Handbook of Web Based Energy Information and Control Systems Barney L. Capehart, Timothy Middelkoop, 2020-12-22 This book promotes the benefits of the development and application of energy information and control systems. This wave of information technology (IT) and web-based energy information and control systems (web based EIS/ECS) continues to roll on with increasing speed and intensity. This handbook presents recent technological advancements in the field, as well as a compilation of the best information from three previous books in this area. The combined thrust of this information is that the highest level functions of the building and facility automation system are delivered by a web based EIS/ECS system that provides energy management, facility management, overall facility operational management and ties in with the enterprise resource management system for the entire facility or the group of facilities being managed.

How to be the Smartest Renter on Your Block HOME Line, 2011-03-30 HOME Line wrote How to Be the Smartest Renter on Your Block to help renters through the process of finding, getting, and maintaining rental housing. Reflecting

upon the real-life concerns we hear through thousands of questions on our tenant hotline, this book gives advice on the best ways to handle and avoid the most common rental problems. This book follows the rental process from beginning to end with several additional chapters on unique rental housing situations. The book begins with advice regarding finding and applying for an apartment and moves on to understanding the terms of a lease. Next, some of the most common issues renters run into once they've moved in are covered: getting repairs made, dealing with neighbors, right to privacy, and more. Later, the book addresses what to expect when a renter intends to move out of an apartment and how to make sure a security deposit is returned. Furthermore, several immediate emerging issues in the rental market are covered: What does a renter do when a landlord is in foreclosure? Who is responsible for paying when an apartment becomes infested with bedbugs? Lastly, we take a detailed look at community organizing and how tenants can work collectively to hold their landlords and elected officials accountable. *How to Be the Smartest Renter on Your Block* answers these questions and more.

The Tenant's Guerilla Guide to Office Leasing Christopher Desloge Sr., 2004-03 In the real estate world, the landlord usually holds the cards. It is the landlord who builds or buys the building, arranges the financing, constructs the interiors, as well as hires the leasing agent and property management company. The landlord writes the leases, and pays for the attorney to avoid the leases being changed. The landlord knows exactly how much money he will spend on construction, leasing commissions and concessions; he knows exactly how much he will spend on operating expenses and exactly how much he will charge the tenants. Finally, in office leasing, there is a book designed specifically for the tenant a comprehensive weapon containing all the inside knowledge required to do more than just level the playing field with the landlord, but to actually grant the control to the tenant. *The Tenant's Guerilla Guide to Office Leasing* contains all the inside information to avoid landlord tricks, control many costly details and manage a lengthy process.
