Not Free, Not for All Cheryl Knott,2017-02-14 Americans tend to imagine their public libraries as time-honored advocates of equitable access to information for all. Through much of the twentieth century, however, many black Americans were denied access to public libraries or allowed admittance only to separate and smaller buildings and collections. While scholars have examined and continue to uncover the history of school segregation, there has been much less research published on the segregation of public libraries in the Jim Crow South. In fact, much of the writing on public library history has failed to note these racial exclusions. In *Not Free, Not for All*, Cheryl Knott traces the establishment, growth, and eventual demise of separate public libraries for African Americans in the South, disrupting the popular image of the American public library as historically welcoming readers from all walks of life. Using institutional records, contemporaneous newspaper and magazine articles, and other primary sources together with scholarly work in the fields of print culture and civil rights history, Knott reconstructs a complex story involving both animosity and cooperation among whites and blacks who valued what libraries had to offer. African American library advocates, staff, and users emerge as the creators of their own separate collections and services with both symbolic and material importance, even as they worked toward dismantling those very institutions during the era of desegregation.

All Ages Welcome Lina Bertinelli,Madeline Jarvis,Kathy Kosinski,Tess Wilson,2020-07-29 According to 2016 Pew Research Center survey data, Millennials are more likely to have visited a public library in

the past year than any other adult demographic. But despite being core library users, millennials and other younger generations are often underrepresented on library boards and library advocacy groups, including Friends groups and Foundations. But you can change that, with the help of this planner's hands-on worksheets, brainstorming activities, checklists, and expert advice. Using this toolkit from United for Libraries you will understand generational differences and commonalities through statistics and analysis of Baby Boomers, Generation X, Millennials and Generation Z/post-Millennials; learn how to navigate the challenges of fundraising with the "debt generations" by persuasively answering the question "what's in it for me?"; master the ABCs of recruitment and retention, tailoring them to fit your library; craft several customized pitches, giving you confidence no matter the situation or audience; discover how to cement buy-in from two key groups, current organization members and your new recruits, thereby ensuring acceptance and enthusiasm all around; work towards defining and managing diversity for your advocacy group; and use tried and true methods for successful onboarding of volunteers, including a Board Member Orientation Checklist and guidance on mentoring. Using this resource, libraries of all kinds will be empowered to grow and strengthen their recruitment, retention, and training of Trustees, Friends, and Foundation members.

Law Library Collection Development in the Digital Age Gordon Russell, Michael Chiorazzi, 2018-10-24
While the digital revolution has touched every aspect of law librarianship, perhaps nowhere has the effect been more profound than in the area of collection development. Many of the materials law libraries traditionally collected in print form are now available in electronic format. Digital technology has affected

the way we select, order, and process legal materials. The World Wide Web has created an explosion of both commercial and private online publishing. The cost of electronic publishing has caused many traditional law book publishers to sell their companies rather than invest in the needed technologies to compete in the 21st century. Small publishers and book jobbers have been forced to reinvent themselves. The amount of legal information available and its costs continue to soar. Law Library Collection Development in the Digital Age deals with these and other issues related to law library collection development. Chapters range from the theoretical to the practical. Inspired by Penny Hazleton's seminal paper "How Much of Your Print Collection is Really on Lexis or Westlaw?" the editors and chapter authors of Law Library Collection Development in the Digital Age endeavor to expand on professor Hazleton's work, with examinations of: the role of law libraries in strategic planning for distance learning Web mirror sites trust vs. antitrust issues access vs. ownership issues how law libraries deal with electronic court records, dockets, and filings the growth of e-journals as they relate to legal publishing how the Hein Greenslips and Blackwell North America's Bookservice cover legal materials past, present, and future roles of specialized book jobbers and more! Anyone interested in law librarianship or the information industry will find this book informative and useful. Make it a part of your professional collection today.

The Public Library, 2014-05-27 A gorgeous visual celebration of America's public libraries including 150 photos, plus essays by Bill Moyers, Ann Patchett, Anne Lamott, Amy Tan, Barbara Kingsolver, and many more. Many of us have vivid recollections of childhood visits to a public library: the unmistakable musty scent, the excitement of checking out a stack of newly discovered books. Today, the more than 17,000 libraries in America also function as de facto community centers offering free access to the internet, job-hunting assistance, or a warm place to take shelter. And yet, across the country, cities large and small are closing public libraries or curtailing their hours of operation. Over the last eighteen years, photographer Robert Dawson has crisscrossed the country documenting hundreds of these endangered institutions. The Public Library presents a wide selection of Dawson's photographs— from the majestic reading room at the New York Public Library to Allensworth, California's one-room Tulare County Free Library built by former slaves. Accompanying Dawson's revealing photographs are essays, letters, and poetry by some of America's most celebrated writers. A foreword by Bill Moyers and an afterword by Ann Patchett bookend this important survey of a treasured American institution.

The Library as Forum in the Social Media Age John Budd, 2022-03-25 Libraries may be the last location

where civil, serious political discussion can take place. This book details precisely how that vision can be achieved.

Nia and the New Free Library Ian Lendler,2021-06 This picture book tells the story of one girl who reminds an entire town of the joy of books. When the town's old library is destroyed by a tornado, the people are left wondering: What should they do with the space where the library used to be? The characters in *Nia and the New Free Library* all want different things: the builder wants there to be a new skyscraper, the grocer wants a new parking lot, but Nia just wants a new library . . . but how can one

person build a whole library? • Explores the power of community and what a group can accomplish • Teaches the importance of working together toward a common goal • Reminds readers of the important role libraries play in community, and how they work Sometimes the biggest things can start with almost nothing at all. Ian Lendler and Mark Pett bring humor and heart to this clever twist on the classic Stone Soup folktale. • This triumphant ode to the magic of sharing stories is sure to strike a chord with bibliophiles of all genres, ages, and stripes. • Perfect for children ages 5 to 8 years old • Great for parents and grandparents, as well as librarians, teachers, and educators • You'll love this book if you love books like Stone Soup by Marcia Brown, Delivering Your Mail by Ann Owen, and Seeds and Trees by Brandon Walden.
