Video Basics Herbert Zettl,1994 Meeting instructors' needs for "a shorter Zettl," this text distills video basics so that they can be covered in a single semester. The book moves students from video concepts and processes to production tools and techniques and, finally, to the production environment (studio or field, inside or outside) and how it affects what is done.

Video Basics 4 Herbert Zettl,2004 This textbook describes the concepts, tools, and activities needed to get started in video production, with chapters on operating the camera, lighting the set, videotape recording systems, the production studio, editing, and acting techniques.

Video Basics with Workbook Herbert Zettl,2012-01-01 Herbert Zettl draws on his expertise and field experience to bring you the seventh edition of VIDEO BASICS, 7E, International Edition the handiest and most authoritative, current, and technically accurate student guide to video production available. Meeting the need for a briefer book, this text distills comprehensive video instruction so that it can be covered in a single semester. The book moves students from video concepts and processes to production tools and techniques and, finally, to the production environment (studio and field, inside and outside) and its effects. A more conceptual framework leads students from the idea (what to create) to the image (how to create) on video.

Video Basics 3 Herbert Zettl,2001 Meeting the instructor's needs for a briefer book, this text distills video basics so that they can be covered in a single term. The book moves students from video concepts and processes to production tools and techniques, and finally, to the production environment (studio or field, inside or outside) and its effects. A more conceptual framework leads the student from the idea (what to create) to the image (how to create) on video.

Art in Chemistry Barbara R. Greenberg,Dianne Patterson,2007-12-30 Integrate chemistry and art with hands-on activities and fascinating demonstrations that enable students to see and understand how the science of chemistry is involved in the creation of art. Investigate such topics as color integrated with electromagnetic radiation, atoms, and ions; paints integrated with classes of matter, specifically solutions; three-dimensional works of art integrated with organic chemistry; photography integrated with chemical equilibrium; art forgeries integrated with qualitative analysis; and more. This is a complete and sequential introduction to General Chemistry and Introductory Art topics. In this newly revised edition, the author, a retired Chemistry teacher, gives extensive and in-depth new explanations for the experiments and demonstrations, as well as expanded safety instructions to insure student safety. Grades 7-12.
