Cold War Modern David Crowley, Jane Pavitt, 2008 Modern life after 1945 seemed to promise both utopia and catastrophe. Both could, it seemed, be achieved at the 'push of a button'. Reassessing 'classic' designs and introducing many little-known objects.

The Solotype Catalog of 4,147 Display Typefaces Dan X.

Solo,2014-05-05 The author of many books on typography, Dan X. Solo was also the proprietor of his own typography shop in Oakland, California — an establishment dedicated to unusual typography and special effects. This comprehensive catalog offers graphic designers a dazzling selection of over 4,000 typefaces and optical effects available from Solotype Typographers. Here, in Solo's words, is a great cast of characters — the alphabet — abetted by a cornucopia of typographical ideas and an endless resource of letters, words, phrases, slogans, logos, humorous comments, headlines, and graphic symbols. Individual sections of the book display a rich variety of typefaces in categories such as Condensed, Victorian, Art Nouveau, Art Deco, Rustic, Thick-and-tin, Calligraphic, Uncials, Latins, and Blackletter. Samples are imaginatively presented. Stagecoach, for example, is printed in Fargo typeface, evoking dusty trails, rawhide, and ten-gallon hats, while Sizzling summer savings appears appropriately in the flamboyant Firebug typeface. All typefaces are indexed for quick and easy reference. As entertaining as it is practical and useful, this impressive treasury of versatile typefaces and optical effects will be indispensable to busy commercial artists as an inexhaustible source of typographic ideas and a swipe file of words, phrases, and letters for use in graphic art projects.

Victorian Display Alphabets Dan X. Solo,1976-01-01 Artists, crafters, and designers will rejoice in 100 unusual and authentic Victorian type fonts. Plain and decorative alphabets include Calliope, Buffalo Bill, Shaded Barnum, Fargo, Jackpot, and Burlesque. Styles range from bold Bohemia and Broadside to delicate Aeolian Open and Arboret. Many include lowercase letters and numbers, plus Victorian printer's ornaments.

UnMarketing Scott Stratten,Alison Stratten,2016-10-10 UnMarket

to build trust and make lifelong customers! In 2009, Scott Stratten and Alison Stratten wrote the bestselling *UnMarketing: Stop Marketing, Start Engaging* and began a journey that would take them around the world sharing their message of engagement with corporations, entrepreneurs, and students. They are now back with this second edition, because Everything has Changed and Nothing is Different, with all the brilliance of the first edition, plus new content and commentary to reflect the rapidly changing landscape we all live, buy, and work in today. For generations, marketing has been hypocritical. We've been taught to market to others in ways we hate being marketed to (cold-calling, flyers, ads, etc.). So why do we still keep trying the same stale marketing moves? *UnMarketing* shows you how to unlearn the old ways and consistently attract and engage the right customers. You'll stop just pushing out your message and praying that it sticks somewhere. Potential and current customers want to be listened to, validated, and have a platform to be heard—especially online. With *UnMarketing*, you'll create a relationship with your customers, and make yourself the logical choice for their needs. We know you've been told to act like other people, talk like other people, and market like all the people, but it is time for you to unlearn everything and start to *UnMarket* yourself. *UnMarketing* includes the latest information on: Idea Creation, Viral Marketing and Video, Marketing to Millennials, Authenticity, Transparency and Immediacy, Ethics and Affiliates, Social Media Platforming, UnPodcasting, Word of Mouth, Customer Service, Consumer Advocacy and Leadership. With examples of what to do, and what not to do, from small business right up to worldwide corporations in areas such as real estate, travel, service, retail, and B2B.

An Anthology of Informal Latin, 200 BC–AD 900 J. N.

Adams, 2016-09-26 This book contains over fifty passages of Latin from 200 BC to AD 900, each with translation and linguistic commentary. It is not intended as an elementary reader (though suitable for university courses), but as an illustrative history of Latin covering more than a millennium, with almost every century represented. Conventional histories cite constructions out of context, whereas this work gives a sense of the period, genre, stylistic aims and idiosyncrasies of specific passages. 'Informal' texts, particularly if they portray talk, reflect linguistic variety and change better than texts adhering to classicising norms. Some of the texts are recent discoveries or little known. Writing tablets are well represented, as are literary and technical texts down to the early medieval period, when striking changes appear. The commentaries identify innovations, discontinuities and phenomena of long duration. Readers will learn much about the diversity and development of Latin.
