MacPerl Vicki Brown,Chris Nandor,1998 Perl has become the scripting language of choice in the UNIX community, and it is making rapid inroads into the Windows community as well. This new introductory and reference work on MacPerl allows Macintosh users to gain access to this powerful language. The CD-ROM contains documentation on both MacPerl and Perl, as well as a snapshot of the CPAN (Comprehensive Perl Archive Network).

Overcoming School Refusal Joanne Garfi,2018-01-31 School refusal affects up to 5% of children and is a complex and stressful issue for the child, their family and school. The more time a child is away from school, the more difficult it is for the child to resume normal school life. If school refusal becomes an ongoing issue it can negatively impact the child's social and educational development. Psychologist Joanne Garfi spends most of her working life assisting parents, teachers, school counsellors, caseworkers, and community policing officers on how best to deal with school refusal. Now her experiences and expertise are available in this easy-to-read practical book. Overcoming School Refusal helps readers understand this complex issue by explaining exactly what school refusal is and provides them with a range of strategies they can use to assist children in returning to school. Areas covered include: • types of school refusers • why children refuse to go to school • symptoms • short term and long term consequences • accurate assessment • treatment options • what parents can do • what schools can do • dealing with anxious high achievers • how to help children on the autism spectrum with school refusal

Autonomous Systems: Developments and Trends Herwig Unger,Kyandoghre

Kyamaky, Janusz Kacprzyk, 2011-11-22 The Workshops on Autonomous Systems emanated from a gathering with the doctoral students of just three chairs at Fernuniversität in Hagen, which we organise twice per year for a number of years now. Their purpose is to discuss on-going research and to create a community spirit. Furthermore, they serve as a means of structuring the students' research processes. The workshop has grown and matured in several respects. The doctoral students presenting their work do not come from a single university anymore, but from three. Besides them and their supervisors, also other scientists became interested in the event and contribute to its programme. Following the model of Advanced Study Institutes, they are available on the premises for relaxed, informal discussions outside the formal sessions. Finally, with the co-sponsorship of Gesellschaft für Informatik, the German Computer Society, and this surprisingly comprehensive volume of contributions published by Springer-Verlag the workshop turned into a visible scientific event.

Hindi-English Bilingual Visual Dictionary with Free Audio App DK, 2019-04-25 With over 6,500 fully illustrated words and phrases in Hindi and English, along with a free bilingual audio app, Hindi language learning has never been easier. The dictionary gives a pronunciation guide for every Hindi word, and you can use this alongside the app to perfect your pronunciation.

System Safety Bernhard Wilpert, Babette Fahlbruch, 2002-08-16 In the science of safety, risk analysis and problem identification are well understood. What appears to be missing is a better understanding of the methods and strategies, which could help to close the gap between analysis and corrective action.

Guy Laliberté Ian Halperin, 2009 Laliberte means freedom in French, but Laliberte gives freedom new meaning. This title takes you inside Laliberte's world, followed by over-the-top partying by night. It lets you experience relentless drive of this visionary, his passion for life, the Cirque, and women.

Star Wars Extraordinary Droids Simon Beecroft, 2020-09-03 Find the droids you know and love and discover new favourites along the way. This Star Wars e-guide with a twist showcases a world of droids in close-up detail. Arranged from smallest to biggest, more than 50 droids of the galaxy are revealed with stunning photography and gorgeous artwork. The evocative descriptions will delight children and let them discover amazing droid facts, such as what tools R2-D2 uses and why GNK droids make a gonk gonk noise! Each page features fun droid facts and detailed close-up photographs for children to pore over, including firm favourites such as C-3PO and BB-8 as well as more unusual ones such

as Professor Huyang, police droids, tiny probe droids, and new The Rise of Skywalker droid D-O. Star Wars Extraordinary Droids is a perfect gift for children who can't get enough of a galaxy far, far away. It covers droids small (quiet, little mouse droids) and big (vulture droid starfighters), kind (memoir-writing PZ-4CO) and scary (droidekas), and will be a treasured favourite book to keep. © & TM 2020 LUCASFILM LTD.

