Amazing Minds Jan Faull,Jennifer McLean Oliver,2010-08-03 A noted parenting expert provides the latest research on child development and offers games and activities parents can use to support their child's natural abilities. Drawing on the latest fascinating research in child brain development, noted parenting expert Jan Faull gives parents the essential tools to recognize and encourage their child's natural development- and have fun with their kids in the process. Simple to use and easy to understand, the techniques in Amazing Minds show parents how to support their children's capacity for learning. Faull describes chronologically what babies are capable of and the research behind those findings-then provides clear instruction, practical exercises, and fun games to play with babies to enhance their innate learning process. Amazing Minds will change how people view babies-from newborns to toddlers- and foster a new level of nurturing for generations of parents, educators, and caregivers.

Pad's Army Paul Addy,2022-04-23 A brief factual account from memory of one man's journey through life in the British Army from 1975 to 1999 and how a gormless face, an unrealistic belief in 'Rodger the Dodger' and a determination to survive conquered all, well ... nearly all - no one's perfect.

Kun-mkhyen Pad-ma dKar-po's Amitayus Tradition of Vajrayana Buddhist Transformative Care Bhikshuni Lozang Trinlae,2017-12-19 The book opens fresh ground in Buddhist studies and practical theology by applying phenomenological research methods to empirically discern transformative aspects of contemplative experience using reports elicited directly from contemporary practitioners. The work portrays the experiences of performing Kun-mkyen Pad-ma dKar-po's 16th c. ritual in a practice tradition attributed to the 12th c. female Indian teacher SiddharajĀ±i. Preliminary spiritual care and contemplative factor models are presented along with a detailed theoretical process analysis of positive spiritual development as a method of Ā±spiritual care through the contemplative action of the liturgy. Bhikshuni Lozang Trinlae is a fully ordained Buddhist monastic, contemplative, practical theologian, and chaplain. Founder of Mahaprajapati Vihar hermitage in Solukhumbu, Nepal, her scholarly work is in the areas of contemplative studies and hermeneutics of lived religion, and it explores the epistemological and transformative characteristics of religious experience. The Clinical Spectrum of Alzheimer's Disease Suzanne De La Monte,2011-09-06 The Clinical Spectrum of Alzheimer's Disease: The Charge Toward Comprehensive Diagnostic and Therapeutic Strategies is highly informative and current. Acknowledged experts in the field critically review both standard and under-appreciated clinical, behavioral, epidemiological, genetic, and neuroimaging attributes of Alzheimer's disease. The collection covers diverse topics of interest to clinicians and researchers alike. Experienced professionals and newcomers to the field will benefit from the read. The strengths and weaknesses of current clinical, non-invasive, neuro-imaging, and biomarker diagnostic approaches are explained. The perspectives give fresh insights into the process of neurodegeneration. Readers will be enlightened by the evidence that the neural circuits damaged by neurodegeneration are much broader than conventionally taught, suggesting that Alzheimer's could be detected at earlier stages of disease by utilizing multi-pronged diagnostic approaches. This book inspires renewed hope that more effective treatments could be developed based upon the expanding list of potential therapeutic targets.
