## **Roulette Winning Made Easy - Part 2. Secrets of Winning Casino Roulette Online!** Narasimhan

R,2017-03-10 Roulette is one of the challenging and strategic casino betting games where we keep limited stakes for betting to get profit depending upon the strategy we use. The percentage of winning would be up to 98% approximately if proper mathematical approach and strategy used with the numbers or sections on the board. Obviously, if we are bit careless and lazy to miss any sequence strategy; leads to minimum or maximum loss. So the roulette must be played very carefully with stable mind and quite intelligent approach only for limited time in a day or week. Keep in mind that if we play long hours continuously; roulette wins! So keep the play minimum in a day. Though the roulette game comes under gambling; it is like a chess board where you will win if properly played with advanced techniques. European and American roulette games are very popular and we choose European roulette example throughout this book to understand well and increase winning chance. European roulette has single zero '0' and American roulette has double '0', '00's where almost playing style is same with approaches. There are many different types of casinos are available like direct casinos in club where really you can play with the people and second approach is to play online. Let us focus online casinos for our games where we play with available online casino vendors. Do not try to go for roulette computers or number generators or any other cross cut cheating methods where you will lose your brain and money to play really with the roulette system. Believe in your talent and knowledge; learn well and really you can perform at the best. Some of the online casino vendors are Royal Panda, Royal Vegas, Spin Palace, Best 365, Indio Casino, 1Cent Casino etc. As we are

giving only few strategic approach or techniques to win the roulette game for money, more about these online casinos can be searched in the sites like [www.casino.org](http://www.casino.org) etc or google the same. These online casino sites are giving free play of roulette where you can use dummy money to play and learn. First practise any methods of strategies in that and then play with your hard earned money to win. Do not play with the real money unless you are at expert level to play roulette. This book is not for learning history or basics/ full strategies of roulette games. Please learn roulette theory of basics first by searching in google or from the above mentioned sites and then go through these methods. It has few roulette strategic approaches to win or gain 3% to 5% or even 10% to 15% everyday of your investment. Couple of methods given in this book are really a treasure and out of thousands of iterations with the profit of more than 100%. This winning/ returns are possible in a month or so. But if people are greedy they may loose more than what they invested; so daily if you limit your profit, you will have reasonable bulk returns like 30% to 50% every month. Without dragging much let us dive in to the topics. Happy Casino Playing!

gambling • Tips for identifying and maintaining positive streaks • Advice on money and bankroll management . . . and much more. Along the way, Anonymous shares examples and anecdotes gleaned from a career working as a pit boss and keeping high rollers under his thumb. You've been told again and again that the odds are stacked against players—but that doesn't stop thousands of gamblers from winning big every day. Discover what they all have in common—and what the house doesn't want you to know—in *Casino Confidential*.

The System Is the Key at Roulette V. I. Brown, 2009-09  
The System Is The Key At Roulette Herein all aspects of roulette are explained, from the basic rules to the decorum which one should expect and adhere when gaming at roulette. The primary aim is to encourage the player to examine the game from a more structured perspective. Since roulette came into being, practitioners have sought a means to beat the house. This book shows that in devising systems to overcome the house advantage, one is only limited by one's imagination. Further, any apprehensions about playing roulette and any pre-conceived notions about the game should likewise be dispelled. This book further demonstrates that roulette is not just a game of chance. It is a game which is, the author argues, should be accorded a place in the study of numerology and of the occult. The author demonstrates that the numbers in this game are influenced by supernatural forces. One can always observe definite patterns in roulette numbers. The key is to detect these patterns and capitalize on them. In addition, the author demonstrates that the number theories which he advocates and the patterns which he has observed can also be seen in other games of chance. ForeWord Clarion Book Review
