Virtual Woman Millennium Beta Test

K. Erickson-Phan

The Beta K. Erickson-Phan,2016-02-02 For everyone who believes this Earth is more than a Beta Test.It's not easy being the children of parents who work at large technology companies. When high school students Kira and Huy take part in an educational Virtual Reality experiment called The Beta what seems to be a normal set of classes end up challenging their views as they experience race, gender, cultural appropriation, and spirituality in a whole new light -- experiences they will need in order to save themselves and the world around them.The exodus of women from technology careers in the late 80s is a trend that continues to this day and a problem that plagues the tech industry. The Beta explores how Virtual Reality is one of the most powerful tools for understanding gender, race, and history. The female perspective is what sets The Beta apart from all previous visions of Virtual Reality. Far from the male oriented gaming view of technology the tale woven here presents us with a persuasive argument to inject the current Virtual Reality technology industry with female voices. The moral -- involve women in VR now and we can save the planet.

Golden Chaos Colette Rhodes,2021-04-20 Life isn't a fairytale, but for a few days I got to pretend it was. Now I'm back in my childhood bedroom in New York, eating breakup ice cream and listening to early 2000s emo music. Whatever, this was the wake-up call I needed. It's time for Ria 2.0. No more bailouts. No more half-baked projects. No more impulsive decisions. Simple, right? Except my ex-boyfriend wants to drop the ex part, the three bears aren't so willing to let their Goldilocks go, and their mother is more Wicked Witch than Mama Bear. How am I supposed to pull it together when chaos follows everywhere I go? Golden Chaos is book two of the Three Bears duet. It is a medium burn, reverse harem romance for readers 18+

The Sexual Logics of Neoliberalism in Britain Aura Lehtonen,2022-12-30 This book explores the relationship between sexuality and politics in Britain's recent political past, in the decade preceding the Covid-19 pandemic, and asks what sexual meanings and logics are embedded in the dominant political discourses and policies of this time. A discursive framing of 'exceptionality' has commonly attached to the politics of austerity, crisis and neoliberalisation that have characterised the 2010s in Britain, with many noting the depoliticising effects of such a crisis politics. The book's four case studies each investigate a binary concept that has played a key role in these limited and limiting discourses: the stable family/troubled family; deserving/undeserving; public/private and material/cultural. Deploying an expansive notion of sexuality, these binaries are examined by analysing a range of cultural and political texts in which they are reproduced, from policy and legal documents to popular films and TV series. This empirically informed and theoretically innovative analysis makes an important contribution to understandings of sexuality, identity and inequalities, as well as of crisis and neoliberalism. It will be of interest to scholars and students in gender and sexuality studies, cultural studies, sociology, politics and social policy.

Virtual Heritage Erik Malcolm Champion,2021-07-22 Virtual heritage has been explained as virtual reality applied to cultural heritage, but this definition only scratches the surface of the fascinating applications, tools and challenges of this fast-changing interdisciplinary field. This book provides an accessible but concise edited coverage of the main topics, tools and issues in virtual heritage. Leading international scholars have provided chapters to explain current issues in accuracy and precision; challenges in adopting advanced animation techniques; shows how archaeological learning can be developed in Minecraft; they propose mixed reality is conceptual rather than just technical; they explore how useful Linked Open Data can be for art history; explain how accessible photogrammetry can be but also ethical and practical issues for applying at scale; provide insight into how to provide interaction in museums involving the wider public; and describe issues in evaluating virtual heritage projects not often addressed even in scholarly papers. The book will be of particular interest to students and scholars in museum studies, digital archaeology, heritage studies, architectural history and modelling, virtual environments.
