Digital Libraries: Universal and Ubiquitous Access to Information George Buchanan, Masood Masoodian, Sally Jo Cunningham, 2008-11-14 This book constitutes the refereed proceedings of the 11th International Conference on Asian Digital Libraries (ICADL 2008) held in Bali, Indonesia, in December 2008. The objective of this conference series is to provide a forum for presentation of high-quality research in the field of digital libraries. ICADL 2008 provided an opportunity for digital libraries researchers and practitioners in the Asia Pacific area and beyond to gather to explore ideas, exchange and share experiences, and further build the research network in this region. ICADL 2008 was a truly international event, with presenters from 21 countries. A total of 63 papers were accepted for inclusion in the proceedings: 30 full papers, 20 short papers, and extended abstracts of 13 posters. Submissions were subject to a rigorous, blind peer-review process. The research topics cover the spectrum of digital libraries, including multimedia digital libraries, usability and evaluation, information retrieval, ontologies, social tagging, metadata issues, multi- and cross-language retrieval, digital preservation, scholarly publishing and communities, and more. Additionally, three tutorials were offered in association with the conference by Andreas Rauber (Vienna University of Technology), David Bainbridge (University of Waikato), and George Buchanan (Swansea University).

Handbook of Data Compression David Salomon, Giovanni Motta, 2010-01-18 Data compression is one of the most important fields and tools in modern computing. From archiving data, to CD-ROMs, and from coding theory to image analysis, many facets of modern computing rely upon data compression. This book provides a comprehensive reference for the many different types and methods of compression. Included are a detailed and helpful taxonomy, analysis of most common methods, and discussions on the use and comparative benefits of methods and description of how to use them. Detailed descriptions and explanations of the most well-known and frequently used compression methods are covered in a self-contained fashion, with an accessible style and technical level for specialists and non-specialists.

Advances in Cross-National Comparison Jürgen H.P. Hoffmeyer-Zlotnik, Christof Wolf, 2011-06-28 The book consists of five parts and a concluding chapter. Part 1 covers general problems and presents solutions for the harmonisation of data from different national and/or cultural contexts. In the second part EUROSTAT and ESOMAR present their established standard instruments. Tested instruments each covering one variable (i.e. occupation, education) are presented in the third part. The fourth part again includes suggested tools for the harmonisation of single variables for which standardised instruments are not yet available (i.e. age, religion, ethnicity, household, family, income). The last part presents selected empirical analyses demonstrating the use and fruitfulness of instruments presented before. This book is mainly written for two groups. First, researchers and practitioners involved in comparative research in Europe. Second, researchers working with data of the statistical offices of European countries and data from institutions of the European Union.

A Photographic History of The Civil War Francis Miller, 2018-02-01 The Photographic History of the Civil War was first published in 1911 to commemorate the fiftieth anniversary of the great conflict. These volumes were dedicated to the American People in tribute to the courage and the valor with which they met one of the greatest crises that a nation has ever known. A crisis that changed the course of civilization. Contained within are thousands of photographs as well as the rise of photographic journalism during a conflict. This series offers a unique record of one of the greatest conflicts in the history of mankind. Included in this series are maps to mark the battles and line-art decorations that give the reader an authentic feel of the era. The photographs in this series can be viewed as art, history or more importantly journalism. Covering every aspect of war- from the frontline to everyday life- these volumes are a testament to the conflict and the country which emerged from it. Two Years of Grim War is a record of the engagements of the Civil War from August, 1862 to April, 1864. Also contained within is a photographic record of Lee's rise to power.

Competency in Generalist Practice Elizabeth Moore Plionis, 2006-11-09 Competency in Generalist Practice features an original and timely social work practice model that will transform the way generalist and evidence-based practice are taught. Writing with outstanding clarity and sense of purpose, Elizabeth Moore Plionis guides students in the use of a decision tree that will help them take a conscious, theory- and evidence-based approach to solving the complex problems they will face as social workers. This book is a concise but powerful tool for learning how to become an effective social work practitioner. *Presents direct and indirect practice in alternate chapters rather than separate volumes, comparing and contrasting them in an easy-to-grasp manner *Includes chapters on topics rarely found in comparable texts, including professional regulatory and fiduciary responsibilities, case and class advocacy, and service delivery to impoverished families and children *Covers important macro practice skills such as non-clinical communication, crisis management, and the use of groups in policy, management, and community and social change *Features flow charts, decision schemas, and examples of process recordings that vividly illustrate the material *Incorporates both traditional and new theories into the

discussion, linking them to technique and putting them in the context of direct and indirect methods at each step of the decision hierarchy *Supplemented by a companion website that contains slides and a teachers guide for download

Music Business: It's a Dirty Game! Tiwanda 'Ne Ne' Lovelace, 2012-02-01 This title is presented through this artist/writer's eyes while experiencing multiple tragedies and events. Emotionally charged, this title clearly expresses the pain and anger of being betrayed, sacrificed and scorned. Inside, are the actual documentation and files used to demonstrate some of the tactics used to steal artist lives, deny rights and enslave the artist. This title is compiled using personal journals, public records, contracts, copyrights and other documentation which demonstrates how it is allowed to continue. This book shows how those in the industry literally infiltrate the lives of its victims in an effort to gain their trust. Befriending them is a part of the process to determine their weaknesses. This book uses personal experience from direct association with major music industry personnel, contracts with major music publisher. This book is not just for the aspiring artists but it is also for those who are interested in learning how the world actually operates. Although the unethical practices are not limited to any single industry, even after providing solid evidence of unethical business practices, secured copyrights in response to copyright infringements and contracts, the standard response was to attempt to discredit, induce suicide and to intimidate. When you attempt to exercise your rights to seek justice through the courts, you face deliberate deprivation of rights, judicial misconduct and obstruction. The entire process facilitates betrayal, initiates competition among its writers/producers and battles for royalties. These publications are meant to speak on my behalf because I was never acknowledged or considered or consulted. I had a bulls-eye put on my back because I walked away from harmful situation and chaos ensued. I chose to not be subjected by those who saw an opportunity and not a person. I was never recognized as a human being. I was tried and convicted by the court of public opinion before I even knew that I was on trial! This book differs because it doesn't just give you words from one person's viewpoint, it provides step by step documentation proving how the artist works are stolen and how they are able to continue stealing lives with this modern day form of enslavement. This book uses personal experience from direct association with major music industry personnel, contracts with major music publisher- Zomba-BMG; Now - Universal Music Group, copyrights, court records and more to demonstrate tactics used to steal, oppress and destroy lives.
