A Concise and Practical Guide to Installation, Administration, and Customization

Navigating the Maze of Nursing Research Sally

Borbasi,Debra Jackson,2008-01-01 An introductory level text for the Australian and New Zealand market, Navigating the Maze of Nursing Research 2e is simple, lucid and down to earth. There are many higher order research texts for health related disciplines but none other specifically aimed at the beginning student who has a limited understanding of what nursing is, let alone research. Navigating the Maze of Nursing Research 2e is interactive and fun to use - not a 'heavy' text, but brimming with up-to-date ideas and practical hints. The text promotes nurses as 'knowledge workers', life long learners able to access and broker pertinent information efficiently and effectively. Geared more towards nurses as users of research rather than doers, the text is nevertheless steeped in the premise that nurses do conduct research and lots of it, and that evidence-based practice underpins success. Organised in three sections that address what is nursing knowledge, how is research conducted, and how it is applied in practice, this 2nd edition features contributions from prominent nurse academics with vast research experience. Cornerstone chapters such as 'Getting the most out of the library' and 'Surfing the internet' are retained and revised, and important new chapters include 'Mixed methods research' and 'What the future holds for nursing research'. Student challenges and information about differing agencies and web site addresses are updated, and the Evolve website expanded to accommodate student activities, test banks and quizzes on the one interactive facility. Updated information about agencies, web site addresses and student challenges. Increased focus on Australian and New Zealand examples, highlighting the work of local nursing scholars. 'Tips for International Students' integrated

throughout. 'Did you know' question at the beginning of each chapter encourages quizzical and critical thinking. Extensive pedagogy facilitates readability and includes learning objectives, student quotes, key terms chapter abstracts, Evolve icons, resource kits and references in each chapter. Australian adaptation of Langford: Navigating the Maze of Nursing Research IMuslims Gary R. Bunt,2009

Macintosh Windows Integration John Rizzo,1999 Sharing files, connecting Macs to Windows NT servers, and troubleshooting are some of the topics explored in these pages. Because the Mac/Windows Web site generates dozens of email messages every day, Rizzo is aware of which integration issues are important to IS professionals.

Learning Cocoa with Objective-C Paris Buttfield-Addison,Jonathon Manning,Tim Nugent,2014-02-19 Get up to speed on Cocoa and Objective-C, and start developing applications on the iOS and OS X platforms. Architecture Today, 2005

Open Brand Kelly Mooney, Nita Rollins, 2010-04-07 Many of the best brands today are of geek pedigree, powered by the technologies, traits and trends of the ascendant digital channel. Amidst the decline of mass marketing, push marketing tactics have been superseded by new forms of influence. These include the creating, sharing and influencing behaviors of an online population no longer content merely to consume, and the potent pairing of digital notoriety and network effects, which has given rise to the icitizenry. From these sociocultural forces emerges a radical business imperative: to open up to consumer involvement in a brand's messages and offerings. Published under Peachpit's New Riders imprint in partnership with AIGA Design Press, *The Open Brand* illuminates both the risks and immense rewards of doing so, and describes the essential consumer experiences that are requisite for cultural relevance—On-demand, Personal, Engaging, and Networked experiences, representing the chief values of the web-made world.

EBOOK: Understanding Alternative Media Olga

Bailey, Bart Cammaerts, Nico Carpentier, 2007-12-16 What are alternative media? What roles do alternative media play in pluralistic, democratic societies? What are the similarities and differences between alternative media, community media, civil

society media and rhizomatic media? How do alternative media work in practice? This clear and concise text offers a one-stop guide through the complex political, social and economic debates that surround alternative media and provides a fresh and insightful look at the renewed importance of this form of communication. Combing diverse case studies from countries including the UK, North America and Brazil, the authors propose an original theoretical framework to help understand the subject. Looking at both 'old' and 'new' media, the book argues for the importance of an alternative media and suggests a political agenda as a way of broadening its scope. Understanding Alternative Media is valuable reading for students in media, journalism and communications studies, researchers, academics, and journalists.

