Law School Shane Patrick Irvine J D, 2020-07-10 LAW SCHOOL, Learn to Think Like a Lawyer - Hello, my name is Shane Irvine! And I want to be your law professor. I am both the author and the narrator of this audiobook titled, Law School. Now, let me give you a hypothetical. On one hand you have a statement made in a criminal law class at Yale University. The statement is that, First degree murder is the killing of one human being by another with malice aforethought. On the other hand, you have a statement made by a drunken beachcomber on the beach who also proclaims that, First degree murder is the killing of one human being by another with malice aforethought. The statement is that, First degree murder is the killing of one human being by another with malice aforethought. Okay, which of these claims has more truth and justice in it. The statement made in Yale School of Law or the statement made by the drunken beachcomber? Obviously, the statement is the same. The information coming from Yale University can be the same as the bellowings of a drunken beachcomber. That's because the information is generic. Yes, the legal information at Yale University Law School is basically just generic information. This series of classes that I provide, cover the breadth requirement courses necessary in law school to earn a Juris Doctor degree. Nothing is watered down except maybe the latin. The information is just as difficult to comprehend in this audiobook as it is at Yale University. Upon completion of this series of coursework, you will probably have more questions than answers. Don't worry... That's common. It's the nature of the study of law to spark thought. Each person is going to have a different mind set. I present the basic information necessary for you to form the questions. It's therefore, up to you to find your own answers. After all, that's what lawyers, traditional or otherwise, do, they provide differing schools of thought, they question everything, and they resolve to explain the unexplainable. That's the basic objective of being able to think like a lawyer - To be able to create a framework for thinking and ultimately an order for applying that framework. The curriculum for Law School includes Contracts, Tort Law, and Criminal Law, Criminal Procedure, Evidence, Civil Procedure, Family Law, Property law, Constitutional Law, Corporate Law, Wills, Trusts and Probate. These are the basic courses necessary to earn a juris doctor degree. I suggest you repeatedly listen to the material over and over. I also suggest that you purchase the four-volume text of the audiobook, found on Amazon, and follow along. The combination of listening and reading along will further help hold your attention as it all sort of sinks in and you will eventually find yourself thinking like a lawyer. However, unlike having that prestigious Yale University law school diploma on the wall, hypothetically, you will have that equivilent education plus the \$150,000 you would have paid in tuition at
