Readers interested in the fields of management science and engineering management will benefit from the latest cutting-edge innovations and research advances presented in these proceedings and will find new ideas and research directions. A total number of 132 papers from 15 countries are selected for the proceedings by the conference scientific committee through rigorous referee review. The selected papers in the first volume are focused on Intelligent System and Management Science covering areas of Intelligent Systems, Logistics Engineering, Information Technology and Risk Management. The selected papers in the second volume are focused on Computing and Engineering Management covering areas of Computing Methodology, Project Management, Industrial Engineering and Decision Making Systems.

*Информационные технологии в управлении* Гущин А. Н.,2018-02-20 В пособии представлено общее понятие системы управления, обосновывается необходимость использования информационных технологий. Рассматривается применение информационных технологий на всех стадиях управления. Представленный в пособии материал сконцентрирован вокруг процедуры самого принятия решения и построен по классической схеме принятия управленческих решений: диагноз проблемы – выявление альтернатив – оценка альтернатив – принятие решения. Раскрыты особенности перехода к процессному управлению, которая задается классическим циклом Деминга: планирование, исполнение, контроль, коррекция на примере построения системы сбалансированных показателей для предприятия.
