When he finally finds him, arrested and condemned to death, Barney performs a daring rescue—but his act of heroism will ultimately lead him down a path of greed, betrayal, and doom. Obsessed with pillaging the greatest diamond field in the world, Barney and Joel soon discover the Natalia Star: a flawless and priceless 350 carat specimen. **Cheating at Solitaire** Jane Haddam, 2008-04-15 Margaret's Harbor, a small, exclusive island off the coast of Massachusetts, has been disrupted for weeks by the antics of a group of young celebrities. Kendra Rhode, of the extremely wealthy Rhode family, is the ring leader and part-year resident on the island. Two of her cohorts, Arrow Normand, an aging teen pop idol, and Marcey Mandret, another of the same vintage, have been acting out publicly - drunken, disorderly public behavior eaten up by the press. During one of the most devastating blizzards in decades, Normand staggers up to a local house, covered in blood and incoherently drunk. Her latest boy toy is found shot dead in the front seat of a crashed truck. The only suspect in the crime is Normand herself and she was apparently far too out of it to remember what actually happened that night. Former F.B.I. agent Gregor Demarkian, fleeing from the preparations for his own wedding, is hired to review the case against Normand. What he finds is a case with little evidence, twisted by an out-of-control media and the cult of celebrity surrounding the three young women, and a mare's nest of motives, in what may be the most confusing, twisted case of his entire career.

*It's a Fine Day for the Hill* Adam Watson, 2011 Adam Watson's interest in snow began at 7, the Cairngorms at 9, mountaineering and ski-mountaineering in later boyhood. His book recounts many fine days on the hill in Scotland, Iceland and northern Scandinavia on foot or ski, often on his own in wonderful places that excited him beyond measure. He tells what it was like to be with four remarkable Scots who greatly influenced him as a young naturalist and mountaineer, Seton Gordon, Bob Scott of the Derry, Tom Weir and Tom Patey. The beauty and variety of the hill, the weather and the wildlife were and are an inspiration to him, and his descriptions touch on this. In these modern times of pervasive regulation and politically correct control, this book is a breath of fresh air as a proclamation of the value and wonder that are the greatest joys of lone exploration on the spur of the moment. Author Adam Watson, BSc, PhD, DSc, DUniv, raised in lowland Aberdeenshire, is a retired research ecologist aged 80. He began lifelong interests on winter snow in 1937, snow patches in 1938, the Cairngorms in 1939. A mountaineer and ski-mountaineer since boyhood, he has experienced Scotland, Iceland, Norway, Sweden, mainland Canada, Newfoundland, Baffin Island, Finland, Switzerland, Italy, Vancouver Island and Alaska. His main research was and is on population biology, behaviour and habitat of northern birds and mammals. In retirement he has contributed 16 scientific publications on snow patches since 1994. He is a Fellow of the Arctic Institute of North America, Centre for Ecology and Hydrology, Royal Meteorological Society, Royal Society of Edinburgh, and Society of Biology. Since 1954 he has been a member of the Scottish Mountaineering Club and since 1968 author of the Club's District Guide to the Cairngorms. This book is testimony to the idea that Exploring for yourself by your own free will, without formal courses or training, is the best joy the hills can give (my Preface, *The Cairngorms*, 1975). Now I would add 'without detailed planning', for my best days have been lone trips begun without such planning, indeed on the spur of moment and weather, almost chance events. Four chapters salute Scots to whom I owed much as a young naturalist and mountaineer, Seton Gordon, Bob Scott, Tom Patey and Tom Weir. They held to the above idea. Reading Seton Gordon's *Cairngorm Hills of Scotland* in 1939 changed my life. I wanted to be in these hills at all seasons. Exploration by one's own free will is best pervaded by humility and wonder. Alien to this are avalanche alerts, 'challenge' walks, 'character-building', courses, Duke of Edinburgh Awards, guided walks,

