**Software and Mind** Andrei Sorin,2013-01-01 Addressing general readers as well as software practitioners, *Software and Mind* discusses the fallacies of the mechanistic ideology and the degradation of minds caused by these fallacies. Mechanism holds that every aspect of the world can be represented as a simple hierarchical structure of entities. But, while useful in fields like mathematics and manufacturing, this idea is generally worthless, because most aspects of the world are too complex to be reduced to simple hierarchical structures. Our software-related affairs, in particular, cannot be represented in this fashion. And yet, all programming theories and development systems, and all software applications, attempt to reduce real-world problems to neat hierarchical structures of data, operations, and features. Using Karl Popper's famous principles of demarcation between science and pseudoscience, the book shows that the mechanistic ideology has turned most of our software-related activities into pseudoscientific pursuits. Using mechanism as warrant, the software elites are promoting invalid, even fraudulent, software notions. They force us to depend on generic, inferior systems, instead of allowing us to develop software skills and to create our own systems. Software mechanism emulates the methods of manufacturing, and thereby restricts us to high levels of abstraction and simple, isolated structures. The benefits of software, however, can be attained only if we start with low-level elements and learn to create complex, interacting structures. Software, the book argues, is a non-mechanistic phenomenon. So it is akin to language, not to physical objects. Like language, it permits us to mirror the world in our minds and to communicate with it. Moreover, we increasingly depend on software in everything we do, in the same way that we depend on language. Thus, being restricted to mechanistic software is like thinking and communicating while being restricted to some ready-made sentences supplied by an elite. Ultimately, by impoverishing software, our elites are achieving what the totalitarian elite described by George Orwell in *Nineteen Eighty-Four* achieves by impoverishing language: they are degrading our minds.

***Healing Magic*** Levanah Shell Bdolak,2010-06-30 **BACK COVER OF BOOK** Learn to heal yourself and others. Are You a Healer? Everyone has the ability to heal but most people do not pay attention to this wondrous skill. To heal with energy is to believe the spiritual truism that energy comes first and all else stems from it. Most people believe in the world that they see with their eyes but not the internal world that they feel with their hearts and spirit. It is your energy that creates who you are and what happens to you. Who can be a healer? Everyone is a healer. All of us are Light Beings. Each one of us holds the magical key of reaching the healer within, the part of you that is whole and always in touch with the oneness of the universe, which is what we call your Higher Self. Healing is the art of bringing a person's energy back to a true balance. We all have the ability to heal ourselves, and others. Energetic Healing introduces you to the skills of being able to diagnose to heal; to understand the

nature of Karma and Free Will; to heal without taking on the other person's pain, energy or problem; and to heal from a place of neutral cosmic love. Healing is a very powerful skill. It is the type of skill you will get to practice more than any other skill since people seem always to be encountering one healing problem or another in life! You do not have to become a professional Healer or a full time healer to practice the art of healing. There is always some type of healing to be done. Sometimes it is a healing of a physical problem but it can also be a healing of an emotional, mental or spiritual nature too. What the Healer learns from Healing: Healing is the ability to change or shift energy. If you can shift your own energy or someone else's to heal yourself of a physical problem you can also shift your energy to "heal" yourself of an emotional, mental, financial or spiritual problem too. Many people study Energetic Medicine, and go on in life to use these skills to improve their financial situation, to create better relationships with spouses and family members, to change outmoded, rigid or stuck ways of thinking, to clear old emotional patterns and feelings and to release physical pain and trauma in their bodies. Energetic Medicine is the art of moving energy. Once you understand that "energy" comes first and is the cause of all of your experiences you can use your skills to move the energy and learn to create your own reality. The author, Levanah Shell Bdolak, has taught this form of energy healing for thirty years, In this book she gives you step by step instructions to practice energetic healing as if you are attending a class in person.

He survived his drowning attempt, but lost his ability to waterbend. At his lowest point, Tony sought support from a Magical Healer who helped him heal. **Magical Herbalism** Scott Cunningham, 2013-05-08 Natural magic utilizes the world around us for magical purposes. Herbs are one of the most important tools for natural magic, and the best introduction to this system is found in Scott Cunningham's Magical Herbalism. This book presents a complete system of magic using herbs. You will learn the theory of magic and the tools you'll need. Then you'll get countless techniques for using herbs for magic. Need a protection method? Pick

several protective herbs and bind the stems together with red thread, then hang them up. This practice dates back to Babylonian times. You'll find a list of over 115 herbs that details their magical powers, so you can easily find which ones are protective in nature. How about a divination using herbs? Get a small quantity of dried patchouly, mugwort, or wormwood. Crumble the herb between your hands until it is finely diminished. Next, pour it into a small square pan (glass or ceramic). Light yellow candles and place the pan on your working area. Close your eyes, extend the index finger of your weak hand, and gently touch the center of the pan with its tip. Move it at random in the pan, shifting from one direction to another ... Now, remove your finger, open your eyes, and interpret the symbols you have just written in the herb. All of the techniques, rituals, spells, talismans, healing methods, and charms are this easy. And most importantly, they work! You'll also find how to make and use incenses, scented oils, perfumes, fluid condensers, and so much more. Here is your chance to work with a beautiful and simple system. Give it a try! You won't be disappointed.