The Best War Ever Sheldon Rampton, John Stauber, 2006-09-14
The war in Iraq may be remembered as the point at which the propaganda model perfected in the twentieth century stopped working: the world is too complex, information is too plentiful, and—as events in Iraq reveal—propaganda makes bad policy. *The Best War Ever* is about a war that was devised in fantasy and lost in delusion. It highlights the futility of lying to oneself and others in matters of life and death. And it offers lessons to the current generation so that, at least in our time, this never happens again. As the team of Rampton and Stauber show in their first new book since President Bush's reelection, the White House seems to have fooled no one as much as itself in the march toward a needless (from a security perspective) war in Iraq. As the authors argue, one of the most tragic consequences of the Bush administration's reliance on propaganda is its disdain for realistic planning in matters of war. Repeatedly, when faced with predictions of problems, U.S. policymakers dismissed the warnings of Iraq experts, choosing instead to promulgate its version of the war through conservative media outlets and PR campaigns. The result has been too few troops on the ground to maintain security; failure to anticipate the insurgency; and oblivious disregard, even

contempt, for critics in either party who attempted to assess the human and economic costs of the war. Even now that withdrawal seems imminent, however, the administration and its allies continue their cover-ups: downplaying civilian deaths and military injuries; employing marketing buzzwords like victory repeatedly to shore up public opinion; and botched attempts, through third-party PR firms, at creating phony news. The Bush administration entered Iraq believing that its moral, technological, and military superiority would ensure victory abroad, and that its mastery of the politics would win support at home. Instead, it found a morass of problems that do not lend themselves to moralistic, technological, or propaganda-based solutions.

Baghdad Burning II Riverbend, 2009-05-01 Riverbend, the young Iraqi woman whose “articulate, even poetic prose packs an emotional punch,” continues her blog from her hometown of Baghdad (The New York Times). Riverbend, the pseudonymous recipient of a Lettre Ulysses Award for the Art of Literary Reportage, continues her chronicle of daily life in occupied Baghdad. Drawn from her popular blog, this volume spans from October 2004 through March 2006. In her distinctively wry yet urgent prose Riverbend, now 27, tells of life in a middle-class, secular, mixed Shia-Sunni family. She describes the attacks she sees on TV, raids in her neighborhood, fuel shortages, rolling blackouts, and water shortages, all while offering insightful critiques of the Iraqi draft constitution and American Media. Riverbend reveals how, for the first time in her life, she feels lesser due to her gender. Dispelling reductive, media-driven stereotypes, she explains that most Iraqis are tolerant people, prefer secular to religious government, oppose a civil war, and desperately want the occupation to end.

Improvise This! Mark Bergren, Molly Cox, 2002-06-01
Businesses are sending their top managers to improvisational classes to learn how to give presentations, how to talk to clients, and how to finesse difficult situations. But those same skills can be

mastered with the help of the simple and fun exercises found in this book. The authors explain how improvisation comes into play in our daily lives, and the rewards of taking risks in those situations. *Improvise This!* is filled with true-to-life business scenarios and offers methods for not only surviving but triumphing in those situations, making this a valuable and entertaining resource.

Soft Weapons Gillian Whitlock, 2010-02-15 Azar Nafisi's *Reading Lolita in Tehran*, Marjane Satrapi's comics, and "Baghdad Blogger" Salam Pax's Internet diary are just a few examples of the new face of autobiography in an age of migration, globalization, and terror. But while autobiography and other genres of life writing can help us attend to people whose experiences are frequently unseen and unheard, life narratives can also be easily co-opted into propaganda. In *Soft Weapons*, Gillian Whitlock explores the dynamism and ubiquity of contemporary life writing about the Middle East and shows how these works have been packaged, promoted, and enlisted in Western controversies. Considering recent autoethnographies of Afghan women, refugee testimony from Middle Eastern war zones, Jean Sasson's bestsellers about the lives of Arab women, Norma Khouri's fraudulent memoir *Honor Lost*, personal accounts by journalists reporting the war in Iraq, Satrapi's *Persepolis*, Nafisi's book, and Pax's blog, Whitlock explores the contradictions and ambiguities in the rapid commodification of life memoirs. Drawing from the fields of literary and cultural studies, *Soft Weapons* will be essential reading for scholars of life writing and those interested in the exchange of literary culture between Islam and the West.

The Chronicles of Maxwell and His Runaways Patrick Coley, 2014-02-13 This is the second book in the story about Maxwell O'Brien and the runaways who have joined him. They have several more adventures on the trail while they travel across the county. Some of the runaways join the council while others discover and develop new skills. They find a place to settle and

must use the rest of the summer to prepare for the winter to come. Max and those on the council continue to write of their time together in the journals. These books are used to educate selected individuals in town near their camp asking them to keep their secret. Will Max's secret be kept? Only time will tell.