hill-runs, interpretive boards, marker cairns, outdoor centres, qualifications, rangers, route-cards, school outings, signposts, sponsored walks, tests of snowpack stability, text messages sent as avalanche alerts to mobile phones, transceivers, visitor centres, 'walk of the day', wardens, and 'wilderness walks'. Also alien are Munros, Corbetts and other anthropocentric designations, those who 'bag' them as if hills were shot birds, and assault, attack, battle, conquer, conquest, fight, vanquish and victory as if hills were enemies. Many with flashing camera, global positioning, map, compass, mobile phone, and survival equipment are unsafe, as rescue accounts often reveal. Even climbers have been rescued after neglecting navigation on easy ground after completing rock climbs or ice climbs. Those who behave as if alone on an icecap when nobody else knows where they are and no help is possible, have greater inherent safety. They are also more likely to understand and appreciate the hill and its weather, snow, wildlife and indigenous folk.

**The Journal: Cracked Earth** Deborah D. Moore, 2014-07-15 A shocking natural disaster rocks the country. And only one woman is prepared to handle the fallout. A post-apocalyptic thriller series begins. When a major crisis rocks the nation, supply lines are shut down everywhere. The small town of Moose Creek feels the effects almost immediately as they begin to run out of food. In the remote regions of the Upper Peninsula of Michigan, the residents are hit again when the power is cut off to them in the middle of a brutal winter and they must struggle with one calamity after another, with the help of one woman Alexa Smeth is their under-trained Emergency Manager, with problems of her own.

Unsheltered L'trece Ann Worsham, 2010-08-13 The purpose of this book is to inspire as many people as possible. To touch the hearts of millions letting all the world know that through Christ , all things are possible. We as a people must diligently seek the kingdom of God and all things will be added. I am a living witness of this promise. For when I starting seeking the kingdom, all these wonderful things were added to my life without any help from me. The Lord is always with us even when we do not know he's there. My life has been one huge testimony, and I thank God for all of his mighty blessings that he has rained down on me and my family. He took me from the bottom and put me on the top, and he can do the same for any one else.

This Cowboy of Mine R.C. Ryan, 2020-12-15 New York Times bestselling author R.C. Ryan takes readers on a wild ride with a strong heroine who must trust the cowboy trying to save her life. A cowboy with a wild side Kirby Regan isn't opposed living on the edge. After all, she just quit her career in Washington, D.C., so she could move

back to Wyoming and buy her family's ranch. But hiking the Tetons after dark during a snowstorm goes beyond being adventurous, especially when Kirby's boss warns her that an escaped convict is at large. Sheltering in a cave seems the safest option to ride out the blizzard-until Kirby realizes it's already occupied . . . by a ruggedly handsome cowboy. Like the mustangs he treats, veterinarian and rancher Casey Merrick prefers to live wild and free, which is why a relationship is not in the cards for him. He doesn't mind sharing his space with a gorgeous stranger, as long as they can both keep their distance-a task that begins to seem impossible as the attraction between them heats up. But before they can worry about the spark smoldering between them, Casey must find a way to protect Kirby from nature's most ruthless conditions . . . and a convicted killer on the loose. Includes the bonus novel Wildflower Ranch, a continuation of Daisies in the Canyon, by New York Times bestselling author Carolyn Brown!

*Take Down Flag & Feed Horses* William C. Everhart, 1998 Part memoir, part reportage, and all good reading, *Take Down Flag & Feed Horses* is the first volume devoted to the daily work of staff members at Yellowstone National Park. Written by a retired National Park Service historian, the book is divided into two parts, the first chronicling daily life at Yellowstone and the second detailing the savage fires that hit the park during the summer of 1988 and their aftermath. Bill Everhart lived at the park during the summer of 1978, accompanying the superintendent and his staff of rangers, naturalists, and scientists on daily rounds. His lively anecdotes and observations will lure readers farther and farther into the book and perhaps into the park as well. He gives a gripping account of the unstoppable fires of 1988 and shows how fire, a presence in the Yellowstone ecosystem for thousands of years, ensures biological diversity. One of an elite cadre of Park Service employees who served in the system for many years, Everhart would smile knowingly at a comrade's recollection of an old-timer who left often unnecessary instructions that regularly concluded with, Take down flag & feed horses (TDF & FH). His book, a gentle excursion through places and among people, will be attractive to a wide range of readers.
