Looking For Atlantis Colin Thompson,2012-07-01 Grandfather left his grandson a seafarer's chest, a parrot called Titanic and a dream – the dream of looking for Atlantis. “Atlantis is right here all around you,” Grandfather said, “you have to learn how to look for it.” So when Grandfather dies, the boy starts looking: in the chest, on shelves, in books, under the stairs. Colin Thompson's dazzlingly detailed pictures richly illustrate the boy's magical journey of discovery.

Young Skins Colin Barrett,2015-03-03 A blockbuster collection from one of Ireland's most exciting young voices: “Sharp and lively . . . a rough, charged, and surprisingly fun read” (Interview). A National Book Foundation 5 Under 35 Honoree * Winner of the Frank O'Connor International Short Story Award * Winner of the Guardian First Book Award * Winner of the Rooney Prize for Irish Literature Enter the small, rural town of Glanbeigh, a place whose fate took a downturn with the Celtic Tiger, a desolate spot where buffoonery and tension simmer and erupt, and booze-sodden boredom fills the corners of every pub and nightclub. Here, and in the towns beyond, the young live hard and wear the scars. Amongst them, there's jilted Jimmy, whose best friend Tug is the terror of the town and Jimmy's sole company in his search for the missing Clancy kid; Bat, a lovesick soul with a face like “a bowl of mashed up spuds” even before Nubbin Tansey's boot kicked it in; and Arm, a young and desperate criminal whose destiny is shaped when he and his partner, Dymrna, fail to carry out a job. In each story, a local voice delineates the grittiness of post boom Irish society. These are unforgettable characters rendered through silence, humor, and violence. “Lyrical and tough and smart . . . What seems to be about sorrow and foreboding turns into an adventure, instead, in the tender art of the unexpected.” —Anne Enright, Man Booker Prize Award-winning author “Sometimes comic, sometimes melancholy, *Young Skins* touches the heart, as well as the mind.” —Irish American Post

Shape and Space Colin Foster,2003 *Instant Maths Ideas: Shape and Space* contains a broad range of flexible teaching ideas for Key Stage 3 teachers. There are two further volumes, one covering Data, Numeracy and ICT, and another covering Number and Algebra. Each volume includes

matching to the KS3 Maths Framework and photocopiable resource pages.

Finding Colin Firth Mia March,2013-07-09 From the author of The Meryl Streep Movie Club, “a heartwarming, spirit-lifting read just in time for beach season” (Kirkus Reviews), comes a new novel about three women, connected in secret and surprising ways, who are in for a life-changing summer when rumor has it that actor Colin Firth is coming to their Maine town to film a movie. After losing her job and leaving her beloved husband, journalist Gemma Hendricks is sure that scoring an interview with Colin Firth will save her career and marriage. Yet a heart-tugging local story about women, family ties, love, and loss captures her heart– and changes everything. The story concerns Bea Crane, a floundering twenty-two-year-old who learns in a deathbed confession letter that she was adopted at birth. Bea is in Boothbay Harbor to surreptitiously observe her biological mother, Veronica Russo—something of a legend in town—who Bea might not be ready to meet after all. Veronica, a thirty-eight-year-old diner waitress famous for her “healing” pies, has come home to Maine to face her past. But when she’s hired as an extra on the bustling movie set, she wonders if she is hiding from the truth . . . and perhaps the opportunity of a real-life Mr. Darcy. These three women will discover more than they ever imagined in this coastal Maine town, buzzing with hopes of Colin Firth. Even the conjecture of his arrival inspires daydreams, amplifies complicated lives, and gives incentive to find their own romantic endings.

The Jewel That Was Ours Colin Dexter,2008-09-04 The Jewel That Was Ours is the ninth novel in Colin Dexter's Oxford-set detective series. He looked overweight around the midriff, though nowhere else, and she wondered whether perhaps he drank too much. He looked weary, as if he had been up most of the night conducting his investigations . . . For Oxford, the arrival of twenty-seven American tourists is nothing out of the ordinary . . . until one of their number is found dead in Room 310 at the Randolph Hotel. It looks like a sudden – and tragic – accident. Only Chief Inspector Morse

appears not to overlook the simultaneous theft of a jewel-encrusted antique from the victim's handbag . . . Then, two days later, a naked and battered corpse is dragged from the River Cherwell. A coincidence? Maybe. But this time Morse is determined to prove the link . . . The Jewel That Was Ours is followed by the tenth Inspector Morse book, The Way Through the Woods.

Cubed Erno Rubik,2020-09-15 The first book by the reclusive inventor of the world's most iconic puzzle THE RUBIK'S CUBE. Erno Rubik inspires us with what he's learned in a lifetime of creating, curiosity, and discovery. Erno Rubik was a child when he first became obsessed with puzzles of all kinds. "Puzzles," he writes, "bring out important qualities in each of us: concentration, curiosity, a sense of play, the eagerness to discover a solution." To Rubik puzzles aren't just games—they're creativity machines. He encourages us to embrace our inner curiosity and find the puzzles that surround us in our everyday lives. "If you are determined, you will solve them," he writes. Rubik's own puzzle, the Cube, went on to be solved by millions worldwide for over forty years, become one of the bestselling toys of all time, and to be featured as a global symbol of intelligence and ingenuity. In Cubed, Rubik covers more than just his journey to inventing his eponymous cube. He makes a case for always being an amateur—something he has always considered himself to be. He discusses the inevitability of problems during any act of invention. He reveals what it was like to experience the astonishing worldwide success of an object he made purely for his own play. And he offers what he thinks it means to be a true creator (hint: anyone can do it). Steeped in the wisdom and also the humility of a born inventor, Cubed offers a unique look at the imperfect science of creation.

The Collapse of Complex Societies Joseph Tainter,1988 Dr Tainter describes nearly two dozen cases of collapse and reviews more than 2000 years of explanations. He then develops a new and far-reaching theory.