Information Literacy Meets Library 2.0 Peter Godwin, Jo Parker, 2008 Web 2.0 technologies have been seen by many information professionals as critical to the future development of library services. This has led to the use of the term Library 2.0 to denote the kind of service that is envisaged. There has been considerable debate about what Library 2.0 might encompass, but, in the context of information literacy, it can be described as the application of interactive, collaborative, and multimedia technologies to web-based library services and collections. These developments challenge librarians involved in information literacy with more complex and diverse web content, a range of exciting new tools with which to teach, and a steep learning curve to adjust to the constant change of the Web 2.0 world. This edited collection from an international team of experts provides a practically-based overview of emerging Library 2.0 tools and technologies for information literacy practitioners; addresses the impact of the adoption of these technologies on information literacy teaching; provides case study exemplars for practitioners to help inform their practice; and examines the implications of Library 2.0 for the training of information literacy professionals. Key topics include: School Library 2.0: new skills and knowledge for the future information literacy, Web 2.0 and public libraries the blog as an assessment tool using Wikipedia to eavesdrop on the scholarly conversation information

literacy and RSS feeds library instruction on the go: podcasting sparking Flickr's of insight into controlled vocabularies and subject searching joining the YouTube conversation to teach information literacy going beyond Google teaching information literacy through digital games. Readership: This book will be essential reading for all library and information practitioners and policy makers with responsibility for developing and delivering information literacy programmes to their users. It will also be of great interest to students of library and information studies.

Grown Up Digital: How the Net Generation is Changing Your World Don Tapscott, 2008-11-16 SELECTED AS A 2008 BEST BUSINESS BOOK OF THE YEAR BY THE ECONOMIST The Net Generation Has Arrived. Are you ready for it? Chances are you know a person between the ages of 11 and 30. You've seen them doing five things at once: texting friends, downloading music, uploading videos, watching a movie on a two-inch screen, and doing who-knows-what on Facebook or MySpace. They're the first generation to have literally grown up digital--and they're part of a global cultural phenomenon that's here to stay. The bottom line is this: If you understand the Net Generation, you will understand the future. If you're a Baby Boomer or Gen-Xer: This is your field guide. A fascinating inside look at the Net Generation, Grown Up Digital is inspired by a \$4 million private research study. New York Times bestselling author Don Tapscott has surveyed more than 11,000 young people. Instead of a bunch of spoiled "screenagers" with short attention spans and zero social skills, he discovered a remarkably bright community which has developed revolutionary new ways of thinking, interacting, working, and socializing. Grown Up Digital reveals: How the brain of the Net Generation processes information Seven ways to attract

and engage young talent in the workforce Seven guidelines for educators to tap the Net Gen potential Parenting 2.0: There's no place like the new home Citizen Net: How young people and the Internet are transforming democracy Today's young people are using technology in ways you could never imagine. Instead of passively watching television, the "Net Geners" are actively participating in the distribution of entertainment and information. For the first time in history, youth are the authorities on something really important. And they're changing every aspect of our society-from the workplace to the marketplace, from the classroom to the living room, from the voting booth to the Oval Office. The Digital Age is here. The Net Generation has arrived. Meet the future.

Library 2.0 Michael E. Casey, Laura C. Savastinuk, 2007 Gives practical advice on how to improve library services using web 2.0 technology and describes a service model of constant and purposeful change, evaluation and user participation.

History and the Internet Patrick D. Reagan, 2002 The Internet permeates contemporary American life, creating enormous possibilities for innovative use in history classrooms and student projects. This concise guide focuses on practical ways that students and teachers can utilize the growing body of library and archival catalogs, primary sources, web sites, images, and sounds to complement and enhance traditional ways of learning, teaching, and researching the human past. Available either as a separate work or packaged with textbooks in United States, Western Civilization, World History, and upper division history courses, this guide will help students to learn how to use e-mail, surf the Internet for quality history sites, employ search engines effectively, create online student projects, and explore the emerging world of multimedia history. Helpful for instructors who wish to learn how to

use scholarly networks, professional web sites, and evaluate reliable web resources to bring new dimensions to the craft of understanding the past. An extensive appendix provides links to the best history-related sites on the Internet by time period and subject as well as resources for scholars and samples of innovative CD-ROM projects in history.

