Orthobiologics Giuseppe Filardo,Bert R. Mandelbaum,George F. Muschler,Scott A. Rodeo,Norimasa Nakamura,2021-12-02 This book presents the evidence related to the use of injectable biologics to provide faster and better healing for musculoskeletal lesions and conditions. The authors discuss approaches, such as blood derivatives and cell concentrates, applied to lesions of muscles, ligaments, tendons, bones, meniscus and cartilage, as well as osteoarthritis. Chapters are written by some of the most influential opinion leaders in the field, with up-to-date review of the current literature, where the authors explore both the potential and the limitations of these minimally invasive and promising treatments. The first section is devoted to the formulations and rationale for the use of injectable orthobiologics, while the second section reviews current treatment methods applied to specific joints and pathologies – ranging from tendinopathies through non-unions to articular degenerative processes – as well as the results of these treatment approaches. The third section explores future perspectives, such as pluripotent stem cells, gene therapy, and the stimulation of intrinsic stromal cell niches. Appealing to a broad readership, this book will be of interest to both laboratory research scientists and clinicians, including orthopedists, sports physicians, physiatrists, and regenerative medicine experts.

A Storm of Horses Ruth Sanderson,2022-02-14 An inspiring picture book about Rosa Bonheur, the most famous and best-selling painter of her century In a stunning ode to underrepresented women everywhere, award-winning illustrator Ruth Sanderson tells the untold story of French artist Rosa Bonheur in this picture book biography. Rosa Bonheur was born in 1822 in France at a time when young women had limited options beyond being a wife and mother. But Rosa wouldn't stand for this. She wore pants, rode horses astride, and often broke society's rules. She wanted to be a famous painter just like her father. Female artists at the time were encouraged to paint domestic scenes of children and family, but Rosa was determined to capture the unbridled wild beauty of horses. Her masterpiece The Horse Fair was eight feet high and sixteen feet wide. Rosa went on to become the most celebrated artist of her time with paintings purchased by art collectors, museums, and galleries around the world. With the decline in popularity of realistic painting, Rosa's trailblazing story was almost forgotten. Revel at the bravery and fortitude of young Rosa as you take in Ruth Sanderson's immaculate rendition of her life and artistry.

Striding Both Worlds Melissa Kennedy,2011-01-01 Striding Both Worlds illuminates European influences in the fiction of Witi Ihimaera, Aotearoa New Zealand's foremost Māori writer, in order to question the common interpretation of Māori writing as displaying a distinctive Māori world-view and literary style. Far from being discrete endogenous units, all cultures and literatures arise out of constant interaction, engagement, and even friction. Thus, Māori culture since the 1970s has been shaped by a long history of interaction with colonial British, Pakeha, and other postcolonial and indigenous cultures. Māori sovereignty and renaissance movements

have harnessed the structures of European modernity, nation-building, and, more recently, Western global capitalism, transculturation, and diaspora – contexts which contest New Zealand bicultural identity, encouraging Māori to express their difference and self-sufficiency. Ihimaera’s fiction has been largely viewed as embodying the specific values of Māori renaissance and biculturalism. However, Ihimaera, in his techniques, modes, and themes, is indebted to a wider range of literary influences than national literary critique accounts for. In taking an international literary perspective, this book draws critical attention to little-known or disregarded aspects such as Ihimaera’s love of opera, the extravagance of his baroque lyricism, his exploration of fantasy, and his increasing interest in taking Māori into the global arena. In revealing a broad range of cultural and aesthetic influences and inter-references commonly seen as irrelevant to contemporary Māori literature, *Striding Both Worlds* argues for a hitherto frequently overlooked and undervalued depth and complexity to Ihimaera’s imaginary. The present study argues that an emphasis on difference tends to lose sight of fiction’s capacity to appreciate originality and individuality in the polyphony of its very form and function. In effect, literary negotiation of Māori sovereign space takes place in its forms rather than in its content: the uniqueness of Māori literature is found in the way it uses the common tools of literary fiction, including language, imagery, the text’s relationship to reality, and the function of characterization. By interpreting aspects of Ihimaera’s oeuvre for what they share with other literatures in English, *Striding Both Worlds* aims to present an additional, complementary approach to Māori, New Zealand, and postcolonial literary analysis.

Land and Power in Hawaii George Cooper,Gavan Daws,1990 Describe a pervasive way of conducting private and public affairs in which state and local office holders throughout Hawaii took their personal financial interests into account in their actions as public.

Language Issues in Comparative Education Carol Benson,Kimmo Kosonen,2013-06-13 This volume compiles a unique yet complementary collection of chapters that take a strategic comparative perspective on education systems, regions of the world, and/or ethnolinguistic communities with a focus on non-dominant languages and cultures in education. Comparison and contrast within each article and across articles illustrates the potential for using home languages – which in many cases are in non-dominant positions relative to other languages in society – in inclusive multilingual and multicultural forms of education. The 22 authors demonstrate how bringing non-dominant languages and cultures into schooling has liberatory, transformative potential for learners from ethnolinguistic communities that have previously been excluded from access to quality basic education. The authors deal not only with educational development in specific low-income and emerging countries in Asia (Afghanistan, Bangladesh, Cambodia, the Philippines Thailand and Vietnam), Latin America (Guatemala and Mexico) and Africa (Mozambique, Senegal and Tanzania), but also with efforts to reach marginalized ethnolinguistic communities in high-income North American countries (Canada and the USA). In the introductory chapter the editors highlight common and cross-cutting themes and propose appropriate, sometimes new terminology for the discussion of linguistic and cultural issues in education, particularly in low-income multilingual countries. Likewise, using examples from additional countries and contexts, the three final chapters address cross-cutting issues related to language and culture in educational research and development. The authors and editors of this volume share a common commitment to comparativism in their methods and analysis, and aim to contribute to more inclusive and relevant education for all. “A richly textured collection which offers a powerful vision of the possible, now and in the future.” Alamin Mazrui, Rutgers State University of New Jersey, USA “This book takes the local perspective of non-dominant language communities in arguing for a multilingual habitus in educational development. Benson and Kosonen masterfully extend theories and clarify terminology that is inclusive of the non-dominant contexts described here.” Ofelia García, City University of New York, USA

Variable Star Robert A. Heinlein,Spider Robinson,2010-12-07 A never-before-published masterpiece from science fiction's greatest writer, rediscovered after more than half a century. When Joel Johnston first met Jinny Hamilton, it seemed like a dream come true. And when she finally agreed to marry him, he felt like the luckiest man in the universe. There was just one small problem. He was broke. His only goal in life was to become a composer, and he knew it would take years before he was earning enough to support a family. But Jinny wasn't willing to wait. And when Joel asked her what they were going to do for money, she gave him a most unexpected answer. She told him that her name wasn't really Jinny Hamilton---it was Jinny Conrad, and she was the granddaughter of Richard Conrad, the wealthiest man in the solar system. And now that she was sure that Joel loved her for herself, not for her wealth, she revealed her family's plans for him---he would be groomed for a place in the vast Conrad empire and sire a dynasty to carry on the family business. Most men would have jumped at the opportunity. But Joel Johnston wasn't most men. To Jinny's surprise, and even his own, he turned down her generous offer and then set off on the mother of all benders. And woke up on a colony ship heading out into space, torn between regret over his rash decision and his determination to forget Jinny and make a life for himself among the stars. He was on his way to succeeding when his plans--and the plans of billions of others--were shattered by a cosmic cataclysm so devastating it would take all of humanity's strength and ingenuity just to survive.
