Norms and Nobility David V. Hicks,2024-08-06 A reissue of a classic text, Norms and Nobility is a provocative reappraisal of classical education that offers a workable program for contemporary school reform. David Hicks contends that the classical tradition promotes a spirit of inquiry that is concerned with the development of style and conscience, which makes it an effective and meaningful form of education. Dismissing notions that classical education is elitist and irrelevant, Hicks argues that the classical tradition can meet the needs of our increasingly technological society as well as serve as a feasible model for mass education.

Forcing Chess Moves Charles Hertan, 2019-09-01 WINNER of the ChessCafe 2008 Book of the Year Award SHORTLISTED for The Guardian 2008 Chess Book of the Year Award Why is it that the human brain so often refuses to consider winning chess tactics? Every chess fan marvels at the wonderful combinations with which famous masters win their games. How do they find those fantastic moves? Do they have special vision? And why do computers outwit us tactically? Forcing Chess Moves proposes a revolutionary method for finding winning moves. Charles Hertan has made an astonishing discovery: the failure to consider key moves is often due to human bias. Your brain tends to disregard many winning moves because they are counter-intuitive or look unnatural. It's a fact of life: computers outdo us humans when it comes to tactical vision and brute force calculation. So why not learn from them? Charles Hertan's radically different approach is: use COMPUTER EYES and always look for the most forcing move first. By studying forcing sequences according to Hertan's method you will: Develop analytical precision Improve your tactical vision Overcome human bias and staleness Enjoy the calculation of difficult positions Win more games by recognizing moves that matter. This New and Extended Fourth Edition of Hertan's award-winning modern classic includes 50 extra pages with new and instructive combinations. There is a foreword by three-time US chess champion Joel Benjamin, and a special foreword to this new edition by Swedish Grandmaster Pontus Carlsson.