Spectral Sea Stephen G. Nichols, Joachim Küpper, Andreas Kablitz, 2017 The essays in this book lay bare the dynamics of cultural confrontation between Europe and the Mediterranean world from medieval to modern times.

Netizens Michael Hauben, Ronda Hauben, 1997-05-11 The authors conducted online research to find out what makes the Internet tick, resulting in this examination of the pioneering vision and actions that have helped make the Net possible. *Netizens* is a detailed description of the Net's construction and a step-by-step view of the past, present, and future of the Internet, the Usenet and the World Wide Web.

Convergence of Telecommunications and Broadcasting in Japan, United Kingdom and Germany Koichiro Agata, Kiyoshi Nakamura, 2013-01-11 The convergence of telecommunications and broadcasting raises many questions. What form will convergence take in the future? When convergence produces new opportunities in the information, education and entertainment markets, what sort of rules of the game will be required? How will the players behave in these new markets? What policies might be needed?

Inventing the Internet Janet Abbate, 2000-07-24 Janet Abbate recounts the key players and technologies that allowed the Internet to develop; but her main focus is always on the social and cultural factors that influenced the Internet's design and use. Since the late 1960s the Internet has grown from a single experimental network serving a dozen sites

in the United States to a network of networks linking millions of computers worldwide. In *Inventing the Internet*, Janet Abbate recounts the key players and technologies that allowed the Internet to develop; but her main focus is always on the social and cultural factors that influenced the Internet's design and use. The story she unfolds is an often twisting tale of collaboration and conflict among a remarkable variety of players, including government and military agencies, computer scientists in academia and industry, graduate students, telecommunications companies, standards organizations, and network users. The story starts with the early networking breakthroughs formulated in Cold War think tanks and realized in the Defense Department's creation of the ARPANET. It ends with the emergence of the Internet and its rapid and seemingly chaotic growth. Abbate looks at how academic and military influences and attitudes shaped both networks; how the usual lines between producer and user of a technology were crossed with interesting and unique results; and how later users invented their own very successful applications, such as electronic mail and the World Wide Web. She concludes that such applications continue the trend of decentralized, user-driven development that has characterized the Internet's entire history and that the key to the Internet's success has been a commitment to flexibility and diversity, both in technical design and in organizational culture.

Managing Successful Projects with PRINCE 2, 1998 PRINCE2 is the project management method developed by CCTA. This book presents guidance on how to set-up, organize, control, and deliver projects on time, within budget, and to the right quality. It is applicable to projects in both IT and non-IT environments.

Design for Community Derek Powazek, 2006-10-11 This book is available as an Adobe

Reader eBook on the publisher's website: newriders.com Communities are part of all successful web sites in one way or another. It looks at the different stages that must be understood: Philosophy: Why does your site need community? What are your measures of success? Architecture: How do you set up a site to create positive experience? How do you coax people out of their shells and get them to share their experiences online? Design: From color choice to HTML, how do you design the look of a community area? Maintenance: This section will contain stories of failed web communities, and what they could have done to stay on track, as well as general maintenance tips and tricks for keeping your community "garden" growing.

The Wealth of Networks Yochai Benkler, 2006-01-01 Describes how patterns of information, knowledge, and cultural production are changing. The author shows that the way information and knowledge are made available can either limit or enlarge the ways people create and express themselves. He describes the range of legal and policy choices that confront.

Library 2.0 and Beyond Nancy Courtney, 2007-06-30 Editor Courtney has pulled together the best and the brightest who write and practice Web 2.0 to author chapters on next-generation online tools. This text is not a how-to on Web 2.0; rather, each chapter simply explains an online tool, and how it is being used today, using a few superb library examples (ranging from public to academic), and then discusses future possibilities. The suggested readings exemplify the notion of Web 2.0 and publishing, as the recommendations are well balanced between journal articles and freely accessible blog entries. This is a must-have to any library wanting to stay relevant in today's ever-changing

and challenging environment. - Booklist description.
