Nature Inside Penny Sparke,2021-02-02 The story of how plants and flowers have shaped interior design for over 200 years From ferns in 19th-century British parlors to contemporary living walls in commercial spaces, plants and flowers have long been incorporated into the design of public and private spaces. Spanning two centuries, Nature Inside explores the history and popularity of indoor plants, revealing the close relationship between architecture, interior design, and nature. Studying the international modern interior through the lens of plants in the human environment, author Penny Sparke attributes a degree of the interest in indoor plants to urbanization, and, more recently, the climate crisis, which serve as ongoing reminders that people must maintain a connection to, and respect for, the natural world. While architectural and interior design styles have evolved alongside the popularity of various plant species, the human need to bring nature indoors has remained constant.

A Foodie Afloat Di Murrell, 2020-07-28 A Foodie Afloat is the story of a cook's journey through France on a barge. Di Murrell takes us on a gentle journey across France; her main preoccupation being to make sure that tasty food arrives on the table each day. As she voyages across the country she shows, through her recipes, how the cuisine changes with the landscape. Whether bought in the market, dug from a lock-keeper's garden or even foraged along the towpath, the food she finds and cooks is always seasonal and local to the region. This book is more than just a collection of recipes though. It is the result of a life spent on the waterways of Europe. She talks to lock-keepers, skippers of working barges and those, who, like her, find their sustenance on or near the canal. Di's enjoyment of good champagne, foie gras and truffles leads to an eclectic mix of simplicity and sophistication in her cooking. The boating life, though rarely sensational, is full of small events and chance encounters. This is an enticing story of slow boats and slow food. Di makes it come alive, and her combination of travel and recipe book tempts us to give up everything and join her on the waterways of Northern and Central France. A Foodie Afloat is the 2020 UK winner of the World Gourmand Cookbook Awards in the Food Tourism category.

adventures he had while helping transform the mom-and-pop business his mother founded in 1946 in the family kitchen into the beloved brand and ultimately into the iconic global prestige beauty company it is today. In its infancy in the 1940s and 50s, the company comprised a handful of products, sold under a single brand in just a few prestigious department stores across the United States. Today, The Estée Lauder Companies constitutes one of the world's leading manufacturers and marketers of prestige skin care, makeup, fragrance and hair care products. It comprises more than 25 brands, whose products are sold in over 150 countries and territories. This growth and success was led by Leonard A. Lauder, Estée Lauder's oldest son, who envisioned and effected this expansion during a remarkable 60-year tenure, including leading the company as CEO and Chairman. In this captivating personal account complete with great stories as only he can tell them, Mr. Lauder, now known as The Estée Lauder Companies' "Chief Teaching Officer," reflects on his childhood, growing up during the Great Depression, the vibrant decades of the post-World War II boom, and his work growing the company into the beauty powerhouse it is today. Mr. Lauder pays loving tribute to his mother Estée Lauder, its eponymous founder, and to the employees of the company, both past and present, while sharing inside stories about the company, including tales of cutthroat rivalry with Charles Revson of Revlon and others. The book offers keen insights on honing ambition, leveraging success, learning from mistakes, and growing an international company in an age of economic turbulence, uncertainty, and fierce competition.

The Carrier Bag Theory of Fiction Ursula K. Le Guin, 2019 In *The Carrier Bag Theory of Fiction*, visionary author Ursula K. Le Guin retells the story of human origin by redefining technology as a cultural carrier bag rather than a weapon of domination. Hacking the linear, progressive mode of the Techno-Heroic, the Carrier Bag Theory of human evolution proposes: 'before the tool that forces energy outward, we made the tool that brings energy home.' Prior to the preeminence of sticks, swords and the Hero's long, hard, killing tools, our ancestors' greatest invention was the container: the basket of wild oats, the medicine bundle, the net made of your own hair, the home, the shrine, the place that contains whatever is sacred. The recipient, the holder, the story. The bag of stars. This influential essay opens a portal to terra ignota: unknown lands where the possibilities of human experience and knowledge can be discovered anew. With a new introduction by Donna Haraway, the eminent cyberfeminist, author of the revolutionary *A Cyborg Manifesto* and most recently, *Staying with the Trouble* and *Manifestly* Haraway. With images by Lee Bul, a leading South Korean feminist artist who had a retrospective at London's Hayward Gallery in 2018.

Limitless Lucy Waterlow, Mimi Anderson, 2021-03-11 Don't limit your challenges. Challenge your limits At the age of 55, record-breaking ultrarunner Mimi Anderson embarked on her most ambitious adventure yet. She wanted to become the fastest woman in history to run across America from Los Angeles to New York. Her journey would cover 2,850 miles, 12 states and four time zones, dealing with extreme changes in terrain, weather and altitude along the way. For 40 days, the determined mother of three pushed herself on and on for more than 2,000 miles across the vast continent, despite the onset of severe pain, until she was forced to make a crushing decision: carry on and risk never being able to run again or give up on her all-time goal. What happened next set Mimi on a new, unexpected journey. She learned to face her fears and bounce back from defeat by taking up the new challenge of becoming a triathlete. A follow-up to her first memoir *Beyond Impossible*, this next instalment in Mimi's inspiring story proves that when one door closes, another opens – you just need the courage to swim, cycle and run through it.

The Anxiety Workbook for Kids Robin Alter, Crystal Clarke, 2016-09-01 Anxiety in children is on the rise, and recent research has uncovered a link between highly imaginative children and anxiety. Using engaging illustrations and fun activities based in cognitive behavioral therapy (CBT), one of the most proven-effective and widely used forms of therapy today, this *Instant Help* workbook presents a unique approach to help children harness the power of their imaginations to reduce anxiety and build self-esteem. Millions of children suffer from anxiety, which can be extremely limiting, causing kids to miss school, opt out of activities with friends, and refuse to speak or participate in a variety of situations. Furthermore, children who are diagnosed with anxiety or brought into therapy often feel embarrassed about not being "normal." Focusing on the problem of anxiety can stress kids out and make them feel ashamed. But when the focus is on their strengths and their vivid imaginations, children are empowered to face their anxiety head-on. *The Anxiety Workbook for Kids* is a fun and unique workbook grounded in evidence-based CBT and designed to help children understand their anxious thoughts within a positive framework—a perspective that will allow kids to see themselves as the highly imaginative

individuals they are, and actually appreciate the role imagination plays in their anxiety. With this workbook, children will learn that, just as they are capable of envisioning vivid scenarios that fuel their anxiety, they are capable of using their imagination to move away from anxious thoughts and become the boss of their own worries. With engaging CBT-based activities, games, and illustrations—and with a focus on imagination training and developing skills like problem solving, assertiveness, positive thinking, body awareness, relaxation, and mindfulness—this book will help kids stand up to worry and harness the power of their imagination for good.
