Traditional Values and Local Community in the Formal Educational System in Senegal Maguette Diame,2023-12-18 This book explores the discourse of traditional values and local practices within the formal educational system in Senegal, investigating how these cultural elements are present

in the daily life of the community and integrated into formal schools and teaching. Studying the integration of concepts such as Jom (hard work, pride, dignity), Kersa (decency), Fule (self-respect), Mun (endurance), Teranga (hospitality), Kal (kinship), and Suture (Protection), it looks at how values are used, perceived and understood within communities, as well as their positive and negative connotations in the postcolonial context. Based on long-term participant education and utilizing a critical auto-ethnography lens, it ultimately proposes that such concepts can be used to counterbalance the Western knowledge to which schoolchildren are mostly exposed, connecting this to Bhaba's system of the 'Third Space'; a hybrid system to accommodate both educational systems for more relevant education. An informed study of the positive impacts of traditional cultural values on education in Senegal, it will appeal to scholars, researchers and practitioners of education in post-colonial Francophone countries with interests in culturally relevant education, African education, post-colonial education, and international education.

Management Research Susan Rose, Nigel Spinks, Ana Isabel Canhoto, 2014-07-25 For many post-graduate students undertaking a research project for the first time is a daunting prospect. Gaining the knowledge and skills needed to do research typically has to be done alongside carrying out the project itself. Students often have to conduct their research independently, perhaps with limited tutor contact. What is needed in such situations is a resource that supports the new researcher on every step of the research journey, from defining the project to communicating its findings. **Management Research: Applying the Principles** provides just such a resource. Structured around the key stages of a research project, it is designed to provide answers to the questions faced by new researchers but without neglecting the underlying principles of good research. Each chapter includes 'next steps' activities to help readers apply the content to their own live research project. The companion website provides extensive resources, including video tutorials, to support the development of practical research skills. The text reflects the richness and variety of current business and management research both in its presentation of methods and techniques and its choice of examples drawn from different subject disciplines, industries and organizations. **Management Research: Applying the Principles** combines diversity of coverage with a singularity of purpose: to help students complete their research project to a rigorous standard.

Review Quotes: “Compared to other approaches to theology and religious studies, missiology has the propensity to use social science methods. This clearly written introduction to complex terrain will enable students to navigate it and develop tools for their own project, and students are more likely to recognize their research interests in its examples. Especially useful features include the glossary and the section on student supervisors/mentors and examiners. This volume is authoritative and cognisant of other leading texts.” KIRSTEEN KIM, Pierson Professor of World Christianity, Fuller Theological Seminary, co-editor of The Oxford Handbook of Mission Studies “This textbook fills an important niche for postgraduate researchers embarking on empirical research in Practical Theology or Religious Studies. Those who have little or no background in the social sciences will find this a clear and well-structured introduction on how to conceive a research project and what methods are available to answer their research questions. Reading this before they embark on their journey could save a lot of problems further down the road.” ANDREW VILLAGE, Professor of Practical and Empirical Theology, York St John University, author of The Church of England in the First Decade of the 21st Century “Here is a fascinating and engaging handbook every researcher in theology and religious studies should read and assimilate. It fulfils a felt need by pooling the wealth of sociological methodologies and applying them to the scientific study of lived religion. The author has done a unique service, and his work will remain a point of reference for years.” FELIX WILFRED, Founder and Director of Asian Centre for Cross Cultural Studies, Chennai, editor of The Oxford Handbook of Christianity in Asia It is very good to see the use of social science methods being developed to aid religious studies and theological research. My hope is that this very practical book, using such up-to-date resources as Alan Bryman’s Social Research Methods (OUP) now in its fifth edition, will help to develop this important form of study further. ROBIN GILL, Emeritus Professor of Applied Theology, University of Kent, author of the trilogy on Sociological Theology “This volume fills an important gap in the field by bringing social scientific methods into theology and religious studies. All parties in this conversation have much to gain from a sustained dialogue, and this book moves us in that direction.” JOHN BARTKOWSKI, Professor - Sociology, University of Texas at San Antonio “This is a valuable resource written in a way that theological students will understand, and supervisors will appreciate! It takes the student “by the hand” from the formulation of the research topic through methodological positioning and choices and closes with a chapter on supervision expectations. I look forward to prescribing it to my own postgraduate students.” NADINE BOWERS DU TOIT, Professor - Theology and Development, University of Stellenbosch, editor of Race, Faith and

Inequality amongst Young Adults in South Africa: “The highly readable, yet exhaustive and authoritative text covers all aspects of the variety of methods available to contemporary scientists who either produce or evaluate empirical research. The text is intended for students and scholars of theology and religious studies, but anyone interested in how religion is practiced in different cultural contexts and want to understand individual lived experiences and interpretations will find this text an invaluable guide.” RALPH W. HOOD Jr., Professor of Psychology, University of Tennessee, co-editor of Research in the Social Scientific Study of Religion series Upon launching out on research, students and scholars are always on the lookout for good books on research methodology. In Dr lyadurai’s book, they will find an excellent manual spanning the length and breadth of what they are looking for. I strongly recommend this book to all those engaged in research. JOHNSTON, Professor of Theology and Culture, Fuller Theological Seminary, co-author of Deep Focus: Film and Theology in Dialogue Social Research Methods for Students and Scholars of Theology and Religious Studies is a masterpiece that draws from Joshua's experience of teaching social research for two decades. Tuesdays with Morrie Mitch Albom,2007-06-29 #1 NEW YORK TIMES BESTSELLER • A special 25th anniversary edition of the beloved book that has changed millions of lives with the story of an unforgettable friendship, the timeless wisdom of older generations, and healing lessons on loss and grief—featuring a new afterword by the author “A wonderful book, a story of the heart told by a writer with soul.”—Los Angeles Times “The most important thing in life is to learn how to give out love, and to let it come in.” Maybe it was a grandparent, or a teacher, or a colleague. Someone older, patient and wise, who understood you when you were young and searching, helped you see the world as a more profound place, gave you sound advice to help you make your way through it. For Mitch Albom, that person was his college professor Morrie Schwartz. Maybe, like Mitch, you lost track of this mentor as you made your way, and the insights faded, and the world seemed colder. Wouldn’t you like to see that person again, ask the bigger questions that still haunt you, receive wisdom for your busy life today the way you once did when you were younger? Mitch Albom had that second chance. He rediscovered Morrie in the last months of the older man’s life. Knowing he was dying, Morrie visited with Mitch in his study every Tuesday, just as they used to back in college. Their rekindled relationship turned into one final “class”: lessons in how to live. “The truth is, Mitch,” he said,

“once you learn how to die, you learn how to live.” Tuesdays with Morrie is a magical chronicle of their time together, through which Mitch shares Morrie’s lasting gift with the world.

Experiencing the Gospel Thomas W. Seckler,2020-05-18 In recent years, increasing numbers of people from Muslim backgrounds have become followers of Jesus. Some of these conversions have occurred in Cambodia. This book explores the experiences and reflections of forty Cambodians from a Muslim background who have chosen to believe in and follow Jesus. It is based on doctoral research utilizing in-depth interviews which sought to answer the following questions: 1) What role did contextualizing the Christian message play in making it more understandable and compelling? 2) What core themes or factors did those interviewed report as central in their own conversions? 3) How was the gospel message itself experienced as personally meaningful? This book probes the answers to those questions, revealing the manner in which forty Cambodians experienced God and the gospel message. The stories and reflections found here not only provide a glimpse into their lives, but also give insight into the way in which Muslim-background individuals come to believe in and embrace Jesus.