Communicating War Sarah Maltby, Richard Keeble, 2007 Wars are now mediated in unprecedented ways and through a variety of communicative forms. Correspondingly, there is an increasing awareness among those involved in war of the need to gauge and manage what is communicated. *Communicating War: Media, Memory and Military* contextualises these developments by locating the emergence of recent wars and terrorist activity in a wider frame of global socio-political change, highlighting the social, political and historical aspects of 'communicating war'. This includes: . the remembering and forgetting of wars through cultures of collective memory and media selectivity; . the organization, practice and culture of media institutions in the mediation of war information; . and the strategic use of information by military institutions and terrorist organizations in the execution of war and terrorist acts. Remaining sensitive to the complexities of conflict, the book moves beyond a focus on UK and US interventions and reflects upon the communication of war in relation to all forms of conflict, particularly terrorism and under reported civil conflicts. Adopting a multi-disciplinary approach, *Communicating War: Media, Memory, Military* will be of interest to students in journalism, media, war and peace studies, international relations and international politics. Contributors include practitioners from within the journalistic and military communities and international scholars from a broad range of social sciences: Stuart Allan, David Altheide, Chris Atton, Oliver Boyd-Barrett, Nico Carpentier, Neal Curtis, Richard Keeble, Andrew Hoskins, Makram Khoury-Machool, Sarah Maltby, Donald Matheson, Lara Pawson, Ron Schleifer, Martin Shaw, Angus Taverner, John Tulloch, Howard Tumber and Jeremy Tunstall. -

REVIEWERS COMMENTS - Few topics of media research affect us more personally, and emotionally, than how media represents war, and the military's partly hidden role in that process.

Communicating War is a wide-ranging and important contribution to that debate, which also has the advantage of being right up-to-date. Essential reading Nick Couldry, Professor of Media and Communications, Goldsmiths University of London We live in an age where the relationship between war and communications media is more complex and more urgent than ever before.

Communicating War is, therefore, to be welcomed. Its rich collection sets the agenda, as does the War and Media Network, from which it emerges. Crucially, the collection reminds us of that which is 'forgotten', which can be as important in the war-media relationship today as those things embedded in memory. James Gow, Professor of International Peace and Security, Kings College London A timely and hugely valuable contribution to the scholarly literature on news about conflict and war. The range of contributors, and the variety of themes covered, make this collection essential reading for students and researchers of conflict reporting in the post-9/11 world. Brian McNair, Professor of Journalism and Communication, University of Strathclyde.

Communicating War is a timely collection of great diversity, bringing both historical depth and theoretical sophistication to a range of urgent contemporary debates about the media's role in war. Philip Hammond, Reader in Media and Communications, London South Bank University

Guerrillers del teclat Lali Sandiumenge, 2015-06-18 La Primavera àrab i, en concret, els aixecaments populars que van aconseguir derrocar Ben Ali i Hosni Mubàrak a principis del 2011 no van sorgir del no-res: al contrari, feia anys que s'estaven covant al carrer i al ciberespai. Aquest llibre és un homenatge a la jove generació digital àrab i al paper que ha tingut a l'hora de preparar el camí de les revoltes contra les dictadures que sacsegen el Pròxim Orient i el nord de l'Àfrica. Els bloguers i

blogueres que la periodista Lali Sandiumengeha conegut i entrevistat des del 2004 -i que són els protagonistes d'aquest llibre- tenen una mitjana d'edat de poc més de trenta anys, però ja es consideren a si mateixos membres de la «primera» generació d'activistes digitals. Van ser els pioners i la seva tasca ha estat fonamental per engendrar un nou llenguatge de dissidència i un nou tipus d'activisme per al canvi: individual però col·lectiu, autònom però col·laboratiu, acèfal i descentralitzat, local i regional i, ara mateix, global. Guerrillers del teclat mostra la importància que internet ha tingut i té al món àrab per promoure la llibertat d'expressió i la lluita democràtica i contra la tirania, però sobretot és la història apassionant d'un grup de nois i noies que van aprofitar amb valentia i creativitat totes les possibilitats de la xarxa i dels mitjans socials per conscienciar, polititzar i mobilitzar una generació que tothom creia adormida.
