associate professor, College of Education, University of Illinois, Chicago

Social Theory, Social Change and Social Work Nigel Parton, 2002-09-11 *Social Theory, Social Change and Social Work* has two inter-related themes. First to account for and analyse current changes in social work and secondly, to assess how far recent developments in social theory can contribute to their interpretation. Representing the work of a range of academics all involved in research and teaching in relation to social work, it considers issues of central significance to everyone interested in the theory, policy, and practice of social work.

Innovating Play Christine Pinto, Jessica LaBar-Twomey, 2020-09-15 Tech integration for early childhood education as thoughtful as it is wholehearted Technology isn't just a way to innovate instruction; it's also the key to building classrooms that are dynamic, playful, and truly connected. In *Innovating Play*, early childhood educators Jessica LaBar-Twomey and Christine Pinto share the insights that led their kindergarten classes to generative, daily collaborations from opposite ends of the United States. In the process, they offer elementary educators a powerful set of digital tools that transform social-emotional learning. LaBar-Twomey and Pinto guide readers through the process of leveraging classroom technology in order to foster empathy and broaden horizons. With a warm, inviting style, and drawing from the rich examples of their own classrooms, Jessica and Christine offer a treasure trove of actionable, impactful tips that will help you seamlessly connect your students with the world around them. Christine and Jessica have created an incredibly insightful, realistic, robust guide to innovating early childhood education based on their own classroom instruction. Their masterfully crafted pedagogy weaves together authentic learning, design thinking, and tech integration all through the play and discovery learning so crucial for our youngest learners. *Innovating Play* is guaranteed to inspire, guide, and support meaningful technology integration for authentic learning experiences. —Lisa Highfill, technology integration specialist, co-author and creator of *The HyperDoc Handbook* and *Teachers Give Teachers* This book will provide coaches the resources and detailed examples to support teachers in implementation. The examples drive digital literacy for all and never deviate from core curriculum practices. Jessica and Christine have showcased a multitude of ways in which equity and inclusion have been intentionally embedded through their cycle of learning. —Nyree Clark, curriculum program specialist, technology, TK-6 *Innovating Play* is a fun, easy-to-read how-to resource for early childhood educators that blends core curriculum and purposeful tech beautifully. Christine and Jessica not only model their design to teach twenty-first-century skills to our littles, they will inspire you to reimagine and innovate play in your own class! —Erika Sanchez, MEd, kindergarten teacher

Right Concentration Leigh Brasington, 2015-10-13 A practical guidebook for meditators interested in achieving the states of bliss and deep focus associated with the Buddhist jhānas One of the elements of the Eightfold Path is Right Concentration: the one-pointedness of mind that, together with ethics, livelihood, meditation, and more, leads to the ultimate freedom from suffering. So how does one achieve Right Concentration? According to the Buddha himself, the jhānas—a series of eight progressive altered states of consciousness—are an essential method. But because the jhānas can usually be achieved only through prolonged meditation retreat, they have been shrouded in mystery for years. Not anymore. In *Right Concentration*, Leigh Brasington takes away the mystique and gives instructions on how to achieve them in plain, accessible language. He notes the various pitfalls to avoid along the way and provides a wealth of material on the theory of jhāna practice—all geared toward the practitioner rather than the scholar. As Brasington proves, these states of bliss and concentration are attainable by anyone who devotes the time and sincerity of practice necessary to realize them.

The Future of America's Death Penalty Charles S. Lanier, William J. Bowers, James R. Acker, 2009 *The Future of America's Death Penalty*, comprised of original chapters authored by nationally distinguished scholars, is an ambitious effort to identify the most critical issues confronting the future of capital punishment in the United

States and the steps that must be taken to gather and analyze the information that will be necessary for informed policy judgments. Contributors articulate the most pressing issues of administration, litigation, legislation, and executive action confronting the future of capital punishment, and identify research strategies designed to supply answers to those questions. The book represents a valuable academic contribution, particularly within criminal justice and law, and is of interest as well to policymakers and practitioners. It emerges a generation after the Supreme Court's landmark decision in Gregg v. Georgia (1976) heralded the modern era of capital punishment, and at a time when the efficacy and operation of the death penalty are under intensive scrutiny by governmental study commissions throughout the country. The book is organized into six sections: (A) Institutional and Disciplinary Perspectives on the Death Penalty; (B) Capital Punishment: Public Policy Perspectives; (C) The Death Penalty as Applied; (D) Participants in the Capital Punishment Process; (E) The Punishment of Death; and (F) Interdisciplinary Perspectives: Toward a Research Agenda for the Future. This is a great collection. It should be on many bookshelves and in all serious libraries. -- Law & Politics Book Review The Future of America's Death Penalty fulfills its goals... [I]t provides a useful resource for social scientists studying America's death penalty. -- Eric N. Waltenburg, The Justice System Journal

The Power of an Open Question Elizabeth Mattis-Namgyel,2010-09-14 How do we find a resting place in a world that is complex and always changing? How do we practice spirituality beyond the limits of blind acceptance and doubt? Elizabeth Mattis-Namgyel proposes that when we ask challenging questions like these, we access our deepest intelligence and most powerful insights. When we ask a question, she suggests, our mind is engaged yet open. The process of inquiry protects us from our tendency to reach static conclusions. Instead, we can respond to uncertainty and change with inquisitiveness and a sense of wonder. Her book guides us on a provocative, playful, and spiritually enriching journey of contemplation that could last a lifetime.
